\$1.48 to \$1.50, and on Thursday there was a further drop to \$1.35 to \$1.36. On Friday morning \$1.34 was the first quotation, but later \$1.33 was quoted and at the close about \$1.30 was the quotation. Very little business was done on Thursday and Friday. In the country the farmers, who are through with their seeding, were delivering quite a quantity of wheat, and received prices ranging up from \$1.30 to \$1.40 at the top, and as high as \$1.50 was paid at one country point. Receipts of wheat at Fort William last week were, 251,000 bushels; shipments, 275,000, in store \$79,000.

FLOUR—The flour market has been excited and higher in sympathy with wheat. On Monday the Lake of the Woods advanced prices 50c per barrel, to \$3.25 for patents, \$3.05 for bakers, \$2.70 for second bakers and \$1.65 for XXXX per sack of 98 lbs. This makes a total advance of \$1.50 per barrel since the "boom" in wheat started, the price previously having been \$2.50 for patents, per 98 lbs. or \$5 per barrel, compared with \$6.50 per barrel now. Ogilvie's were quoting even higher prices, quoting \$3.60 for patent and \$3.40 for Glenora, which prices are still held for all brands to the close of our report. Some large export sales are reported from Montreal for Manitoba flour, at full prices asked from the domestic trade.

MILLFEED—No change. We quote bran at \$12.00 and shorts \$14.00 per ton in bulk. Large lots \$1 per ton less.

GROUND FEED—Grain feed is quoted at \$22 to \$24 per ton as to quality. Ground corn \$18 per ton. Oil cake is out of the market.

OATMEAL—Prices in lots to the re-

tall trade held at \$2.20 per sack for rolled meal, but it could not be brought in now to sell at these prices, as prices are much higher both east and in the States.

BARLEY—There is no barley moving and practically none to be had. Nominal at 45 to 50c per bushel of 48 lbs.

CORN—Demand slow at present. It would cost about 46c on track here now, to lay down from the south.

OATS—There appears to be no oats obtainable except what are held by one city grain company, and they are asking 47c per bushel of 34 pounds, on track here. There are no oats offering in the country.

BUTTER—Creamery—The creameries are now getting started to work, but the make is very light yet and there is practically nothing offered. A few very small lots only have been offered. Creamery would be worth about 17c in round lots on a basis of prices east, but the few little lots offered have done better, owing to temporary limited supply of choice fresh goods. The early make is not a desirable quality to hold.

BUTTER—Dairy—Dairy butter is offering a little more liberally, but receipts are not as large for the season as in some past years. A large increase in receipts may come very soon. The tendency will be gradually easier, as the supply increases over local requirements. Rolls sell as well as tubs so far, but with any considerable increase in the supply above local wants, rolls would be at a discount. Jobbers are selling at 14 to 18c as to quality.

EGGS—The market has held steady this week. Packers and dealers are

paying 9c net per dozen, and jobbers are selling at 9 1-2 to 10c.

CHEESE—A little new cheese has been selling in a small way by jobbers at 10 to 11c as to quality. Old 9 1-2 to 10c.

DRESSED MEATS—The market keeps firm particularly for hogs, which have advanced sharply. Receipts of hogs are light. We quote hogs 7 1-2c for country dressed and 8c for city dressed. Beef 6 1-2 to 7c for city dressed. Mutton 8c for cold storage stock and 9 to 10c for fresh dressed. Veal, 7 to 9c, a sto quality.

DRESSED POULTRY—Good chickens will bring 60c to 75c per pair live, and turkeys 11c per lb. live weight or 15c dressed.

CURED MEATS AND LARD—There has been a sharp advance in cured meats and lard. Lard is 10c higher at \$2 per pail for pure. Dry salt meats 1-2c higher at 9 1-4 to 9 1-2c for long clear. Smoked meats 1-2 to 3c higher at 11 1-2 to 12c for hams and 12 to 12 1-2c for smoked bacon. The price list of cured meats on another page was printed before the last advance was made, and closing quotations are 1-2 to 1c higher than this list, as above.

VEGETABLES—Potatoes 35 to 40c per bushel, as to quality and variety, onions, native, 2 to 2 1-2c per lb.; imported, 3c to 4c, as to quality; cabbage, 2c per lb.; beets, 40 to 50c per bushel; turnips, 20c to 25c per bushel; parsnips, 2c. Green stuffs in onion, lettuce, radishes, etc., is offering at 15 to 25c dozen bushes; rhubarb, 2 1-2c per lb. per box; asparagus, 90c dozen bunches.

HAY—About a year ago hay was
