FAST MAIL. London, July 22 .- The fast Atlantic mail steamship negotiations are proceeding further, and a meeting with Canadian ministers now in London is being held today. It is probable that new tenders will be called for. A member of the Canadian ministry, when asked to confirm Mr. Blair's statement, in which the minister stated that his impression was that it was all up with Petersen, replied: "It is not all up, but I do not think he has long to live." The minister added that he did not think it a good thing for the service to be in the hands of the Canadian Pacific, in view of the jealousies which this would provoke among the rival companies.

The semi-official North German Gazette, referring to the statements that Germany has assured Secretary that the action attributed to Admiral Von Diedrichs is unauthorized; that the German Government repudiated responsibility for it, and that the admiral will be called to account, says:
"We are not aware that the government has any reason to make such or similar explanation. So far nothing is known here officially of any unfriendly action upon the part of Admiral Von Diedrichs, or any ships of the German squadron towards the United States. London, July 22.-The Sunderland fire, which cost about \$2,000,000, revealed an extraordinary state of affairs. Such a thing as a fire establishment has no existence in the town. There are no fire engines, no organized fire brigade, and very few policemen specially detached or assigned to look out for fires. The supply of hose is very meager, and all of it was found to eb punctured or rotten and absolutely useless. The authorities and citizens simply made no attempt to cope with the fire, and the flames were only checked by a heavy rain, which fortunately fell at 1 o'clock in the morning.

Mr. M. T. Wigle

Of Kingsville, Essex Co.

CURED OF ITCHING PILES OF 23 YEARS STANDING

M. T. Wigle, better known to every one in the Vicinity as "Uncle Mike," was troubled for over 23 years with itching piles. At times he was so bad he would have to quit work. The irritation became so intense with constant rubbing that they became ulcerated and would bleed. He had been treated by many physicians, but found nothing that gave him relief. Reading in the paper the cure of a friend who had suffered in a like manner, and been cured by Dr. Chase's Ointment, he procured a box. After the third application he got such relief that he had the first comfortable night's sleep he had enjoyed in years. The one box made a complete cure, and he says he would not be without it for \$50 a box if it could not be replaced. Mr. Wigle is a wealthy farmer, well known in the community in which he resides. It is over two years since he was afflicted, and he has never been troubled since.

representatives at the postal confer-Mr. Henniker Heaton, in seconding the motion, said that the announcement in the papers or the 13th of July that Mr. Mulock's motion had been carried by this conference had endeared Canada to the people of Great Britain, and that but for Canada's resolute action the movement for imperial penny postage would have remained unsuccessful for years. He said that Mr. Mulock proved himself the Rowland Hill of the day.

Other members spoke similarly in praise of Canada and the Canadian postmaster-general; and Mr. Mulock, in replying, disclaimed personal credit, and attributed the result to the influence of Canada and South Africa and the good work of those who had for years been educating public opinion. Other members of the Dominion Gov. Trott intends putting in a gasoline en-

Sidney Fisher referred to the unsatisfactory state of the copyright law and the cattle embargo, and was heard with close attention. The meeting thanked the Canadian ministers for bringing these important subjects to their attention, and after a resolution recognizing Mr. Henniker Heaton's services the meeting adjourned. Last night Mr. Mulock attended the lord mayor's banquiet to the speaker, and responded to the toast of Canada.
