

Martin-Orme Piano

THERE are a few old hand-made violins in the world that are priceless because of their incomparable *tone*. They are the works of the masters. And it is just such earnest, personal, masterly planning of the sound-producing parts, which produces the rarely beautiful, sweet, singing tone of the Martin-Orme Piano. It reflects the genius of Owain Martin, inventor of the "Violoform" method of tone-production.

The sounding board, arched like a violin, is scientifically installed so as to permanently retain this arching under high tension. Like the works of the famous old craftsmen, each individual Martin-Orme Piano is carefully fashioned with true pride and sincerity. Only by taking time to make and perfect comparatively few pianos could such splendid enduring tone be achieved. It is that which elevates the Martin-Orme from the merely mechanically perfect,—to the truly artistic plane.
