

5. *COPTIS TRIFOLIA*, Salisb.—Rather common in marshy grounds.
6. *NUPHAR ADVENTA*, Aiton.—“In ponds, Caribou.” B.
7. *SARRACENIA PURPUREA*, Linn.—Very abundant in one or two confined areas on the large Mecatina Island, at Harrington Harbor, July 26, and found also in the wet places among the rocks inland, October 1880.
8. *ARABIS ALPINA*, Linn.—“Brooksides, Fortean.” B.
9. *DRABA INCANA*, Linn.—“Caribou.” B.
10. *COCHLEARIA TRIDACTYLITIS*, Linn.—“Seashore, Caribou.” B.
11. *COCHLEARIA*, ——“Hilltops, Fortean.” B.
12. *CAPSELLA BURSA-PASTORIS*, Moench.—Probably introduced, abundant at Bonne Espérance about the yard and pathways, August 11.
13. *VIOLA BLANDA*, Willd.—In greater or less abundance all along the coast in damp localities.
14. *VIOLA CANINA*, L., var. *SYLVESTRIS*, Regel.—Distributed much as in the preceding, but in dry localities.
15. *DROSERA ROTUNDIFOLIA*, Linn.—Not common. It is found in several localities along the coast. I found it in moist places about Bonne Espérance, August 12.
16. *SILENE ACALYPA*, Linn.—“Hilltops of Amour, also Old Fort Island.” B.
17. *ARENARIA GREENLANDICA*, Spreng.—This was found on the summits of many hilly crests at Baie des Roches, and though I did not find it elsewhere I suspect it occurs in like situation all along the coast.
18. *ARENARIA PERPLEXA*, Linn.—Quite common, springing up in the sand along the shore. Mr. Butler found it at Caribou and at Fortean. I think it occurs generally.
19. *ARENARIA Verna*, Linn.—“Hillsides, Amour.” B.
20. *ARENARIA LATERICFLORA*, Linn.—I suspect pretty generally common, as Mr. Butler remarks, in “level, grassy places.”
21. *STELLARIA LONGIPES*, Goldie.—Common all along the sea-coast. Very common at Bonne Espérance, August 11.
22. *STELLARIA LONGIPES*, Goldie, var., *EDWARDSII*, Torr. & Gray. (“Miss MacFarlane, No. 9. Torrey & Gray very properly reduce this to a variety of the last species.”)
23. *STELLARIA BOREALIS*, Bigelow.—Common on hilly slopes along the coast, especially at Caribou, B., and Bonne Espérance islands, August 11.
24. *STELLARIA GRASSIFOLIA*, Michx.—Dis-
- tributed much the same as *longipes* and *borealis*, occurring in damp localities, August 11.
25. *CERASTIUM ALPINUM*, Linn.—“Very common at Fortean.” B.
26. *CERASTIUM ARVENSE*, Linn.—“Abundant about Fortean.” B.
27. *ASTRAGALUS ALPINUS*, Linn.—“Hillsides, Amour.” B.
28. *HEDYSARUM BOREALE*, Nuttall.—“Hillsides, Amour.” B.
29. *OXYTROPSIS CAMPESTRIS*, D. C.—“Hillsides near Fortean light house.” B.
30. *LATHYRUS MARITIMUS*, Bigelow.—More or less common all along the coast in dry and moist places and on low land. Early August.
31. *LATHYRUS PALustris*, Linn.—“At Caribou,” B., and *probably* other places along the coast.
32. *POTERIUM CANADENSE*, Benth & Hook.—Very common on the dry, sloping flats along the coast. August 6.
