"A Magnificent Conception WondOrfully carried out."

The necessity of a popular inedium for the representation of the productions of our great artists has always been recognized, and many attempts have been made to .o.t the .ant. The successive failures which so invariably followed each attempt in this country to establish an art ournal, did not prove the indifference of the people of America to the prove the indifference of the people of America to the prove the indifference of the proper approach the claims of high art. So toom as a preparate tion of the want and an ability to meet it were slown, the public at once railied with entausiasm to its support, and the result was a great artistic and commercial triumph. THE ALDINE:

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodiciss. The judicious interpersion of landscape, mainingure, and animal subjects, sustain an unabated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interest of the work

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or fairing off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

DYSPEPSIA AND SICK HLADACHE.

Symptoms of a Diseased Liver. DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the parient is rarely able to lie on the left ide; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with

pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient implains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensaion of the skin; his spirits are low; and though he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it.
