### Rheumatism Makes an Invalidin Arms

(Saturday Health Talk No.---1) (By Wm. H. MacPherson, D.C., Ph.c.)

When rheumatism attacks a child it makes a temporary invalid in arms of its victim, and may result in a de formity lasting a lifetime. Rheumatism is an acid poisoning of the body due to under elimination of wastes and poisons through the kidneys and

When kidneys and bowels fail to function normally for any period o time long enough to result in rheumatism, the cause is found in the spinal condition. Due to displacement of spinal bones causing pressure on spinal nerves to liver and kidneys there is weakened functioning, and the poisons gradually accumulate. By chiropractic spinal adjustments nerve lines are freed and the kidnevs and howels are restored to normal vigor. The poisons gradually clear from the system and health remove the cause like chiropractic.

## UNCLE BEN "Better muis the ring of health in your voice."

#### WELL IN A WEEK.

"On Sunday night our son, Bobby, was feeling badly. Monday his legs were swollen and he could not walk. We carried him downstairs and called a doctor who said it was rheumatism. He called another in on the case and both agreed it was rheumatism. This was on Wednesday, and on Thursday we called the chiropractor. On Friday the boy could move his feet and on Saturday he ventured ... out to play with other children."-MR. and MRS. FRANCIS G. PHILLIPS. Chiropractic Research Bureau. -Statement 1337N.
