CLEAN

The baking ready, the cooking finished. Then the meal and afterwards: the washing up, of course.

What a task it would be if the glassy, smooth surface of the enameled cooking utensils did not help to reduce labor.

There is satisfaction in washing enameled ware. The surface is like flint. Sediment and grease cannot lodge in crevices or seams because there are none.

Clean! Just like china, yet stronger than steel. Washed thoroughly with soap and water only.

Bright! and colorful. A pleasure to look at in daily use. Make the kitchen attractive—always retain their gloss and shining beauty.

Dover, Del., May—Dr. W. E. B. DuBois, editor of the Crisis, was the principal speaker at special exercises held by State College on Sunday.
