

NOTICE.

THE WASHINGTON COUNTY MUTUAL INSURANCE COMPANY.

THE Under-signed, AGENT of this Company for the district of MONTREAL, begs to state, that he is now prepared to make surveys, effect insurance, and attend to all instructions left for him, at his Father's Residence, Côte St. Paul, or at the Residence of his Brother, River St. Pierre, and at the Post Office Montreal.

WILLIAM EVANS, Jun.
Côte St. Paul, 9th August, 1850.

MATTHEW MOODY,

MANUFACTURER OF
THRASHING MACHINES, REAPING MACHINES, STUMP AND STONE EXTRACTORS, ROOT CUTTERS, REVOLVING AND CAST-STEEL HORSE RAKES, PATENT CHURNS, WAGGONS, &c. &c. &c.

THE Subscriber has been employed since 1846 in manufacturing his improved THRASHING MACHINES, with Horse powers. He was awarded the highest Prize at the Terrebonne County exhibition after competition with many others. They have thrashed and cleaned, with 2 horses, from 100 to 124 minots of Wheat per day, and from 200 to 250 of Oats, and have given universal satisfaction. He guarantees all purchasers for any recourse by Paige & Co., of Montreal, who allege having a patent for these machines, dated December, 1848! and warrants them equal to any made here or elsewhere, for efficiency and durability.

One of his Reaping Machines may be seen at Kerr's Hotel, St. Lawrence Street, price \$25. Having lately erected new and enlarged Works for the above articles, he will execute promptly all orders in his line.

Thrashing Mills constantly on hand. Two second hand Mills, in warranted order, cheap for cash.

Thrashing Mills repaired, and finishing work done. Agency in Montreal, at Ladd's Foundry, Griffin-town; in St. Andrews, L. C. at Mr. Henry Kempley's. TERREBONNE, August, 1850.

GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE.

TO

Scientific and Practical Agriculture.

BY HENRY STEPHENS, F. R. S. E.,

Author of the "Book of the Farm," Editor of the "Quarterly Journal of Agriculture." &c. &c.,

ASSISTED BY JOHN P. NORTON, A. M.,

Professor of Scientific Agriculture in Yale College, New Haven, Author of Agricultural Prize Essays &c., &c.

THIS highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages with 18 or 20 splendid steel engravings and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best

methods of ploughing, planting, haying, harvesting, &c. &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

This great work is the joint production of two of the most talented agricultural scholars of the day; the one eminent as an author and editor in Great Britain, and the other as a Professor in Yale College. Both are eminently practical as well as scientific men, and all they say may be relied on as the result of profound research, tested and sustained by practical experiment. The contributions of Professor Norton are chiefly designed to adapt the British portion of the book to this country, and thus to make it an Anglo-American work, giving to its readers all the really useful agricultural knowledge at present attainable in either country.

The work is divided into four departments, distinguished by the four seasons of the year, commencing with Winter, and Prof. Norton's notes, will be published as an appendix to each part. The first chapter treats of the following subjects, under the head of

INITIATION.

On the best of the existing Methods for acquiring a thorough knowledge of Practical Husbandry. On the Difficulties to be encountered in learning Practical Husbandry, and on the Means of overcoming them.

On the Different kinds of Farming. On the persons required to Conduct and Execute the Labor of the Farm.

On the Branches of Science most applicable to Agriculture.

On the Institutions of Education best suited to Agricultural Science.

On the Evils attending the neglect of Landowners and others to learn practical Agriculture.

On observing the details and recording the facts of Farming by the Agricultural Student.

Terms of the Work.—The American edition, the first number of which is already issued, will be published in semimonthly numbers of 64 pages, with an English steel engraving in each number, of which there will be about 22 in all. PRICE, 25 CLNTS PER NUMBER, OR \$5 IN ADVANCE FOR THE 22 NUMBERS.

CLUBBING.

Three Copies will be sent to one address for \$12: Four Copies for \$15: Five Copies for \$18. Cash in all such cases to be remitted direct to the Publishers, and not through Agents.

The work can be sent in Numbers at periodical rates of postage, and mail remittances may be made at the risk of the Publishers.

AGENTS WANTED.

Liberal commissions will be allowed to good canvassing Agents.—BOOKSELLERS AND PERIODICAL DEALERS will be supplied on liberal terms.

All orders and communications should be addressed, post paid, to
