ES NATURE THE MORE PLEASING WILL the tail, and those of the wing, the Best in the Market ! BE THE EFFECT PRODUCED-PLANTING IN tips of which only are displayed, are GROUPS FOR THE PROTECTION - VARIOUS white. Until the birds are eighteen ROOM months old both male and female are WARE Unequalled for Spreading, Finish and Durability! of the same color which is nondescript, Many farmers seem to think that they have ornamented their places by the use of trees when they have planted a row of some one kind along the Paint that Beautifies and Protects row near the fence that divides their land from that of their nearest neigh-bor. It may be true that these straight rows of trees do something toward or-namenting the place, but it is certain that they do not beautify it to the ex-1. It has the proper quantity of inal checks with lace canvas lattice 'Er-no,' said Mamie, her enthu-to raise good crops. It has the body that once applied to or uncultivated land will last or years. No one will deny that the finer a paint is ground, the longer it will wear and surface it will cover, and if to this we add the fact that if the color is ground the Lead and Oil, it will be seen that the paint will not spot or fade, as is the o paint made by hand. These three qualities (Spreading, Finish and Durability) are shown in the Heath & Mills an Manufacturing Oo.'s Paints, over all ethers. If you want a paint that will endure, and at the same time hold its beauty, you will be interested in these goods. The Company will deliver it at any stations on the W. & A. Ry., at a low figure. Apply to What's the subject ? French women are dressing their hair in what they call the Chinese fashion. 'Gracious ? Isn't that a difficult subnamenting the place, but it is certain that they do not beautily it to the ex-tent a variety of trees planted in groups would. There is an unnatural appearance about a long row of trees of the same kind; of nearly the same size, planted at a uniform distance from each other. Especially is this the case when the trees are of a variety that are not found in the groves and forests of the viginite in what they call the Chinese fashion, combed perfectly smooth up to the top 'Gracious ? Isn't that a difficult sub-iect to write up ?' Combed perfectly smooth up to the top GEO. E. CORBITT, TAKEN FROM GUARANTEE. oombed perfectly smooth up to the top ' 'Difficult ? Well, I should giggle. of the head, then twisted into a coil on one side, with a large comb, specially made, on the other. Linen plush is a new material and will be used for dressing gowns and will be used for dressing gowns and of a hairpin. But come, waltz up into Annapolis, Nov. 30th, 1885. Manager. "If at the end of one, two, three or five years the paint is not equal to that prepared by the painter, as regards beauty of finish and durability, we will refund the money paid."
