FIFTEENTH YEAR

A MODERN LUCREZIA BORGIA

POISONED THREE RELATIVES TO SECURE THE INSURANCE

A Woman of High Social Position in Antwerp Arrested for Poisoning Her Sister, Brother and Uncle, Whose Lives Had Been Insured in Her Favor Shortly Before Death.

ANTWERP, April 18.—Madame Marie Therese Joniaux, the wife of M. Henry Joniaux, Chief State Engineer of Roads and Bridges in the Province of Antwerp, was arrested today by the police on a charge of having poisoned several of her relatives in order to obtain the amount of the insurance on their lives.

As Mme. Joniaux occupied a prominent position in society in Antwerp and in other social centres of the Kingdom, her arrest had created a profound sensation. Though there are many who believe her innocent of the crimes with which she is charged, it is said that the authorities are in possession of the most damaging evidence against her. Indeed, they claim that they would have been justified in arresting her some time ago on the evidence in their possession, but have been so strongly disposed to give her the benefit of every doubt that they refrained from taking her into custody until the accumulating evidence against her forbade them to longer permit her to enjoy her liberty.

**Aristocratic But Poor.**  
Mme. Joniaux, who was born in 1842, is the daughter of the eminent Belgian, Gen. Abilly, the niece of a former aide-camp on the staff of King Leopold. Though she was never wealthy in her own right, her high family connections and the great wealth of many of her relatives assured her an enviable social position.

Mlle. Abilly was married at about the age of 22 to Frederik Faber, the author of a book entitled, "The French Theatre in Belgium," and other works, and lived with him until he died in 1884. In 1886 Mme. Faber was married to M. Joniaux. Although her husband's income was confined to a salary of only 10,000 francs a year and his will was virtually without private means, they lived in great style, maintaining a magnificently appointed establishment in a large mansion in the Rue De Navarre, where they entertained lavishly, and where the relatives died for whose murder Mme. Joniaux has been taken into custody.

Her sister the first victim.  
The first of her alleged victims was her own sister, Mlle. Leonie Abilly, who was unmarried and resided with her. When Mlle. Abilly died in 1884, it was announced that the cause of her death was influenza. A short time subsequent to her burial it was discovered that her death was due to 300,000 francs in favor of her niece, the daughter of Mme. Joniaux by her first husband, M. Faber, and to the fact that she had found that the premiums on the policies had been paid by the Joniauxs.

Her brother dies after insuring for 500,000 francs.  
The next victim was Mme. Joniaux's brother, Alfred Abilly, who was formerly a captain in the Belgian Army, but had been retired, present and then living in his disreputable habits. Shortly after his retirement he emigrated to Buenos Ayres, where he led a dissolute life. After pursuing the career of a gambler in various parts of the Argentine Republic for some time he obtained employment as a railroad conductor, but was unable to hold his position on account of his habits, and in 1877 he returned to Antwerp, where he engaged in cotton manufacturing in Ghent-M. Kerchove, who was a man of gigantic stature and robust health, paid a price of 500,000 francs for his life, and intended to remain a few weeks. While he was a guest there he died as it was said from cerebral congestion, but M. Kerchove's life was insured for a large sum in favor of Mme. Joniaux, the policies having been taken out only a few days before his death and a few days after his arrival at Mme. Joniaux's house.

Proof of Guilt Overwhelming.  
The succession of sudden deaths at Mme. Joniaux's residence, and the fact that her relatives were insured for her benefit aroused the suspicions of the police, and their investigations have developed a series of interesting facts. The three bodies have been examined and examined, with the result of finding unmistakable traces of poison in each.

Lord Dufferin's Daughter Retrieveth.  
PARIS, April 18.—It is announced that a marriage has been arranged between Lady Victoria Alexandrina, youngest daughter of Marquis of Dufferin, and the Hon. William Lee Plunkett, eldest son of the Archbishop of Dublin and Primate of Ireland.

HE WANTED A SITUATION

And As His Name Was Green He Got One—Now He Wants His \$2000 Back

Thomas Green interviewed County Crown Attorney Curry yesterday and asked that a summons be issued against George G. Christie for obtaining \$300 from him. Green saw an advertisement in an evening paper for a clerk to go out on the road and buy lumber. He repaired to the address announced, saw Mr. Christie and was engaged at \$9 per week for 13 weeks. Mr. Christie informed Green, however, that he would probably be handling thousands of dollars of his employer's money, buying and selling lumber, it would be necessary that he deposit \$2000 as security, this sum to be returned to him when he left Christie's employ. This agreement was drawn up.

It is hereby agreed by the party of the first part that the square of the party of the second part to take the party of the second part into his employ for a term of three months at a salary of \$9 per week, payable weekly, and the party of the second part to deposit the sum of \$2000, from which he is to draw as long as he has the money and he is in my employ, the party of the first part to pay expenses of said Green while he is on the road. (Signed) GEORGE G. CHRISTIE, THOMAS GREEN.

Green paid over the \$2000. Then he thought everything was all right and consulted the County Crown Attorney. The latter instructed him to go and demand his money back. Green had another interview with Christie and the latter induced him to start work. After he had made one trip, however, he again became dubious and consulted Messrs. Allan & Baird, barristers, and the application for summons followed. It will not be served for a day or two pending a settlement.

TOO POOR TO BUILD A WARSHIP

U.S. Navy Cannot be Strengthened—No Funds in the Treasury  
WASHINGTON, April 18.—The present and prospective naval strength of the United States in comparison with that of foreign powers is set forth in the report of the House Committee on Naval Affairs, presented by Chairman Cummings. The report states that the committee have reluctantly concluded and to recommend the construction of a new battleship because of the depleted condition of the fleet. It is urged, however, that there must be no halt in building up the new navy. England proposed, says the report, to begin seven battleships of the first class, six cruisers of the second class and two sloops. Italy, with a depleted treasury, is preparing to build three first-class battleships, three cruisers, 12 torpedo boats and four transports.

The report summarizes the item of appropriations for the new navy. The total is \$25,280,966, which is an advance on last year, but a considerable decrease from the estimates of this year. The major part of the decrease is \$4,000,000 for armor plate, which is \$2,000,000 less than the estimate.

DEATH REVEALED HIS DISGRACE

Thought to be Single When in Reality He Was a Bigamist  
WINNEPEG, April 18.—Joseph Addison Galt, who was killed several years ago in Springfield, was thought to be a married man, but investigations made by the court prove that he was doubly married. To-day the Chief Justice ordered that his estate be divided between his second wife and her daughter, who live in England. His first wife is an inmate of a lunatic asylum in Bombay, India.

ARMY'S QUESTION OF ORDER

Mr. Aronoff's question about Mr. Martin, intended to show up the breach of faith with the Catholic minority in Manitoba committed by the Liberal party, was checked off by Mr. Miller raising a point of order, which the Speaker declared well taken.

The Tariff Commission.  
In reply to Mr. Casey, Hon. Mr. Foster said that the members of the Government who made enquiries about the working of the tariff were not formally appointed. They did not receive any instructions from the Government as to the conduct or objects of the inquiry. They did take notes of the evidence and have not yet made a report to the Government. No reports could therefore be laid on the table. Traveling expenses were paid to each of the commissioners but he could not say what the amount was.

THE NORTHWEST SCHOOLS QUESTION

After recess the debate on Mr. Tarte's motion for papers in the Northwest school question was resumed by Mr. Davin, who spoke up to 10.45, when Mr. Brodeur moved the adjournment of the debate and the House adjourned.

Questions and Notices of Motion.  
Mr. Lepine will ask on Friday for information respecting the act of the Quebec House Committee on Naval Affairs, presented by Chairman Cummings. The report states that the committee have reluctantly concluded and to recommend the construction of a new battleship because of the depleted condition of the fleet. It is urged, however, that there must be no halt in building up the new navy.
