AT AILSA CRAIG.
Ailsa Craig, Ont., May 25.—The 24th was celebrated here by baseball and football—three games of the first and one of the latter. The opening game of baseball by the Ailsa Craig Stars was a first-class exhibition of amateur work, and if the club keeps up the pace through the season we may expect last year's record of 11 games out of 14 to be eclipsed in 1900.

A three-inning baseball game was played early in the morning between the Public School team and the Early Risers. Public School, 10; Early Risers, 8. Batteries—School, the Alexander brothers; Early Risers, Holmes and Dowdell. Gunn and Anderson, Black and Anderson. Attendance, 200.

The morning game between the London South Juniors and the Ailsa Craig Juniors resulted as follows:

In the afternoon game the Stars were opposed to the London Ramblers, and both teams put up good ball. The visitors, who had seen Finlay pitch for the Juniors in the last four innings of the morning game, when he was pounded all over the field, had fully made up their minds to "shut the Stars out," but they had not grasped the fact that Gibson, in the morning, was not able to hold Finlay, who, therefore, had to pitch 100s. In the afternoon, which Barnes behind the bat, the Ramblers could do very little with the stick, only scoring five base hits, and two of these were earned by the batsman running into the batted ball.

FOOTBALL.

Ailsa Craig, Ont., May 25.—Teams from Fernhill and Carlisle competed for a new ball here yesterday. Rain interfered with the game, but Fernhill won after an exciting struggle by 2 goals to 0.

PISTIC.

New York, May 25.—Joe Gans, of Baltimore, knocked out Dal Hawkins, of California, at the Broadway A. C., tonight in the fourth round. The fastest fighting ever seen in the club house. The men were scheduled for 25 rounds at 133 pounds and both scaled under the limit. Hawkins assumed the aggressive at once, and sailed into his man with both hands. He smashed the Baltimorean with a left hook to chin just after they put up their hands, and dropped him. It looked as if the affair was all over, but Gans took the count of nine and got up. Hawkins followed him fast, but Gans was all there with his blocks, and in a fierce mix-up at the ropes sent in a right swing to the jaw that floored Hawkins. Again it seemed that the result was reached, but Hawkins struggled to his feet at the count of nine. The fighting was furious to the bell. In the second round the men continued their rapid pace. Gans had Hawkins gauged, however, and easily avoided his terrible rushes and, after one minute and one second of seconds of slugging, Gans landed the punch that did the trick.

Toronto, Ont., May 25.—Rube Ferns, of Buffalo, knocked out Jack Bennett, of McKean, in the second round of a 20-round bout for

CATARRH CURED!
ABSOLUTELY.

The Most Acute and Disagreeable Forms of This Loathsome and Dancerous Disease Disappear When Japanese Catarrh Cure Is Used.

It Cures by Healing Every Diseased Portion of the Mucous Membrane—The Only Absolute Cure.

Mr. John Baird, 336 King street west, Toronto, writes: "I have every reason to feel grateful for the benefits derived from Japanese Catarrh Cure. I have been very badly troubled with catarrh since having a gripe in 1895. The droppings in my throat and pain across my eyes was almost constant, and my breath at times became very offensive. I used only a few boxes of Japanese Catarrh Cure, and it has completely removed every symptom of catarrh, and from my experience so far, I have every reason to believe the cure will be permanent. It certainly does all claimed for it, which I cannot say of many other remedies tried." Japanese Catarrh Cure is the only permanent cure for catarrh yet discovered. Price, 60 cents, by Anderson & Nelles, druggists. A free sample will be sent to any sufferer from catarrh. Address the Griffiths & Macpherson Company, Limited, 121 Church street, Toronto, Canada.

the welter-weight championship of Canada, before a large crowd at the Mutual street rink last night. They fought at 142 pounds. Bennett went out very easily after two minutes and twenty seconds of fighting, and recovered so quickly that a majority of the spectators went away complaining that it was a lie-down. The preliminary bout between Jack Roach, of this city, and Jack Sullivan, of Philadelphia, lasted for ten rounds, the latter being given the decision over his opponent. The fight was held under the auspices of the Crescent A. C.

A PRIEST'S SUICIDE

Leaps Into the Whirlpool Rapids at
Niagara—Fatal Trolley Accident.

Niagara Falls, N. Y., May 25.—An unknown priest, supposedly from New York, committed suicide about 6 o'clock last night at the whirlpool rapids. He descended the elevator, and after having his picture taken, walked out on a rock, threw his hat and cane behind him, and waving, his right hand dramatically, shouted "Good bye!" and leaped into the rushing waters. He ordered the pictures sent to M. J. O'Donnell, 801 West 62nd street, New York.

New York, May 25.—M. J. O'Donnell, to whom the photographs was addressed, is a keeper in the employ of the department of charities. He said that he had received a telegram from Buffalo stating the circumstances, but could not say whether or not it was his brother, Father John J. O'Donnell, who was an inmate of the province retreat at Buffalo. Still the word he had received tended to confirm that belief.

Akron, Ohio, May 25.—Three men were killed and a number of others seriously injured as a result of an accident to a work train on the Akron and Cuyahoga Falls Rapid Transit (electrical) Suburban Line. The train on two cars loaded with gravel and carrying about a dozen workmen, became disabled at the top of a steep grade, and the cars rushed down the incline at a terrific speed. Nine of the workmen jumped from the cars, and were seriously injured. Three men stuck to the cars until they jumped the track at the bottom of the hill and were killed in the wreck.

Waterdown, May 25.—Miss Ethel Tuck, daughter of John Tuck, a farmer residing near Waterdown, took a dose of carbolic acid yesterday and died shortly afterward. All the circumstances in connection with the case point to suicide. Deceased was about 16 years of age.

A SAD FATE

Two Little Children Burned to Death
in Their Home.

Kingston, Ont., May 25.—A midnight on Wednesday night fire broke out in the residence of Ellakle Newton, Arden. The house was totally destroyed, and two children, aged 6 and 8, were burned to death. Both were girls.

The rest of the family barely escaped with their lives. They were awakened by the smoke and before the flames could be rescued the place was a mass of flames. The fire was caused by a defective chimney. Mr. Newton, a driver on the Tachibon Company's logs, was away at the time.

A NOVEL PLEA.

Toronto, May 25.—In moving before Mr. Justice Rose for an order to annul the decision of the Halton County Court, convicted of bribery in the Halton election, was fined \$600 last month, Mr. Staunton, Q.C., of Hamilton, argued that the section of the election law governing the case provided that every action under the law shall be commenced within one year after the date of the election. He claimed that the case should have been commenced within one year after the date of the election. As two years have intervened between the Halton election and the proceedings against Cross, Mr. Staunton claims that the sentence is illegal. Mr. Justice Rose reserved judgment upon the point raised.

CAUGHT AT THE CIRCUS.

St. Thomas, May 25.—On Jan. 13, 1899, a warrant was issued for the arrest of Harry Clark, alias Joseph Pickergill, on the charge of having on Oct. 17, 1898, in the township of Middleton, stolen a horse, buggy, set of harness and an overcoat, the property of Oliver Crossett. Clark, it is alleged, sold the horse to Mr. Coombs, of this city, who sold it to Mr. Carter. All of the stolen property was recovered except the buggy. Clark, who, for a time worked in the robbery, and has since been working in Essex and Lambton. He came to town on Wednesday to see the circus, and was gathered in by Police Constable Fairbrother. On the other hand, it is claimed that a mistake has been made, and that the man arrested is not the Clark who stole the horse at all, but bought it from the real thief. For the past six months he has been working for Mr. J. C. Coughlin, of Glenworth. The accused was remanded for a week and admitted to bail.

Just Half the Wear.

In E. & D. four-point bearings the load cannot give itself any leverage, as the bearings only carry the load in a direct line from axle to hub.

The pressure on the E. & D. four-point bearings is divided in each bearing between two points, while in ordinary bearings it all comes on one point. In the E. and D. four-point bearing, as compared with the best bearing of any other type, the pressure is just half. Just half the pressure, just half the wear.

The Gear Is Inside.

The Sterling Chainless models have the gear wheel between the crank axle bearings. The result is that there is no undue wear on the right bearing of the crank-shaft. The bracket may be made much lighter, because there is no side twist, as the gear is near the center, not at the extreme end of the bracket.

Every ounce applied to the pedals reaches the rear rim as there is no "give" to the Sterling frame with the inside gear. Let us show it.

IT RUNS WITHOUT SOUND.

You can ride the Monarch Chainless without feeling any pedal vibration from the gears. The gears may be separated or drawn closer together with the greatest ease. All the Monarch adjustments are made from the outside of the wheel.

The gear teeth are so scientifically cut that they run without sound. They are hardened and will not wear out quickly. The Monarch Chainless is perfect.

THE STANDARD CHAINLESS.

We have twelve chainless bicycles among our National wheels, and the Columbia Chainless is the standard.

The large gear wheel is always true. It is the hardest gearing to make in all chainless wheels. But in the Columbia Chainless it is of such a shape that in tempering it shrinks into its proper shape and form. And it is absolutely perpendicular to the crank-hanger.

All parts are protected from dust. It needs no graphite. It is always clean.
