UNITED STATES

Government Land

Farming Lands

Any person who is the head of a family, or a single person 21 years old, a citizen, may take up 160 acres of land and acquire title by living on it and cultivating it for five years, or he may perfect title after fourteen months' settlement, residence and cultivation by paying \$1.25 per acre, or \$2.50 per acre when the land is within the limits of a railroad grant. There are land office fees of about \$20.

Timber Lands

Land covered with valuable timber, and unfit for cultivation, can be purchased by any citizen or association to the extent of 160 acres at a cost of \$2.50 per acre.

Stone Lands

Can be taken upon the same terms as timber lands. Granite, sandstone, limestone, etc., at many points along the Great Northern.

Coal Lands

Any person can acquire title to 160 acres by paying \$20 per acre if within 15 miles of a railway or \$10 per acre if beyond that limit. An association or company of persons can secure 320 acres under same terms.

Mineral Lands

Mining claims upon veins or lodes of precious metals can be taken up along the veins to the length of 1,500 feet and 300 feet each side of the middle of the vein.

Desert Lands

There are localities where the rainfall is not sufficient to insure regular crops. Where such land can be irrigated it can be entered by citizens and residents of the state or territory in which the land is situated, in tracts of from 40 to 320 acres, at \$1.25 per acre, by expending at least \$3 per acre—\$1 per acre during each year for three years—and by making proof, after four years, of the reclamation and cultivation of the land.

Free Land

Millions of acres of farming and grazing lands are to be found along the Great Northern Railway in North Dakota, Montana, Idaho and Washington. Also thousands of acres of timber, coal and stone lands.
