Webb v. Township of Whitchurch will be concluded to-day. It is the ordinary action for damages for mon-repair of a highway.

The Court of Appeal reserved judgment in Gross v. Brodrecht, and, though the case occupied nearly all day, not a lady appeared even at the door. This, of course, was owing to the fact that most of the fair sex read The World, and thus escaped the mortification of having to beat a hasty and ignominious retreat from so unsavory an appeal. Even the rescorts rose to the occasion and it was remarked that not a person entered the rourt room during the day, except on business.

We see that Scores, in the advertisement on the back page, claim that if the gentlemen of Toronto fully realize the sterling quality of their celebrated Guinea trousers they would be unable to meet the demand. We can readily believe this, as this popular garment is remarkable for the decided excellence of its material and workmanship, and it is a source of perpetual wonder to many how they can possibly sell their Guineas at the remarkably low price of \$5.25. To look at the enormous range of these trouserings is sufficient to convince the most sceptical that they are pre-eminently superior, and what Scores claim them to be, really \$8 and \$9 trousers. It must be remembered, however, that Mr. Score went direct to the British manufacturers in order to secure materials unique in design and coloring. Of this we are certain. Nothing has created such a furore in the annals of merchant tailoring as "Score's celebrated Guinea trousers, \$5.25 spot rash.

Along the Water Front.

The navigation for the season is drawing to a close, and word comes from the different ports about steamers being laid up for the winter.

News from Port Colborne yesterday stated that the big grain vessel Algonquin had gone aground whilst attempting to make the harbor at that place. She draws 15 feet of water, and the wind from the north has lowered the water to 14 feet. As soon as the water rises the steamer will undoubtedly free herself. The Algonquin is owned by the Chicago and St. Lawrence Navigation Company.

The steamer Macassa is doing a large business on the Hamilton route and will business on the Hamilton route and will continue service till Nov. 1. The Chicora brought over 2000 baskets of fruit yesterday morning.

About 15 milk cows were on the market and sold at prices ranging from \$25 to \$45 each.

Calves sold at prices ranging from \$2 to \$8, according to quality and weight.

C. Zeagman bought two good ones for \$17.00.

Export sheep soid fairly well at \$3.35 per cwt., to \$3.50 for ewes, and \$2.75 to \$3 per cwt. for bucks.

Trade for lambs was only middling and prices ranged from \$3.90 to \$4 per cwt., or in other words, \$2.50 to \$3.25 each; and there were some unsoid. The hog market is firm at \$5.75 to \$5.87% but the latter price is only paid for choice picked lots, and there are not many that are fortunate enough to get this price. William Levack shipped two car loads of export cattle per C. P. R., and the fellowing by G. T. R.; Brown & Snell 4 cars, Williams & Hall 3 cars, Jas. Eakins 2 cars, all for export, and A. ed on the market to-day, composed of 650 cattle, 1330 sheep and lambs, 29 calves, and 1900 hogs. The market for export cattle was far from being an active one, and an easier feeling prevailed.

What the export dealers want is good, heavy, well-finished fat cattle. They complain that two many cattle are offered for sale that are little better than good heavy feeders. There is no doubt but this is too true, and good well-finished cattle are the exception instead of the rule. There were several loads of export cattle held over from Friday's market, and in all probability several loads will again be held over from to-day's market, as the buyers are unwilling to pay the prices asked by the drovers, who in turn say that they cannot afford to sell for less, and the consequence was that several loads were unsold at 3.30 p.m.

Prices ranged from \$4.00 to \$4.50 per cwt.

| The stock market was partly demoralized to-day by a vigorous bear raid, coupled with an apparent absence of all support to prices on the part of larger financial and speculative interests. Lower prices came from London, and arbitrage houses were selers. The talk about the belligerent character of the representations submitted to the Spanish Government on the Ciban question by the new United States Minister, was used with sentimental effect by the Spanish Government on the Ciban question by the new United States Minister, was used with sentimental effect by the bears, although the best advices from Washington were that there was no foundation for the stories. Stop-loss orders were reached on the decline, and their execution accelerated the fall. Money rose to 4 per cent. again, and weakly margined hoiders were sold out. The liquidation was extensive in the morning, and gradually extended through the list. A rally on covering and the extension of mouerate support occurred in the early afternoon, but in the final dealings the attack on the market was renewed. Prices fell 2 to 4 per cent. and in some instances the loss exceeded the higher figures. The market closed weak and unsettled at about the lowest quotations of the day.

ceived the following despatch to-day from New York:

The long-expected reaction in the stock market occurred to-day. It was brought about by persistent vigorous hammering by bear traders, and withdrawal of bull support upon the development of over-bought condition of market and preponderance of sentiment favoring realization sales. The reports extensively published in the country and abroad to the effect that our Minister to Spain had delivered an ultimatum to the Spanish Minister of Foreign Affairs yesterday in the Cuban question, were denied at Washington. But the agitation of the matter had a demoralizing effect upon small holders, and led to general selling movement, and everything on the list gave way. The pressure increased as business progressed, thus showing the over-bought condition of the market, and bulls stood aside and allowed liquidation to run fits course. The sales for the day were \$45,000 shares. This volume of business plainly shows extent of pressure which had been on the market, and also shows congested condition of speculative long interests.

McIntyre & Wardwell (John J. Dixon) re-ceived the following despatch to-day from ceived the following despatch to-day from Chicago:

Wheat—The opening of the market to-day was very weak, under heavy selling by commission houses, considerable of which was for foreign account, and the market never recovered from its initial decline. Afterwards trading was mainly professional, and the bearish sentiment succeeded in getting prices down about 1c under opening. The strength in corn and buying by shorts caused a recovery in prices, and the market ended at same point at which it began. Cable advices were weaker, but the decline enabled the accomplishment of fair export business at seaboard, 30 loads taken. Primary receipts continue large. They were 3,000,000 bush for two days this week. The Atlantic seaboard clearances are also quite large, 1,019,000 bush in same time. The market looks rather weak, and unless Europe comes to the rescue it is probable prices will drift to a lower level. Provisions—Market opened steady and sold lower on reports of yellow fever in St. Louis. Commission nouses sold Oct, ribs down to \$5.15. Anglo-American Provision Company sold Dec. lard Later St. Louis denied yellow fever report, which stopped further decline. The market closed steady, but near lowest prices of the day. Estimated receipts of hogs to-morrow, 26,000.
