Of Hood's Sarsaparilla. You smile at at the igea. But if you suffer from

Dyspepsia And Indigestion, try a bottle, and be fore you have taken half a dozen doses, you will involuntarily think, and no

doubt exclaim. "That Just Hits It!"

"That soothing effect is a magic touch!" Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates a natural, healthy desire for food, gives refreshing sleep, and in short, raises the health tone of the entire system. Remember

THE FLYERS ARE COMING. Entries for the following racers have been received by Secretary McCormick, of the Londons, for the big international meet on the new track, Tecumseh Park, Aug. 28: Arthur Gardner, C. R. Coulter, Monte Scott, Willie De Cardy, E. E. Anderson, Wm. Bainbridge, H. Van Henek and J. Lund. The above comprise the Morgan & Wright team and are among the fastest men traveling on the national circuit. Every preparation is being made to make this one of the largest bicyle events ever given in

Canada. SPOKES. A combined lantern parade of all the bicycle clubs in the city will start from the London Bicycle Club house on Tuesday evening, Aug. 27, at 7:30. It is expected that it will be the largest ever held in the city.

Dr. Balfour and James McCormick, of the Londons, are on the officials list for St.

Thomas, Sarnia and Petrolea meets this Owing to members of the London club being so busily engaged in arranging for the big meet there will be no club run this week. Extra efforts are being put forward for the immense lantern parade on Tuesday evening

next, which promises to eclipse anything that has ever been attempted in the city.

BROWNS DEFEAT THE BAL-MORALS. The Balmorals required three innings of practice ball yesterday in their game with the Browns before they settled down to play baseball. It was costly practice, as it netted the Browns thir-teen runs. Bad fielding was mainly responsible for these, and they gave the

Browns a lead which the Balmorals could not overhaul. A base on balls, two singles, a sacrifice and four of the Browns' five errors, were good for five runs for the Balmorals in the fourth. Clean hitting and base stealing netted two more in the eighth and a double and two singles were good for the last tally in the ninth. With good support Barron, the Balmorals' pitcher, could have won the game. Only one hit was made in the first inning, but notwithstanding the visitors got four runs, two errors by Pierce being responsible for them. Two runs were earned in the second, but two more were obtained partly because of Who are Simpson's error and partly because of going away on a fishing or holiday Grey's inability to handle Barron's speed. Six more runs were made in the third after a chance had been given to

Mr. A. E. Kinder, Strathroy, is off on his holidays, and is being relieved by Mr. Hilliard, of the G. T. R. relieving staff.

Mr. James Noble, P. M., Strathroy, who has been in Scotland for the past two months or so arrived home on Sunday evening looking remarkably well. He returned by steamer Labrador, had a pleasant trip, and altogether had a most enjoyable visit to his relatives in the old land.

Mrs. Adair, who has been visiting Capt. Douglas and family at the Hotel Quite a number of people belonging to Dorchester are spending a few weeks at Port Stanley. Among them are Dr. and Mrs. Graham, Rev. and Mrs. Cook, Mr. and Mrs. Copeland, Mr. and Mrs. Wilson, Dr. Sifton, Miss Maggie Sutherland, Mrs. McCallum, Dr. Thos. Maules, and Mr. and Mrs. Deo.

Wednesday was Strathroy's Civic Holiday. Mr. John S. Beattie, of Chicago, has been visiting his parental home, and his many friends in the vicinity of Pond Mills the past two weeks. He left for Chicago Tuesday morning. Robert Eliott, Pond Mills, left for Moosejaw, in the Northwest, Tuesday morning, intending to visit his

brother Charles, who is a physician in those parts. Robt. Watson was summoned to appear before Squire Nugent for non-pay-ment of wages to Albert Hart. Hart had left before his time without cause, and without giving notice. The decision was given in favor of Hart, defendant to pay him \$40 and also all costs. It is likely the case will be ap-

John McNichol, Belmont, shipped a carload of hogs last week. There will be no service in Knox Church, Belmont, until 7:30 next Sabbath on account of Rev. J. Currie having to preach the opening services of the Methodist Church, on the 12th concession, Yarmouth.

The numerous friends of Mr. John Carrothers in Middlesex, particularly in Caradoc and Westminster townships, will be glad to hear of the success which attended the "boys" in connection with exhibits at the recent Territorial Fair held in Regina. Mr. Austin Carrothers succeeded in taking a front place with his horses, several prizes coming his way. In Cotswold and Lin-coln sheep, upwards of twenty prizes were secured by the Carrothers Bros. The Regina Standard refers in very complimentary terms to the success of the gentlemen named, and compliment-

ed them highly on their enterprise. The numerous friends of Miss M. A. Carrothers, eldest daughter of Mr. John Carrothers, late of the township of Caradoc, will be glad to learn of her marriage to Mr. T. J. Little, an energetic resident of Regina. The Regina Standard of a late date had the following pleasant paragraph in reference to Mr. and Mrs. Little: "The friends of Mr. and Mrs. T. J. Little gave them a pleasant surprise party. Mr. Little was presented with an easy chair, and Mrs. Little with a rocking chair. Rev. S. R. Brown made a suit able address in behalf of the donors and expressive of the esteem in which the newly-wedded pair are held in the community." The young woman in the case is a granddaughter of Mrs. Samuel Bratt, of South London.

PAID DEARLY FOR IT.

The Australian colonies afford many object lessons in tariff operations, Victoria believes in the encouragement of infant industries and maintains a duty on binder twine. She has two infant factories supplying the farmers of the colony and also of the neighboring island, Tasmania, the latter place having no protective tariff. During the past season the twine retailed at 8d a pound to the Victoria farmers, and the same brand of twine from the same factories sold at 6d a pound to the farmers in Tasmania.

UNDAUNTED MISSIONARIES.

The Canadian Methodist Missionaries Will Remain in the East,

Desnite the Recent Massacres in China.

Toronto, Aug. 22.—Several letters were received yesterday at the Methodist mission headquarters from the mission fields in China and Japan, containing information relative to the movements of the representatives of the church in those lands. Rev. Dr. Hartwell is now in Japan. His family, consisting of his wife and two children, have recently returned to Canada, and are now visiting relatives near Kings-Mr. Hartwell accompanied them from China, to the point of embarkation in Japan, but hopes now to return with little delay to the scene of his labors. A letter from Dr. Stevenson announces his departure for Canada.

He is now on his way.

Rev. Dr. Hart has gone to Pekin to consult with the British Consul and press for an investigation into the late disturbances and the punishment of the Chinese officials who have sponsible for them, not only by their negligence in suppressing the mob, but by having actually stirred up and incited the people to violence. It is hoped that a full and vigorous inquiry

will be instituted. A letter was also received from Dr. Kilburn, one of the medical missionaries of the church. From it it is learned that he, together with Miss main in Shanghai for the present. Letters from the Japanese stations give reports of the work of the past year, and of the annual conference. Everything is going on quietly now since the excitement incident to the war quieted down. The increase in the membership of the Japanese Methodist churches during the past year has been 89, this increase being in a district stretching across the center of the main island, and including Tokio and several

other cities.

Letters have been received at the Presbyterian Church offices from Honan reporting all quiet, but news from Formosa is not so encouraging. Native Christians are severely persecuted, and mission property has been destroyed, though it is not yet known to what extent.

To the Mayor and Council and Citizens of Please call at northwest corner in Machinery Hall, Toronto Fair, and see our latest City Chemical Fire Engine, the one not in a sufficient breeze to set the boats in we offer you along with a City Steel Hook | motion. and Ladder Truck for \$2,800, actually \$100 less than another firm asks for only one single ladder truck! We have offered to publicly compete in London with these appliances at our own expense against the Nugent, \$1,000; Mary H. Nugent, \$250; Other ladder, and let the people, who have to the ladder, and let the people, who have to the ladder, and let the people, who have to pay for them, do the judging and selection upon their merits, the only true way to get Samuel Stewart, \$250; John Taylor, \$500; maximum in value at minimum in cost. You can't well test street, grading before you other ladder, and let the people, who have to can't well test street grading before you order, but how easily you can fire apparatus, hence the great necessity of only buying upon merit after public competition, at maker's expense, in London. We gladly

scept such honest competition. RONALD FIRE ENGINE WORKS. Brussels, Ont., Aug. 21, 1895.

ANOTHER HOLMES "CASTLE." The First Was Burnt Down But Enter-

prising Chicagoans Soon Discovered Another. Chicago, Aug. 22.-Another of H. H. Holmes' mysterious buildings has been discovered. The building is all boarded up, and the residents of the vicinity say nothing has been done there for a long time. Two weeks ago they saw a man, whom they identify as Pat Quinlan, cart away the last of the furniture and other stuff that was in the building. It was here that Holmes carried on his glass bending business, and it is this place for which the police have been looking for more than a. month and never found, it being discovered by an amateur detective. Inside there are now nothing but scraps of iron and sheeting, with the ruins of the furnace, which ran the entire length of the building. Pat Quinlan seems to have been the presiding gen-

ius of the place. REPORTING IN MID-AIR.

Hard Times for a Race Observer in a

Balloon. The New York Evening World, which recently made an attempt to report a yacht race by wire from an anchored balloon, with results which demonstrated that the news system was susceptible of improvement, repeated the attempt yesterday. As a report of a boat race the bulletins still lacked grasp and perspicuity-through no fau's of the reporter, who seems to have spent his time principally in saving life-but as a record of aeronautic high jinks they were unique. At 12:15 p.m. the reporter wired: 'As the boats get further to the southwest I am turned around so that I have lose At 12:20 he sent down them." word: "The balloon is continually doing a danse du ventre, but does not interfere with accurate reporting." Two minutes later: "I am ding nothing but holding on now. The wind is getting puffy and bags me around in great shape." And at 1:05 p.m.; "I am doing nothing but hanging on. The balloon is bounding and whirling so that I can hardly get time to think or telegraph." Captive balloon reporting has been some-thing of a success in the field of war. The above dispatches suggest that such a scheme might prove equally successful in the field of aquatic sports in a time of dead calm, but

BE CAREFUL.

Don't promise to write if you do not intend to do so; don't make arrangements for future meetings if you intend when the time comes to forget all about them. Be caleful in making friendships, but be equally careful in maintaining them once they are made and are found to be pleasant and mutually beneficial. You can't afford to throw away the real thing when you have once discovered its merit; but be sure of its merit before you so readily take it up.-Evening World.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera and all summer complaints, sea sickness, etc. It promptly gives relief, and never fails to effect a positive cure. Mothers should never be without a bot-tle when their children are teething.
