Sugar or Molasses

A gallon of Molasses which retails out a lovely Angel Cake. for about 90 cents to one dollar, conat one dollar per gallon, the sugar content costs over 12 cents per pound; therefore molasses as a sweetening agent is more expensive than sugar.

A good quality of soft sugar will be found much better and cheaper than molasses for use in cakes, puddings, sweet bread, etc. Twelve ounces of soft sugar equals one pint of molasses. It must be borne in mind that all soft sugars are not equally good. One of the best is Lantic Brown Sugar. This excellent sugar is sold out of

bulk, at 8 cents per pound, and at this price it equals molasses at about 50 cents per gallon If you like coffee try it this way:-Use a tablespoon measure of any high grade coffee to each cup of water,

bring to boiling point, then strain. (use same quantities in your percolator) Your coffee liquor is now ready to use. Now take a half cup of the coftee liquor fill up with hot milk, sweeten with Lantic Brown Sugar and drink a beverage fit for the gods. Lantic Brown Sugar disolved in hot water makes a delicious syrup for pan akes, puddings, etc., it is wholesome and tasty. Children like it on bread. Don't forget, sugar is a real food. Princess Mary Prepares to Act as Hostess

London, Eng.—(By Canadian Press) -Princess Mary is going to be the leading British hostess in town this season. Chesterfield House, her town mansion, which up to now has never been completely furnished, is being redecorated and prepared for a busy season. Her husband's vast wealth coupled with her position of such social eminence should make her entertainments the most remarkable that London has seen for a long time.

Both King George and Queen Mary feel that as time goes on they will not be able to entertain so extensively themselves, and with every prospect of Wales remaining a bachelor some nember of the Royal Family is needed to lead the social round. The first big function that Princess Mary is planning is a great banquet at Chesterfield House in honour of the King and Queen when they return from their cruise in the Mediterranean-somewhere about Easter.

Viscountess Lascelles, by the way, is taking a keen interest in the exclusive club for young oversees debutantes that is to be housed in the new palatial building that is rising on the site of old Devonshire House, opposite the Berkeley Hotel. The signs are, indeed, that Chesterfield House is going to be a kind of court for younger visitors of social standing, with the same prestige as the Courts of Buckingham Palace but a
