My dear Father Pacifique;  
I continue to receive regularly the numbers of the "Micmac Messenger" which I always look through with very much interest, working out as much of it as I can, and always regretting that I do not know more of the Micmac language. It may interest you to learn that I have kept all of the numbers since it was made separate from the Freeman, and I intend to keep the set complete. I think the journal must mean a great deal to your Micmacs in keeping them informed upon matters important for them to know, and I also think that they are very fortunate in having so carefully-edited a journal devoted to their interests. I should like to send to your Micmacs through the "Messenger" the greetings and good wishes of one who has ever been a close and interested student of their history and progress.
