The smil supply was constituted mostly of the mium grades, with a small number of porters and butchers in the lot, which dinot enthuse the market towards higher indencies, and drovers were complaining that the "bottom had fallen out of the itcher cattle market," while buyers comided that the prices paid yesterday raped equally with those paid one year ag under similar circumstances.

Butch cattle were off several cents, where is quality was not standard, while medium suffered another drop, with small sck, such as calves, fat sheep and lambs, imaining weak.

Said prominent dealer yesterday: "Because fices early in June were far too high, twarranted prices at that, now that thre has been a drop to where quotations hould have been two weeks ago, men dilare that the market is weak. Sure, tere is not a strong demand in hot weather for cattle, but it is the hot-weather mrket we have now."

Comared with other weeks, the supply was sail, but quite sufficient for the hotweath demand. Very few butchers were in theot, and the highest price recorded was 10 for four out of a lot of six head. The hance of the herd went at \$6.75. This was a average deal in good butchers.

Medms sold a trifle lower than on Tuesty, except where there was an exceptically good steer or helfer in the lot, whenhe quotation generally ranged the sames at the opening.

The heaviest dealing was in stockers, and weral herd were sold at prices ranging om 34.25 to \$5.

The was one feature to the market, tho hat did not show on Tuesday. At 11 o'clde every head for sale had been dispose of, and, altho the quotations showed sweakness in the prices, owing to the headrawing men's attention away from acti trading, the sales went off quickly.

The demand for butchers cows was slow and prices ranged from \$3.50 to \$5.50 per cwt. The quality of the bulls offered was generally common and sales of such were made at \$5 to \$4.50 per cwt.

A fair trade was done in sheep and lambs and as the supply was not larse, a firmer feeling prevailed in the market and better prices were realized, with sales of sheep at \$4 to \$4.50 per cwt., and lambs at \$6 to \$6.25 each. The demand for calves was fair and sales were made at prices ranging from \$3. to \$10 each. Te receipts were.: Cars, 25; cattle, 165; cals, 282; sheep, 489; hogs, 627.
