Mrs. C. Turner addressed the members of the Aberdeen Mothers' Club at their meeting Thursday evening on the subject of "Ideals." She impressed upon the mothers that they must not realize ideals, but should let the ideals realize themselves. Principal Claude Brown spoke briefly, thanking Mrs. Turner for her splendid address, also the mothers for their hearty co-operation in assisting the teachers, and the splendid way they have responded to calls for relief work in the district. A program was given, including solos by Miss Vera Wood, instrumental by Miss Ruby Brown, and solo dances by the little Miss Dorothy Tagg. Following the pro-

THE TWO LOVES.

Young Love laughed and sang with me
All the summer day;
Tossed me flowers in perfumed showers,
And sped the time away.
Till, weary of the game,
Tired I grew, and wan.
On my face pain set its trace;
Love said it was gone.

True Love, questioning through the night,
Found me faint and cold.
Gently spoke and doffed his cloak,
And wrapped me in its fold.
Wined my blood with sweet caresses,
Kissed my silvered hair,
Looked to see the soul of me,
And deemed it young and fair.
—Annie Gray Butcher, in Verse and Reverse.

If any of the Boxites care to send parcels to Cynthia Grey they may have her address from the Mail-Box and send them direct. This is more satisfactory than sending articles to the Mail-Box to be forwarded, as Cynthia-Seven does not live in the city.

SHOULD SHE GO TO ALL MEETINGS?

Should ministers' wives attend all meetings? The viewpoint of the woman most concerned, the minister's wife herself, in the plural, was freely expressed at the March meeting of the London District Methodist Ministers' Wives' Association, held in Dundas Centre Methodist Church. The question was discovered in the question drawer, presided over by Mrs. Godwin Colling, and provoked lively discussion. The consensus of opinion was that ministers' wives should not accept office in Ladies' Aids and such organizations. Readings were given by Mrs. Henderson, and solos by Mrs. Vance.

After cutting onions with a knife, run it through a raw potato before you wash it. This will destroy the onion taste.

LEATHER POLISH.

Two parts linseed oil and one part vinegar make a very fine polish for leather. It should be applied with a soft cloth. This softens the leather, while it cleans, and thus prevents cracking.

Coats Straight

BY MARIAN HALE

LONDON, March 10.—Sport coats, the sort that may be seen along Bond street, and even venture into the afternoon, have taken to straight lines, exceedingly straight!

And, like this clever Claire model, they often boast a single button at the very throat, which loops into a cord buttonhole, and lets it go out that! They are designed for warmth, merely something swaggy and easy to look at.

Broadcloth is the material most often used for these garments. The lining is a soft silk which daries be very colorful.

Blue, a peculiar bright blue, which just escapes a tinge of green, is the tone used for the model shown. Its smartly tailored pockets are piped with white to match its edge. The large buttons which hold it at the throat are also white.

How My Wife and I Turn Spare Hours at Home Into Dollars

The remarkable way in which Mr. & Mrs. P. J. Monaghan solved their extra money problem. Every wife, self-supporting girl, and father of a family can now use spare time to make money at home—in the same way they did.

By P. J. MONAGHAN

THE years 1916 and '17 were lean years for the working man in our part of the country, especially if he happened to be the sole support of a large family. I kept hoping for some way to increase my income, and finally I had an idea. At this time the Red Cross and the St. John's Ambulance Society were appealing for aid in knitting socks for our Canadian Forces Overseas.

I had seen a hand-knitting machine advertised, and I thought that if I could get one I could help the Red Cross by knitting socks, and at the same time use the machine to increase my small salary and keep the wolf from the door.

With this idea in mind, I found the address of the Auto Knitter Hosiery Company in our local paper and finally sent for an Auto Knitter. When the machine arrived my wife and I turned to the instruction book, and therein found the answer to all our questions. I was soon able to make splendid socks. I became more and more delighted with myself and the machine.

How I Started Making Money

I now volunteered to knit socks for the soldiers. The St. John's Ambulance Society furnished me with yarn. I knit several pairs of plain socks and was complimented on my work. I felt very gratified, for I was requested to knit more and was to receive 20 cents a pair for the work.

I began to make and sell socks to private customers as well as knitting for the Ambulance Society. In a comparatively short time I had my machine paid for. I was now making \$15.00 a week in my spare time. My wife was able to buy clothing and shoes for herself and the children.

This story would be incomplete and convey a very wrong idea if I did not make it plain that I could not have accomplished all I have without the valuable help of my better half, Mrs. Monaghan.

\$125 Earned in Spare Time

In about eighteen months from the time I started knitting I had a surplus bank account of \$125.00. Our house at this time consisted of a two-roomed shack on a rented lot. I decided now to buy a lot on which to move my shack. I selected a beautiful locality and arranged easy terms of payment, the price being \$475.00—\$100 cash and the balance \$10.00 a month. I kept on using the Auto Knitter steadily in my spare time to add to my income, and in less than a year my property was paid for.

When the over-demand for the quality of wool socks sold in the local stores was very inferior. I saw that there would be a good demand for a better article, and I knew I could supply it with my Auto Knitter.

So I bought some of the best wool in the city, manufactured it into socks and exhibited my goods to James Ramsey, Ltd. (one of the largest departmental stores in our city). They gave me a trial order for

Turned Poverty Into Independence

1920 was my banner year. I now of course had a little capital. Also I knew the demand for a good article. I purchased the best yarn obtainable, getting a substantial

discount on a quantity purchase. I worked all summer, knitting this on the Auto Knitter in my spare time, but sold none until October, 1920.

Then I advertised my goods, also stating that I would make socks to order. Many people brought their own wool. I had to work hard to fill all the orders, even with the supply I had on hand. People from all over the city, including the Mayor and the Attorney General of the Province, came to purchase my socks. My advertising brought in orders from Calgary, Red Deer, Wetaskinwin, and Port Saskatchewan.

Made New Home Possible

Last February we purchased a beautiful nine room house, as shown in the photograph, and had it moved to our lot. In our new house we arranged a work room where we can use the Auto Knitter. This house and lot, which is a real home, is now worth about five thousand dollars. What part the Auto Knitter has played in this splendid evolution it is

This is the Monaghan's New Home, Which the Auto Knitter Helped to Make Possible

course this was covering the previous summer's work.

The Auto Knitter was kept going every spare moment I had. I verily believe that if we had not had it, we would have had to appeal to the Sunshine Society or other charitable organization for help when times were the hardest with us. I am also sure that, but for the Auto Knitter, we should be tenants of a two roomed shack on a rented lot.

I wish that I might be able to place an Auto Knitter in every home, especially where there is a large family. I believe that the gap between poverty and independence would be bridged in every case where there is industry and good management.

The man or woman who is ambitious, and wishes to improve his or her circumstances, can in no way employ their spare time better than in knitting socks on an Auto Knitter. It will bring comfort and even luxury to the home, and be the means of bringing joy and happiness to the family.

P. J. Monaghan, Alberta.

Mr. and Mrs. Monaghan, whose experience with the Auto Knitter you have just read, have been very enterprising and energetic in using their machine to advance themselves and improve their circumstances. Mr. Monaghan was fortunate in being able to find a good local market for all the socks he could turn out so he preferred not to take advantage of the Work Contract we sign with every purchaser of an Auto Knitter.

A Market for Every Salable Sock Guaranteed

This contract obligates us to accept and pay for every pair of socks sent us by an Auto Knitter owner—when made according to our standard directions. Hundreds and hundreds of Auto Knitter workers take advantage of this guaranteed market, and send us their entire output without trying to sell socks to local customers, although they are in no way bound to do so.

They simply send us the socks they knit and we send them back checks in payment for their work, at a guaranteed, fixed rate per pair. We also replace each time the amount of yarn used in the socks received.

You can work for us as much or as little as you please—but for every shipment of socks, small or large, you receive your pay check promptly.

Guard Against "Flu"

With Musterole

Influenza, Grippe and Pneumonia all start with a cold. At the first sign of fever, the moment you get those warning aches, get busy with good old Musterole.

Musterole is a counter-irritant that goes right after congestion (which is what a cold really is) and restores normal circulation.

It has all the good qualities of the old-fashioned mustard plaster without the unpleasant stinging and blister.

During the big "Flu" epidemic several years ago Musterole was used in our training camps. The Y. M. C. A. War Boards sent thousands of jars to our boys in France. Doctors have been recommending it to their patients for years.

Just rub it on the congested parts with your finger tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief.

If there are colds in your house get Musterole on the job at once. It may prevent serious illness. It is a good plan to have Musterole always on the bathroom shelf for the emergency.
