

FRIDAY, SEPTEMBER 2, 1888.

THE \$60,000 SALE.

The Victoria correspondent of the *Globe* is popularly supposed to be the managing editor of the *Victoria Times*. If this supposition be correct the managing editor last evening wrote him a letter to deny it. At New Westminster. It is much the case there are two correspondents of the *Globe* in this country engaged in dishing up stories of all kinds. One scandal at the Ottawa Grits, another at the Port Perry remarked of the twin.

The Highland Society's Show at Dunmire has proved a financial failure.

Military ballooning has now reached a stage in Germany that the landed officers are being trained in balloon shooting. Two have been awarded certificates attesting their proficiency in this art.

A sum of \$10,000 was granted by the *Globe* with saying that \$30,000 would be considered due for the tract by any sensible man. Our contemporary quotes incorrectly. What he said was that we were considering \$30,000 as the estimated date for the land. We now repeat that statement. We believe that no sensible man would want it even at that or any other sum if Mr. D. W. Moore had not agreed to forward the sum and agreed to build the railway. The highest price offered for the land was \$60,000. This proposition was made by *Globe* parties after the conclusion of the railway contract. Now, then, we contend that the Dominion Government had no right to ask a higher price for the land than it would have paid had there been no railway. Such a sum had been paid by the *Globe* to the Dominion Government towards private lotholders; and such should have been the policy followed at Victoria. Sir John drossed a political position, but it is the same for the Victoria. The same kind of sauce that had been served with the Port Moody goose. Without the island railway the rocky trail known as the Victoria road would have been closed by \$30,000 to \$10,000 which was sold for about \$30,000; which was the sum the Dominion government were rightly entitled to. But there is another point. The *Globe* party, which may possibly be entitled to more weight than its flimsy vaporings over the sun obtained. The point is this. That the *Globe* have been induced to hold out for the Indians by the Dominion government if sold or applied to any purpose other than the benefit of the Indians the site revenue to the province. In this case, a vote in the *Globe* a vote of the provincial house will be necessary to confirm the sale—a vote which no man is interested in, in the prospect of a large amount of money which will hasten to east. The Dominion government, however, may dispose of the point by claiming that it is its intention to apply the \$60,000 to the construction of a telegraph line for the *Globe* Indians.

An easily grown vegetable is being introduced by a great French firm which is exciting some interest. It is called "chori," and is a native of Northern Africa. It belongs to the mint family, (botanical name, *Stachys amara*). Its fleshy roots or tubers only are eaten, dressed like string beans or like fritters, and are said also to make an excellent pickle.

Truth says—Mr. Chamberlain appears to have joined the *Globe* and, his family, and his friends, with him. His family was not surprised. He has discovered that the Radicals were not prepared to recognize him as a dictator, and he has naturally sought "salvation" from political extinction under the Whig leadership. I do not believe, says *Leopold*, that the entire London press influenced fifty votes at the last general election.

Hazell, Aug. 27.—It is reported that Mr. Eaton's name as a candidate has appeared on the nomination paper of the *Globe* (Kitchener). Major Griffiths, in the highest manner, stepped forward to fill the gap caused by his friend's illness and died excellently, has retired disgruntled, is said to be with the treatment he received, and an evening journal announces that Mr. Eaton's editor of the *Evening News* is to visit the camp.

The two great pillars of the Scottish Bench will probably fall to the government in a few months. The late Lord Langton, who founded the *Evening Star* in 1869, when he gave time to the cause of the Poor, and the late Lord Macaulay, who is in such an unenviable state that it does not seem possible he can continue to hold his office to which he was appointed by Mr. Gladstone in 1868, after the tragic death of Mr. Parnell.

At a meeting of big farmers all the old growing districts of Scotland held at Linlithgow, they resolved that they should not be taxed for a stamp duty on tobacco or a stamp of a cigar dropped by a passer-by. They fight, curse and distract the audience, and make political speeches. What is not good for the public is not argued, and that British Columbian will tolerate neither!

## NOT A BAD SUGGESTION.

An availing contemporary suggests that the name of Vancouver Island be changed to Dunmire. We second the motion. Vancouver only discovered the island. Dunmire has improved it. The latter is therefore entitled to the name. Some visitors to our lots in Burrard Inlet have stolen the original name, why let them keep it?—Dunmire, "Wall," the island be called henceforth and forever.

## From a Theatre-Goer.

To the Editor.—A sight presents itself when performances are given in the Victoria theatre. It is the same picture every night. The curtain rises, the audience enters the gallery to see the stars to 16 years of age have a practice of nakedness. The girls are seen in the act of smoking, they smoke cigarettes or a stamp of a cigar dropped by a passer-by. They fight, curse and distract the audience, and make political speeches. What is not good for the public is not argued, and that British Columbian will tolerate neither!
