It is taked that the Pastime Athletic Club, of St. Louis, is losing members right Club, of St. Louis, is losing members right and left on account of the aristocratic notions of those in charge. Baptiste, the champin westler, went to the club the champin westler, went to the club the other day wearing a black silk shirt and was toldy a fellow member that it was far from proper; he should have worn the regulation "biled" shirt. Baptiste got mad, sold his stock and withdrew.

The Occidental Athletic Club, of San Francisco, has matched Bob Fitzsimmons, the champion middle-weight fighter, and Joe Acton to wrestle for a purse of \$100 on Nov. 30. Fitzsimmons, having frightened the ambition out of all the puglilists by his easy defeat of Jack Dempsey, has had to turn to wrestling.

The case involving the expulsion of the stallon Temple Bar, winner of the big Detroit stake, will be tried on application for reinstatement by the Board of Review of the National Trotting Association Dec. 1. The New York Press makes the sweeping statement that there was not a club in the country that did not lose money last season. The players have had the long end of it for three years now, and unless they even up matters there will be trouble.

WASHINGTON, Nov. 11.—The Board of Directors of the National Baseball League disposed of Chicago's protests against the award of the championship to Boston. The Chicago charges were found not to have been proven. N. E. Young was re-elected president and secretary and the pennant formally awarded to Boston.

FOOTBALL

Wurtemberg, of the N. Y. A. C. football team, who was so severely injured in the game Saturday, was resting quietly in the hospital yesterday. The attending physician says the injured man was suffering more from shock than anything else, and would come around all right in a day or two. Yesterday afternoon a young man with blackened eyes, swoolen nose, a lame leg and other indications of having been in a railroad accident, limped into the New York Athletic Club house and inquired in York Athletic Club house and inquired in blusky tones what had been heard regarding. Wurtemberg's condition. Upon learning that the winged-foot kicker was all right the inquirer said, "that's good," and limped out. The battered-up man was Donnelly, the enthusiastic player of the Manhattan A. C. team.—[New York Sun.

First Fruits of the Qualification Re. port-A Batch of Applications-Letters to the "Advertiser"-A New English Master for the Institute-Important

Some of the effects of Inspector Carson's recent report on the qualifications of London's public school teachers and resultant action were made evident last night by a batch of 39 applications for appointments to positions made vacant in consequence of that report, and which were handled by No. I Committee of the Educational Board. Twenty-one of these applications were from males and eighteen from females. From the farmer the names of George Kirk and S. P. Beynolds were selected as the most preferable. Mr. Kirk was resommended to the principalship of the Hamilton road school and Mr. Beynolds to that of the King airvest school. The fermer is at present head of the Chattam Model School, and the laster has been teaching at Allas Craig sand Strashroy.

The eighteen ladies applied for eight positions, which are open in the Hamilton road. Lorne awance and Rectory street schools. The finspector drafted a list of those whom he considered themoshiphy qualified, as follows: Misses Howie, Baxter, Giddens, Knott, Crowley, Morris, Field and Niall. Some of these have been substitutes and all are residents of the city.

The members talked a good deal about the recent letters in the ADVERTISER regarding the inspector's late report and other school matters. Trustees MeElheran and Dewar made the charge that the letters over the signatures of Mr. Jarmain and Mr. Heaman were not written by those gentlemen at all. Mr. Yates thought one of the letters were hard on him. It was not right to characterize the Board's action in not giving the report to the public as "start chamber" business; it was considered privately to save the reputation of the teachers affected. If the latter desired is publicity, however, it was their own funeral.

Dr. Ferguson's motion to have a quarterly sanitary inspection of schools and scholars was sent to the medical health officer to enforce it.

A Cruel Joke Played by Friends on a Newly Wedded Couple. Newly Wedded Couple.

Philadelphia, Nov. 11.—Lieut. P. R. Brown, U. S. A., and bride, who were married on Monday at Phillipsburg, were the victims yesterday of a ludicrous practical joke at the hands of their friends. They boarded the Pittsburg day express, which reaches here about 6:30, and like most honymoners, tried to look and act like old married people.

Meanwhile their baggage was holding an impromptu reception in the baggage car. There were three brand-new trunks, and upon one of them a huge card, carefully painted, was tacked with large brass tacks, with the inscription:

"I admire the American Press'immensely," was the opinion Sir Edwin Arnold gave of American newspapers in a late interview with the reporter of the New York Herald. "Here you could not stand our slow, solid ways. There is no nobler profession than that of journalism. I have been through all grades from the penny a liner. Twenty years ago people looked down upon the journalist, but now he is looked up to and stands in the front rank."

GREASING VS. BATHING.

Ottawa Free Press.]

Western physicians have come to the conclusion that cedar block pavements are prejudicial to public health in those cities where they are in use, as they harbor the germs of typhoid and other diseases. There is talk of tearing up the cedar pavements which have been put down at great expense in Toronto. All over the country the cedar block pavement is being condemned, and the general concensus of opinion is that in those cities which cannot afford granite or solid asphalt good brick is about the best material for paving streets. Brick pavements last well, are easily repaired, and no objection can be urged to them on sanitary grounds. grounds.
