

ARTICLE II

The co-operation contemplated under this Agreement relates to the use, development and application of nuclear energy for peaceful purposes and may include, but is not limited to:

- (a) the supply of information, which includes technology, related to the following:
  - i) research and development,
  - ii) health, nuclear safety, emergency planning and environmental protection,
  - iii) equipment (including the supply of designs, drawings and specifications), and
  - iv) uses of nuclear material, non-nuclear material and equipment (including manufacturing processes and specifications),

and the transfer of patent and other proprietary rights pertaining to that information;

- (b) the supply of nuclear material, non-nuclear material and equipment;
- (c) the implementation of projects for research and development as well as for design and application of nuclear energy for use in such fields as agriculture, industry, medicine and the generation of electricity;
- (d) industrial co-operation between persons in Canada and in the Union of Soviet Socialist Republics;
- (e) technical training and related access to and use of equipment;
- (f) the rendering of technical assistance and services, including exchanges of experts and specialists; and
- (g) the exploration for and development of uranium resources.

ARTICLE III

(1) The Parties shall encourage and facilitate co-operation between persons under their respective jurisdictions on matters within the scope of this Agreement.
