**WEBSTER'S DICTIONARIES A NATIONAL STANDARD.**

PRESIDENT FANSON, of Columbian College, Washington, says, April, 1860, "The just principle of its collection, the thorough scholarship of its etymology, the clear analysis of its definitions, and good sense in its orthography and orthodoxy, must make it for a time to come the National Standard; for it is one of those works so true in its model and complete in its execution, that any material variation from it must introduce imperfection."

**FROM LEADING NEW YORK PUBLISHERS.**

We have observed that with literary men generally spelling is entirely a matter of habit, very few of them conforming strictly to the authority of any dictionary; while, in this country at least, the authors of educational text books, and other works in reference to which the question of orthography is carefully considered, very generally recognize and carefully follow Webster as their standard.

New York, May 16, 1860.

D. APPLETON & Co.  
CHARLES SCHUBNER.  
GEORGE T. PUTNAM.

From Lord Brougham, High Chancellor of England.  
A necessity to every educated man.

From Hon. George Bancroft, the Historian.  
The etymological part surpasses any thing that has been done for the English Language by any earlier laborers in the same field.

From Daniel Webster.

I possess many dictionaries, and of most of the learned and cultivated languages, ancient and modern; but I never feel that I am entirely armed and equipped, in this respect, without Dr. Webster at command.

From Rufus Choate.

Messrs. G. & C. Merriam, Gentlemen,—I have just had the honor of receiving the noble volume in which you, and the great lexicographer, and the accomplished reviser, unite your labours to 'bid the language live.' I accept it with the highest pride and pleasure, and beg to adopt, in its utmost strength and extent, the testimonial of Daniel Webster.

From Elihu Burrill.

Webster's great Dictionary may be regarded as bearing the same relation to the English Language which Newton's Principia does to the sublime science of Natural Philosophy.

From Rev. Dr. Huntington, of Harvard University.

No student, as it appears to us, has access to the needful resources for understanding or using our native tongue who does not keep this vast and rich repository of philological labor and learning at his side. Its definitions—now almost universally acknowledged to be

unrivalled for completeness, accuracy, and the avoidance of mere synonyms,—together with some of its other features, render it indispensable in every library and at every writing-desk.

From Hon. John C. Spencer.

Unquestionably the very best Dictionary of our language extant. Its great accuracy in the definition and derivation of words gives it an authority that no other work on the subject possesses. It is constantly cited and relied on in our courts of justice, in our legislative bodies, and in public discussions, as entirely conclusive.

From John G. Whittier.

The best and safest guide of the students of our language.

From the Boston Journal, July 23, 1863.

DICTIONARIES IN ENGLAND.—There are at the room of the agent for Webster's Dictionaries, at Mason & Hamlin's, 274 Washington street, specimen copies of six different editions of Webster's Dictionary, published in England, and also specimens of "Noah Webster's British and American Spelling Book," and "The Illustrated Webster Reader," also from the English press. No person can examine these volumes without realizing how very great a popularity the name of Noah Webster has attained in Great Britain.

From R. H. Smart, the well-known English Elocutionist and Lexicographer.

The Pictorial Edition of Webster's Dictionary, unabridged, take it altogether, must be considered, in America at least, as the surpassing work of its kind.

AMERICAN BOOKS IN ENGLAND.—An American publisher, now in London, writes to a friend, that more than one half of all the Dictionaries published in England are Webster's. In other words, the works of the great American lexicographer have a greater sale in England, as in this country, than that of all other Dictionaries of the English language combined.

These popular School Dictionaries have been thoroughly revised within the last three or four years, being extensively regarded as the standard authority in Orthography, Definition, and Pronunciation, and, as the best Dictionaries in use, are respectfully commended to teachers and others. They are much more extensively sold and used than all others combined. Sold by all Booksellers.
