REDUCTION IN COST OF LIGHTING. Electric Co. Will Reduce it to 40 cents per Light on a Condition.

There can be no doubt that the city is pay-ing too much for its electric lighting and The World, when it met John J. Wright, manager of the Toronto Electric Light Co., yesterday, asked him if the company intended to redu

"Yes," he said, "the lights can be supplied tor less than 55 cents per light, and if the city will approach us in a proper spirit and give us a contract for five years from the expiration of the present, which expires in July, 1891, the company is prepared to lower the price immediately to 40 cents per light—the contract of course to include all the lights the city will require. course to include all the lights the city will require. Forty cents is as low as the lights can be run at with a profit; Hamilton's first contract was at 40 cents and the company was forced to go to the city, at the expiration of its contract, and tell the council that unless the price was raised to 45 cents at least the works would be at the price was the price w would have to close up, and so the price was

a great deal of non sense talked about the city owning its own plant, and the wonderfully low prices that would result. This talk emanates from the constructors of chesp plants, who have their wares to sell and care nothing whether the lights cost 50 cents or a dollar after their wares are sold. Our company has invested \$180,000 in its plant and in putting up lamps at great distances apart, and it is not strange if we work on the arrangement of the contract if the city will not accept the above offer."

Light Weight in Bread.

Editor World: Many are the complaints of bread being sold that is not weight. I therefore deem it my duty in the interests of the public to publish what the bylaw says in relation thereto, viz:

"All bread sold or offered for sale in the City of Toronto, of whatever shape, form or fashion, shall be in loaves of one pound, one pound and afialf, two pounds and four pounds respectively."

It will thus be seen that the remedy is in a.m. p.m. 2.000,000 bread being sold that is not weight. I there-8,000,000 fore deem it my duty in the interests of the It will thus be seen that the remedy is in the hands of the purchaser, viz.: "Ask for what you require, and see that you get it." In other words, treat the baker as you do the butcher and the grocer. This plan, carried out, will be found much better than any arbitrary enactment that cannot be fully enforced.

Mr. Joab Scales, of Toronto, writes:—"A short time ago I was suffering from Ridney Complaint and Dyspepsia, sour stomach and lame back; in fact I was completely prostrated and suffering intense pain. While in this state a triend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery, I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude,"

A Suggestion for the Gas Company.

Editor World: Yesterday I was caught in the dradful crush in the Gas Company's office. It was the last day for payment (with the discount) of the quarter's gas bills. I have never seen such pushing and shoving. The wicket given up to the ladies was crowded by them. A remedy may be found in a different method of making out the bills. At present, the gross amounts are set down, and this compels the clerk to make a calculation and to deduct the discount to be allowed, which is practically making out a new bill. If, on the contrary, the amounts set down were the net amounts, then, not only would the clerks be saved the trouble and loss of time entailed by making hundreds of calculations, but consumers would make 'it a point to bring the exact sums due and thus avoid the making of change. A CONSUMER. A Suggestion for the Gas Company.

FOR OLD PEOPLE!

In old people the nervous system is weakened, and that must be strengthened. One of the most prominent medical writers of the day, in speaking of the prevalence of rheumatic troubles among the aged, says: "The various pains, rheu-matic or other, which old people often complain of, and which materially disturb complain of, and which materially disturb their comfort, result from disordered nerves." There it is in a nutshell— the medicine for old people must be a nerve tonic. Old people are beset with constipation, flatulency, drowsiness, diar-them, indigestion, rheumatism, neuralgia.

These diseases are of nervous origin, Paine's Celery Compound, that great nerve tonic, is almost a specific in these disorders, and by its regulating influence on the liver, bowels, and kidneys, re-Old people find it stimulating to the vital powers, productive of appetite, and a promoter of digestion. Sold by druggists. \$1.00. Six for \$5.00. Send for eight-page paper, with many testimonials from nervous, debilitated, and aged people, who bless Paine's Celery Compound.
