T., says: sible with band their and most

that I had a satisfied. cannot be GEORGE VANDERVOORT, of Alexandria, Man., says:—"I consider Manitoba or the North-West is the proper place for a man to go to get a home with ease."

GEORGE H. WOOD, of Birtle, Man., writes:—"Speaking from what I know as one of the leaders of one hundred and fifty in this locality, I don't know a single instance of a sober, industrious person who has not benefited by coming here, and I do know of many who always lived "from hand to mouth" in Ontario, who are getting rich. All we require is a railway to get on well, and all get rich. Farming pays here, the Farmers' Union grumblers to the contrary notwithstanding."

S. W. CHAMBERS, of Wattsview P.O., Man., writes thus:—" After more than five years' experience in this country, I am satisfied that no other country in the world can approach the Canadian North-West as a field for agricultural productions. And to the man who is willing to rough it first and to roll up his sleeves and work for two or three years, it offers a comfortable independence in a very few years, with very little capital

expenditure."

G. R. Black, of Wellwood, County Norfolk, Manitoba, says:—"This country is the best place for a man with a small capital to make a home that I have seen, and I have been through eight states of the United States, and I have seen nothing to compare to this Canadian North-West. I would advise settlers coming from Europe to bring nothing but clothes and bedding and light materials. I would say in explanation that I have raised as high as 40 bushels of wheat and 75 of oats, but that is not the rule."

Mr. A. R. Speers, of Griswold, Manitoba, writes:—"I consider this the greatest grain producing country in the world without any exception, and as I have handled considerable stock here I know that to pay well. Last spring I sold one stable of cattle for 100 dollars (£20) per head for butchering. My sheep have paid well. Milch cows do very well, and also poultry, and in fact everything I have tried. No man need fear this country for producing anything except tropical fruit."

Mr. P. R. Todd, of Griswold, Manitoba, writes:—"I believe that any man who is willing to work, no matter how small his means, can improve his circumstances financially in this country, and there is a good chance for a man of means or large capital to run

business on a large scale profitably."

Mr. W. H. HAYTER, of Alameda, Assiniboia, N. W. T., writes:--" A single man can come here and farm on a small capital, say 500 dollars (£100). I have a family of

six boys to start. We are well satisfied with the prospects ahead."

Mr. James Rawson, of Mountain City, Sec. 16, Township 2, R. 6, W., Manitoba, writes:—"Persons coming to this Province should have 500 dollars (£100) in cash to start with; not but what a person can get along with less, as I have done, but it is difficult. Magnificent country for persons who have plenty of money. Climate healthy, water good, plenty of game."

Mr. Thomas McGee, of Burnside, Manitoba, writes:—"I think that the Canadian North-West is well for industrious hard working people, either laborers, farmers or mechanics. I was a mechanic before I came here, and am satisfied that the country is a

good one for people that want to make homes for themselves."

Mr. John Kemp, of Austin, Manitoba, writes:—"The soil is immensely rich, and will raise large crops for a long time without manure. I am a Canadian by birth, and have travelled over a good part of the States and Canada, and, all things considered, I have seen no part of America to equal this country for agricultural purposes."
