THE BLUE BONNETS DAIRY.

These select dairy farms are situated on the Lachine Road. The pastures are the choicest on the island—well watered with pure running water. In fact, everything connected with this dairy is in the most perfect sanitary condition and it is so near the city that the milk is delivered to our customers direct from the country every morning. Our private trade is supplied in glass jars, which are exchanged each day. The Jars before being refilled are thoroughly cleansed by one of the most modern steam washing machines. Families trying this system of delivery will be satisfied with none else: its advantages are too numerous to mention here. We can furnish testimonials from the leading physicians.

Parties desirous of trying this milk can let us know and our agent will call at once, or they can send in their orders and be served early next morning.

Our prices are moderate as there is but one profit—direct from the farm to the consumer.

Special Rates will be made for
quantities in bulk.

City Office, Telephone 905.
