We don't know of a more iniquitou measure than that of the government franchise bill which proposes to put the voters' lists at the mercy of partisan revising barristers. These men will be ap pointed, as a matter of fact, by the government member or government managers in the riding; they will have complete power over the list; they will strike off every man whose right to vote is at all questionable and whom they suspect of being against the government; and last and worst of all there is to be no appeal from their decision. We don't often sympathise with Grip but give it credit for a hit when it said "Why members at once" instead of going through an election the voters' lists for which

have been cooked by these worthies? The World could name without trouble the kind of revising barristers James Beaty, jr., and John C. Small would appoint for Toronto. It is a rotten system, it is an interference with liberty, it will disgrace the age that passes it, and it will only bring the conservative party another step nearer to the day of trouble. Not one of its organs has had the courage to protest against it !

The iniquity of this measure and the weakness of Mr. Mowat's franchise bill have their origin alike in the complicated and milk to the inhospitable bareness of the

force was out on special duty yesterday morning to raid the newsboys selling Sunday papers. But as there was no special news there was no Sunday papers. The police were not out of their own accord or at the desire of the chief; they were called out by the overzeal of the county atterney, instigated by a number of city clergymen, principally those of the Reverend Mulligan, Reverend Hunter stamp, and the ultra-pious Deacon Camthe way do you think of this eacon who starts the Globe engines on Sunday at 4 in the afternoon. has the boilermen and the engineer at work getting up steam to make electric lights which the pious Deacon peddles all week to whosoever may deserve them? Just now he is making lights every Sunday evening and selling them to the Great Northwestern Telegraph Co. He hopes soon, however, to get a larger dynamo and including a few of the churches. Mind this is all unnecessary Sabbath labor, while church services are being held, and World employe has been dragged into the police court for selling papers to boys issued on Sunday, not to make money, but, to allay public excitement in times of matters into court.

The boys of Victoria college are lamenting the fact that they were not organized into a militia company and sent off to the front. Wait till they come up to Toronto and the boys come home from the Northwest! There must then be a reorganization of our militia. Toronto will likely be given another regiment and The World will advocate that it be made up of students of our university and associate colleges exclusively. The students are available at a moment's notice, they make firstclass soldiers, they have the time to drill, and are generally full of patriotism and tors in "getting good security" in their esprit du corps. What with four hundred students in arts, nearly that many in medi cine, the men of the School of Practical Science, and the young preachers of Knox, Wycliffe, McMaster, St. Michael's and Victoria, when she joins the cluster, the dred strong, can be centered in the Queen's park, ready at a moment's notice. The park, ready at a moment's notice. The government would have to build an armory and drill shed, but that is just what the government ought to do; the militia, we all now admit, must be put on a better footing, and a student battalion in Toronto would be the cheapest organized while at

We have often noticed sneers against similar practices in the parliament of "raw democratic Canada." The fact is that in times of any great xcitement feeling is apt to trench against decorum, whether in cultured aristo ratic London or in a lumber village like ttawa.

The Revolt of the Domestic, ted. In this city there exists a respectable but too prolific class of inhabitants who carry out, in geometrical ratio, the law of Malthus, that population tends to increase faster than the means of subsistence. We allude to the domestic, "the harmless necessary cat." Considered as unity in the vast aggregation of the Toronto feliness the household pussy is most conservative, most lady like (Balzac used to speak of les petites chatteries des femmes), most respectable of pets. Mr. Paterson of Brantford. If this bill does pass as a whole, or nearly so, I would advise the reform party of this country to allow all the Dominion elections to go without a contest, that is to allow the tories to elect their candidates by acclammation. A movement has been started in Dublin to purchase by popular subscription a royal residence in Ireland.
