JOHN CATTO & SON 55 to 61 King Street East, TORONTO.

CARRIED AWAY MILLION AND HALF IN COLD CASH

C. D. Sheldon, the Missing "Blind Pool" Operator, Failed To Return to Montreal.

MONTREAL, Oct. 13. (Special.)—All sorts of rumors were about the disappearance of Sheldon, but one thing is sure, the absconding broker did not show up at his office this morning as he had promised. Manager Burnside. All hope disappeared, therefore, from the hearts of the duped investors who still thought the get-rich-quick man would return at an early hour. However, Mr. Burnside, the guardian, took possession of the books, which, according to a statement furnished by Mr. Sheldon to David Burnside, his office manager, showed assets of \$4,173,237. Liabilities of \$2,860,556, and a surplus of \$1,312,681. This was on Aug. 21 last. Mr. Burnside is unable to give the statement shows the actual condition of Sheldon's business at that date and that the surplus was subsequently squandered. If this is true, it would indicate that Sheldon and his confederates, and it is now admitted that the "blind pool" operator had outside help carried away with them something like \$1,500,000 in cash to tide them over the winter. A pretty sum, indeed, to show as the result of prying for twenty months on the credulity of get-rich-quick investors. Accounts, Aug. 31, \$1,387,021 (including 20 per cent. dividend); cash in hand, \$1,143,971; receivables, \$252,654; total, \$2,880,556. Assets—Margins, a per statement on stock books, \$2,821,600; cash in New York bank, \$1,146,000; credit at brokers, \$12,000; Montreal Bank account, \$49,737; total, \$4,173,237. It appears that Sheldon told one of his employees that he had over a million dollars in a New York bank, where it was available at any time, but his statement, of course, has not been confirmed.

Ottawa People Lost Heavily. OTTAWA, Oct. 13. (Special.)—It is estimated that Ottawa people have lost through the subject of "Gold Crust" bread, to the extent of half a million dollars. A special luncheon of the Canadian Club will be held on Monday at 1 p.m., when the club's guest will be Dr. T. A. Longstaff, M.A., F.R.S.G.S., London, England, who will give an address on the subject of "Alpine Clubs of Canada and the Value of Canadian Mountain Regions as a National Asset."

Eat "Gold Crust" ---A Special Bread

Although costing no more, "Gold Crust" bread is made in a special way by Nasmith's from a careful mixture of flours. The intention is to make a superior bread, especially nutty in flavor, and with more gluten than regular breads contain. This adapts the bread to the home with growing children in it. To have Nasmith's courteous drivers make regular deliveries, write or telephone Main 4372, ordering "Gold Crust." Name on each loaf.

STEAMSHIP ARRIVALS. Oct. 13 At From. Em. of China, Yokohama, Vancouver. Oct. 12, 1910, Royal Canadian, Liverpool. Oct. 12, 1910, Royal Canadian, Liverpool. Oct. 12, 1910, Royal Canadian, Liverpool.

TODAY IN TORONTO. Oct. 14. Dominion Railway Board, city hall. Women's Canadian Club, address by Archbishop Lloyd. Conservatory of Music, 11 a.m. Public Library Board, 5 p.m. Laurier Club, Forum Building, 5 p.m. I.P.B.E., Theatre, 8 p.m. Massey Hall—Mrs. Lisa Lehmann, 8.15. Royal Alexandra, "The Midnight Hour" music, 8.15. "The Dollar Princess," musical comedy, 8.15. Grand, "A Winning Miss," musical comedy, 8.15. Shea's New Theatre—Nora Bayes and Jack Norworth and vaudeville, 8.15. "Follies of the Day," burlesques, 8.15 and 8.35. Gayety, "Crackerjack," burlesques, 8.15 and 8.35. Shea's Yonge-street Theatre—"Pop" vaudeville. Majestic Theatre—"Pop" vaudeville.

BIRTHS. DOBSON—At St. James, on Wednesday, Oct. 12, 1910, the wife of Edward Dobson, a daughter. STANTON—On Wednesday, Oct. 12, at 67 Huron-street, to Mr. and Mrs. E. G. Stanton, a daughter.

DEATHS. DOBSON—At St. James, on Wednesday, Oct. 12, 1910, the wife of Edward Dobson, a daughter. STANTON—On Wednesday, Oct. 12, at 67 Huron-street, to Mr. and Mrs. E. G. Stanton, a daughter.

HOW TO GRAFT TOMATOES ON EGG-PLANT. I take an egg-plant (pepper plant) about two months old, and cut it off about two inches above the ground. Then I take a tomato plant of about the same age and cut off the top or young branch—it makes no difference—and graft it on the eggplant. Then I wrap it with soft cotton to keep it in place. It takes about twelve days before you can see whether union has taken place.

OTTAWA, Oct. 13. (Special.)—Le Temps to-day publishes another anti-Fallon story. It reproduces the text of a long resolution passed at the recent meeting of the Canadian Education Association here, when the bilingual school issue was discussed. This resolution, according to Le Temps, took up the denial of Bishop Fallon that he was adverse to the French language.

MGR. FALLON'S REPLY TO THE HANNA LETTER

Promises a "Bomb" for Somebody When He Issues a Carefully Prepared Statement.

The publication of the translation of a memorandum of a conversation which Hon. W. J. Hanna, provincial secretary, had with Mr. M. F. Fallon, bishop of London, in Sarnia, May 22 last, brought a vigorous statement from the ecclesiastic. Hon. Mr. Hanna sent the following telegram to the bishop on Wednesday night: "Publication in Quebec press of memo. prepared by me for Dr. Fyne and Sir James after my discussion with you last summer, amazes me. Am investigating and will write you fully later. It did not get out from my office."

Yesterday morning the following interview was secured from Mgr. Fallon, who was at St. James' on Wednesday night: "Publication in Quebec press of memo. prepared by me for Dr. Fyne and Sir James after my discussion with you last summer, amazes me. Am investigating and will write you fully later. It did not get out from my office."

The provincial secretary did have an interview with me, some four and a half months ago. It took place at Sarnia, and this is how it was brought about. Rev. Father Kennedy, one of the pastors there, told me that Mr. Hanna was in town, and he asked me if he might request that I call on him. I told him I would be pleased to have the provincial secretary call, and from what Mr. Hanna told me he was equally pleased to see me. At least he told me so.

The conversation we had lasted about half an hour and the school topic took up most of the time. What transpired between us was by no means confidential, but it was not meant for publication. Whenever I want anything published I am quite capable of looking after it myself. His Irishness in the matter seriously, and is preparing a statement which he will issue in a few days. He promises something of a sensation, for he says, "It might add that the reply will prove quite a bomb to some people, and will act considerably like a bomb. Pending the reply I might state that there is no hostility, but on the contrary there is absolute friendliness to the French people, and their language and their interests are my opposition to the bi-lingual school system and its results in my diocese."

From the tenor of the remarks it appears that Mgr. Fallon jumps at the conclusion that the memorandum was given out by Mr. Hanna. "Politics are politics," he said, "and when one is in the game one has to use the methods. I'm not in the game, so why have anything to say I hit straight out." The letter was written by the provincial secretary to Dr. Fyne. Whether the giving out of it was a piece of office riving or of political treachery I don't know, but I will deal with it when I make the statement I am going to make at an early date, giving the facts to show the condition of public education under the bilingual system in the County of Essex and other parts of my diocese. As to his attitude indicated by the text of the letter, the bishop says, "I don't care what Mr. Hanna says; I am not being fooled. I know what I said to Mr. Hanna, and the opinions I expressed to him then do not in any way conflict with the statement I am authorized to make publicly. I'll attend to Mr. Hanna when I get the time."

Mr. Hanna Explains. While not wishing to add anything to the controversy, Mr. Hanna, when interviewed yesterday, said that the translation from English to French and back again to English was quite unjust to the bishop and also to the original memorandum. It imparts a tone and disposition that was not present in the conversation in the memo. That this is so would be apparent from the original memo itself, but since it is most material for publication it would not be in order for me to make it public now," he asserted.

One would almost gather that Bishop Fallon was on the march on the subject, whereas our talk was most friendly and agreeable, and there was not on the part of anyone the slightest disposition towards the antagonism indicated in the translation published."

French Teachers Score. OTTAWA, Oct. 13. (Special.)—Le Temps to-day publishes another anti-Fallon story. It reproduces the text of a long resolution passed at the recent meeting of the Canadian Education Association here, when the bilingual school issue was discussed. This resolution, according to Le Temps, took up the denial of Bishop Fallon that he was adverse to the French language. The resolution, after citing sworn documents about the bishop's utterances at Windsor, went on to say that, in view of these sworn documents, to the bishop's anti-French utterances, it could not accept his denial. It is stated that owing to the scarcity of qualified teachers in Ottawa, French separate schools in Ottawa will be ordered closed by the department of education within a few weeks.

A FAMILY CONFERENCE—A FAMILY CLUB RESULTING IN A MEMBERSHIP IN

The Mendelssohn Piano Club

Yesterday the head of a family took out a membership in the piano club, stating that he did so on behalf of his three children, who had formed a club among themselves to buy the piano for the home. Each one had agreed to contribute fifty cents a week as their share of the regular payments.

There are doubtless many other young wage-earners in the city who would like to do similarly. To them the Mendelssohn Club presents a most exceptional opportunity—the opportunity to secure a \$340 piano for \$240, and at the same time pay for it in easy monthly payments of \$6 each.

Club members have the choice of five different options of payment:—

- Option A—A \$340 piano for \$240 cash. B—A \$340 piano for \$250, on payment of \$50 cash and \$10 per month until paid, without interest. C—A \$340 piano for \$260, on payment of \$25 cash and \$20 every three months until paid, without interest. D—A \$340 piano for \$280, on payment of \$15 cash and \$7 per month until paid, without interest. E—A \$340 piano for \$266, on payment of \$10 cash and \$6 per month until paid, without interest.

Think it over—talk it over. Come in, hear and see the pianos. Act now. Remember, the club membership is limited to fifty. Store open Friday and Saturday evenings this week.

GOURLAY, WINTER & LEEMING 188 YONGE STREET, TORONTO.

METHODIST MISSION BOARD IN SESSION

Will Continue Until Tuesday—Reports Submitted—A Great Deal of Work to Be Done.

The Methodist General Board of Missions Conference opened yesterday at the Elm-street Methodist Church, and will be concluded next Tuesday. Dr. W. R. Young of Montreal was appointed general secretary, and W. Hunt of Calgary assistant secretary. All returned missionaries, Rev. Dr. Heustace, and Mrs. Wilmot presented the report of the Women's Missionary Society. The report shows a total membership of \$4,752. In home fields they have 55 missionaries, 22 of whom are in active service. Rev. T. E. Shore reported on the report of the Canadian Education Association, and recommended an increase in salary to missionaries engaged in the field. He also expressed his intention of visiting the Indian missions in the northwest next year. At the close of the session, the board was adjourned until Tuesday.

THE SUSPICION OF LARRY

When Larry faced the St. Louis fire, he'd \$ to go to be secure. Disturb the game's tranquility. They'll spread the whitewash, that's a bet. That plan is best— But, hully gee!

CHAUCER ELLIOT'S VIEWS

Chaucer Elliott writes The Hamilton Herald as follows: "In my interview last week I was afraid to express my opinion as I did not know what Friday night might bring our team would line up, and I did not want to put you in wrong. I thought Tigers would trim Ottawa, however, and I made a few dollars on the game. I suppose you notice where Ottawa has had the championship was and hanging up in the capital for some time. To listen to the Ottawa talk, a fellow would be discouraged from putting a team on the field. We have some team down here and within the next two weeks, when I get the team into shape, you will hear from us. We will have Moisan in the game again, and as Kelly and Savage are as good as ever, they will fill in some gaps in our team. Wait until you see our back division. The half-backs are some class, my boy, and, on the square, I think they are the best in the union. They can all kick well and have good heads. In Tommy Simpson we have the greatest full-back in the business and Cameron and Savage are the greatest pair of outside wing men playing the game. We are not claiming to have the championship clinched or anything like that, but we will be knocking at the door. We have a real classy team and it will take some beating to keep us down this year. Argos came down here all puffed up after defeating Tigers, but the puff-broke after about ten minutes of play and after that they did not look strong to us. Binkley was a disappointment in the western paper, but he has received here after all the praise he had received in the western papers. I do not think that the Ottawa team is as strong as last year, and we are looking for our hardest game with Tigers. Remember me to all the boys and give my regards to the Irish queen, Danny McCarthy, your old friend. Chaucer."

Favors the King James Bible

We are just old-fashioned enough to take no stock in the modernized Bible, which is shortly to appear, "concocted in every-day language with obsolete words and phrases eliminated." The King James Bible has done more to preserve the good old Saxon words and style, which are the best English literature has produced, than anything else. Instead of a movement to get us farther away from that vigorous, simple, classic style, and the interest of establishing the finest literary ideal possible to a people destined to use the curious hybrid which the English language has become, it is shortly to appear, "concocted in every-day language with obsolete words and phrases eliminated." The King James Bible. It is the greatest treasure-house inspiration and teacher of ours.

Hearing in Shrimps

He has found that the sense of hearing in the shrimp (Gammarus) is very rudimentary, and is confined to a remarkably small portion of the musical scale. In Cole's experiments the sounds were usually produced by a tenor trombone. When a loud note of the proper pitch was sounded some shrimps responded in a striking manner by folding the first pair of antennae tightly beneath the body. This effect, however, was produced almost exclusively by the note C sharp of the middle octave, so that the shrimp offers the remarkable example of an animal whose sense of hearing is almost restricted to a single note. Moreover, only a few of the shrimps tested responded even to this note, and these few soon became fatigued and ceased to respond.

GRAND TRUNK REPORTS A PROSPEROUS HALF YEAR

Increase of \$455,168 in Gross Receipts—173,245 More Passengers Carried.

(Canadian Associated Press Cable.) LONDON, Oct. 11.—The G.T.R. report for the half year ending June 30, shows an increase of \$455,168 in gross receipts, passengers yielding \$36,000, and freight and live stock \$224,000. The number of passengers carried rose 173,245, while freight and live stock increased 1,235,000 tons. Working expenses advanced \$72,000. The committee decided to recommend that a modern language department be opened in the technical school and that Miss H. E. Downey, B.A., be made head of that department. The following resignations were accepted: Miss A. Fegally, teacher in Papez Avenue school; Miss Mabel Morris, now on leave; W. W. Noble, principal of Elizabeth-street school. The committee recommended the following appointments: W. H. Harwood, to be principal of Elizabeth-street night school; P. T. Hurry, to the King Edward night school; J. L. McCullough, to be assistant in the Alexander Muir night school. A big batch of transfers and temporary appointments was adopted.

AFTER THE BROWN DODGER

A Hunter's Idea of the Proper Rig for Snipe Shooting. "The matter of clothing for snipe shooting is one that demands some attention. Of course the orthodox rig is composed of hip boots, light trousers of strong cloth and a canvas shooting coat, summer weight. To my notion," says a writer in Outing, "this rig, with the exception of the light coat, is a poor one. To begin with I don't wear boots. The cream of the snipe shooting, except in States where the law does not bar gunning in the spring, is in September, when the weather is fairly warm and the water in the marshes has not yet turned cold. Consequently my feet have no terrors to a sturdy constitution and a light pair of canvas shoes that will dry quickly and will not hold water are infinitely more comfortable and about one-tenth as heavy as rubber waders. There is nothing that will sag a man so much as dragging ten pounds of rubber bladders to his feet thru a snipe marsh for as many hours. Besides my canvas shoes that dry quickly once I am out of the marsh I wear wool next to the skin. It doesn't chill like cotton at the end of the day when the sun has set and the twilight is gray with evening winds. Then, too, it absorbs the perspiration at midday when the sun is hot and keeps the body dry. Woolen trousers and a woolen shirt and then the canvas coat with the sleeves cut out—and you are rigged right."

Late Inventions

The French inventor of a drop frame motorcycle which women may wear skirts to ride has given it the name of "motoscoche." A pneumatic bed-bathub, which permits a sick person to be bathed without removal, has been invented by a Tennessee doctor. An attachment by which loose shoes may be temporarily fastened to a horse's hoof until a blacksmith is reached has been patented by a New Jersey farmer. A meat and fruit press that a Pennsylvania man has patented is inclined so that the juices flow into a receptacle placed under it as rapidly as they are extracted. A New York inventor has brought out an advertising clock that utilizes a phonograph to attract the attention of passersby to a series of cards which are changed as they pass.

A Lost Watch Fob

A watch fob ornamented with two silver running trophies, one a triangle and the other a medal, bearing the name of K. Coulter was picked up opposite Shea's Theatre yesterday and left in The World Office.

HAS THE QUALIFICATIONS

Recommendation of Miss Bryans' Appointment Endorsed.

In order to get right into the Hughes-MacMurchy controversy the management committee of the board of education hustled thru the regular routine work yesterday afternoon in double quick style. Stress was laid by one of the evening papers yesterday on the fact that Miss Edna Bryans, daughter of Trustee Bryans, was receiving an appointment as a domestic science teacher over the heads of other applicants, who were better qualified for the position. When spoken to by The World last evening Miss Ida Hunt, supervisor of domestic science, stated: "I have every confidence in the judgment of the inspectors. Miss Bryans is well qualified for the position." Inspector Hughes also stated that Miss Bryans had been devoted herself to the study of the work in the Toronto schools for some time, and is the best qualified teacher available at present time. The committee decided to recommend that a modern language department be opened in the technical school and that Miss H. E. Downey, B.A., be made head of that department. The following resignations were accepted: Miss A. Fegally, teacher in Papez Avenue school; Miss Mabel Morris, now on leave; W. W. Noble, principal of Elizabeth-street school. The committee recommended the following appointments: W. H. Harwood, to be principal of Elizabeth-street night school; P. T. Hurry, to the King Edward night school; J. L. McCullough, to be assistant in the Alexander Muir night school. A big batch of transfers and temporary appointments was adopted.

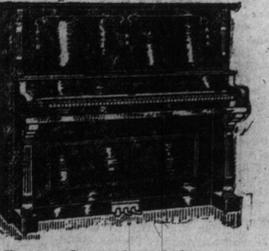

ANGELIC FUNDS VOTED FOR INDIAN SCHOOLS

\$10,000 To Assist in the Work—Missionary Society Urged To Take Over Indian Work.

Indian schools in the west will be given financial assistance from a grant of \$10,000 to be supplied by the Church of England Missionary Society. It was so decided at the meeting of the management committee, held in the St. James' parish house last night. An attempt will be made to secure further assistance out of government funds. A deputation consisting of Archdeacon McKay of Prince Albert and Canon Murray of Winnipeg spoke on the subject. Archdeacon McKay thought that the Church of England should take over the whole of the Indian work as a definite missionary movement. Two years ago the board was asked to consider the possibility of a super-vision over the work until the end of the year, when a successor will be appointed. Discussion was caused over the fact that whereas \$10,000 had been asked for the year, only \$5,000 had been received. In future each diocese will be notified at the end of every quarter as to how they stand in regard to contributions. Since the beginning of the year, \$52,000 has been expended. Bishop Pinkham of Calgary said the service was needed more missionaries. Last year only four men entered the service. The new Indian College at Calgary constructed in Calgary might go far to remedy matters.

FOR THE DEAF

The Electrophone at F. E. Luke's Store on Tuesday and Wednesday. The Stolz Electrophone Co., Chicago, will have an expert at the store of F. E. Luke, 159 Yonge-street, on Tuesday and Wednesday, Oct. 18 and 19, when their wonderful little invention, the Electrophone, will be on exhibition. The Electrophone is a marvelous instrument, perfected to such a degree that the deafest person can hear the faintest sound and enjoy all the pleasure of church, theatre, public speaking or ordinary conversation. Over one thousand are in use. Enthusiastic testimonials have been received from many respectable people. The Electrophone is almost invisible when in use. It is a great boon to the deaf or partially deaf, as it makes them hear and gradually restores hearing. Mr. Luke will be glad to have all who are interested call and inspect the Electrophone on Tuesday and Wednesday, when the expert from the home office will demonstrate what it can do.

Over one thousand are in use. Enthusiastic testimonials have been received from many respectable people. The Electrophone is almost invisible when in use. It is a great boon to the deaf or partially deaf, as it makes them hear and gradually restores hearing. Mr. Luke will be glad to have all who are interested call and inspect the Electrophone on Tuesday and Wednesday, when the expert from the home office will demonstrate what it can do.
