Turntables

Iron Piers and Trestles

Bridge Rods

Right and Left Hand

Sleeve Nuts

And all kinds of
Structural Iron Work

The cost of Metal Bridges for a term of years, is less than the cost of building repairing and replacing wooden bridges, and believing the only reason so many bridges are still built of wood to be that those who are charged with the duty of contracting for them are not aware how little difference there really is in the first cost of a good Iron or Steel Bridge and a well-built wooden one, of equal strength, we are at all times pleased for an opportunity to quote prices to officers of counties, cities and townships, so that they may intelligently compare the cost of metal and wooden bridges. To enable us to name prices closely we need information on the following points: Number of spans and length of each span. Width of roadway and number and width of footways and sidewalks. Kind of Lumber to be used for floor joists and plank and its value. Name of nearest R. R. Station and distance of bridge site from station. Depth of water at ordinary level and height of floor above water. Also strength and capacity of bridge required, if any particular strength has been determined on; or a general statement as to the nature of travel over the bridge, whether on a country road, a well-ballasted turnpike, or located in a village or city, and subject to heavy loads.

OFFICE AND WORKS: LACHINE LOCKS, P.Q. P.O. ADDRESS: MONTREAL, P.Q.

Address Inquiries in Response to this Advertisement, to

DOMINION BRIDGE COMPANY, LTD., Montreal, P.Q.

.. For October ..
