MINNEAFOLIS, Minn., June 9.—The con-vention reassembled at 8:50 this evening. It has been a cold convention from the be-ginning and its coldness has never been ginning and its coldness has never been more emphatic than this morning. Chairman McKinley came to his seat on the platform to the clapping of perhaps a hundred hands and there was no demonstration at the entrance of any other of the leaders. The band tried to infuse a little life into the meethngiby playing a tumultuous gallop but with little success. When the convention got to business it found that the credentials committee had not finished its work, hence the adjournment until 8 ork, hence the adjournment until 8

A HOT DEBATE.

Up to 10 o'clock, Minneapolis time, thediscussion was on the report of the committee on credentials. The majority report was favorable to Harrison and the
minority report to Blaine. The majority
report recommended that the national
committee be sustained as to 23 votes and
not sustained as to 17 votes recommending the unseating of 17 delegates given
seats temporarily. The net result politically was a gain of about 12 votes to Harrison as compared with the temporary roll.

seate temporarity. The net result point-cally was a gain of about 12 votes to Harri-son as compared with the temporary roll. The adoption of this report was moved. Wallis, of New York, made a minority report as to Alabama, Mississippi and Louisiana, involving ten Harrison votes. A protracted and heated discussion fol-lowed the presentation of the reports, which was ended at 10:40 p.m. by a vote on the question to substitute the minority report for the majority report. The Alabama delegates whose seats were contested voted in favor of themselves. The active opposition at once opened on the part of the Harrison leaders, and finally at 11:22 p.m. the delegates whose seats are in question withdrew their votes and the roll call proceeded.

A HARRISON VICTORY.

It was 12:30 when the motion to adopt the minority report was announced. This vote was taken as an indication of the strength of the Biaine and Harrison following. The Blaine men favored the adoption of the minority report, and made strenuous efforts to carry their point. The result, although the vote was close, was a considerable disappointment to the followers of the Plumed Knight. But although the Harrison folks won the victory their vote is not sufficiently large their vote is not sufficiently large to afford them much gratification. Over 450 votes is required to nominate, and of the vote against the minority report eight came from Michigan (Alger men), and there were probably 30 cr 40 other votes against the adoption of the minority report, which were probably 30 cf. 40 other votes against the adoption of the minority report, which are not strictly Harrison votes, so that neither side can be said to have made a de-cisive point, although there is no doubt that the vote is a black eye for the Blaine

The loud mention by some excited person of the danger of fire only increased the alarm.

It was long after 2 o'clock when the councilors got together, o'clock when the councilors got together, and among those present were Chairman Clarkson, Senator Quay, J. Sloat Fassett, Senator Walcott and ex-Senator Platt. The situation was fully discussed and it was apparent that great bitterness had been engendered by the contest of the evening and the victory of the Harrison forces. The advisability of dropping Blaine and centering upon McKinley or Sherman as a dark horse, was fully discussed, but no definite results were reached. A further conference will doubtless be held before the convention to-day, at which a definite plan of action will be adopted.
