The Mark That Tells

Pen-Angle trademark (in red) on every Pen-Angle garment, tells you it will fit and won't shrink—your own dealer so guarantees it. Underwear thus trademarked is softer, warmer, more flexible, better wearing.

BETTER UNDERWEAR

Rubbers needn't be flimsy to be stylish; needn't be clumsy to be staunch; needn't cost more to be better than you've been buying.

Daisy Rubbers

They give you Double wear from every pair. Look for the trademark. The Daisy Rubber People At Berlin Ontario

One of the 209 Daisy Styles. Ask your Dealer.

Thick storm-rubber is made in the right toe-shape to fit YOUR shoes.

"Don't Use Too Much"

Armour's Solid Extract of Beef

Be careful not to use too great a proportion of Armour's Beef Extract when making Beef Tea, Soups, or Gravies. Too much does not improve your dishes. Just add one-quarter the quantity you would of other Extracts and Fluid Beefs, because Armour's has four times the strength of most of them.

UNDERWRITERS DO NOT ANSWER YET

Will Decide Effect of Water Schemes on Key Rate at Earliest Convenience.

At a meeting of the water commissioners, held at the city hall yesterday afternoon, at which Chairman Darch, Commissioner Saunders, Secretary Ellwood and Supt. Moore were present, Mr. Moore stated that he had received a reply from the fire underwriters, stating that they would, at their earliest convenience, look into the matter of how the different schemes of increasing the water supply would affect the key rate in this city.

Mr. R. Southern sent in an account for repairs to the service pipe which leads to one of his houses on Horton street, and which, he says, is continually being destroyed by electrolysis. Mr. Southern's account called for \$15.75. The matter was left over for further consideration.

Engineer Robb reported to the board that certain repairs were necessary to two of the boilers at the power house. It was decided to call for tenders.

The superintendent was ordered to call for tenders on 20,000 feet of pipe such as is used for service.

It was decided to ask for a special meeting of No. 1 committee to discuss the question of increasing the water supply.

The matter of treating the ponds at Springbank with sulphate was brought up by Mr. Saunders, and it was decided to buy 500 pounds, and have the cleansing done right away while there is plenty of water. The sulphate has proved a successful means of cleansing.

Mr. Saunders reported that during the last few weeks several people living in the neighborhood of Springbank Park had carried apples away from the park in bags, and in one case a pump had been found to about six inches above the ground. The secretary was authorized to write the offending parties that they must cease the practices complained of.

Mr. Saunders reported that a sample of the water from the ponds which are being considered as a source of increasing the supply had been sent to Ottawa for analysis. It was desired to know if it contained a certain variety of injurious germ, but no answer had been received. After some consideration the board decided that it would not be necessary to take any precaution against this particular germ, when the ponds are worked the germ cannot exist.

SPECIAL PRIVILEGES REFUSED BY THE COUNCIL TO THIS FIRM

J. W. Smith Wanted Exemption and Free Water—Other Carriage-Makers Protested.

The city council last night refused to grant the application of J. W. Smith, of Maple street, for a fixed assessment of \$4,000 and free water. The council took the ground that as there are other carriage manufacturers in the city who are not enjoying special privileges in the way of free water or reduced taxation, it would be unfair to grant Mr. Smith's request.

No. 1 committee brought in a report recommending that Mr. Smith's request be granted, but Chairman Forristal, who had opposed the application in the committee, refused to move the adoption of the clause, and Ald. Greenlee did so. The latter could get no second to his motion, until Ald. Matthews seconded it, so as to give Ald. Greenlee an opportunity of explaining his position.

The alderman boldly stated that he is opposed to the granting of fixed assessments and exemptions, but was prepared to vote for this request, as other firms are being similarly treated. He felt that one man is as much entitled to an exemption as another—the small manufacturer as well as the big manufacturer. The whole system of exemptions and privileges should be wiped out, but so long as it is in existence he would vote to give all men the same show. He would send the bylaws to the people until they would get sick of them.

Deputation Heard

A deputation of carriage manufacturers was heard by the council. It included Ald. A. B. Greer, W. J. Thompson, Wm. G. Abbott, S. Turner, Campbell & Sons and others.

Ex-Ald. Greer, on behalf of the deputation, addressed the council. He said that the Campbell, Thompson & Co. had been in business in London for 40 or 50 years, and he has himself been in business in London a long time. All of them have paid taxes on what the assessors were pleased to assess their factories, and had enjoyed no special privileges. All the city had done was to personally want to tell him to go to the court of revision if he was dissatisfied with his assessment. Mr. Greer then told of how he had been offered \$20,000 to move his factory to another town, but as all his friends and associations are in London he refused to leave it. He declared it was only reasonable that the other carriage manufacturers should object to special privileges being granted the Smith firm. Every time the old manufacturers had built an addition to their factories their assessments had been moved up, but now, when Smith proposed to increase the size of his factory, he is to be given special privileges.

"It's pretty nearly time we put a stop to this kind of thing," he said. "The carriage makers are growing sick of this sort of business. We can go elsewhere, where we will get special privileges and be on a par with the firms of Gananogue and elsewhere. I'm sorry to see that we have a committee of the council which would countenance such a thing."

Ald. Armstrong, seconded by Ald. Stevenson, then moved that the request of Mr. Smith, be not granted, as it would open the door for other carriage firms to make demands on the city.

Ald. Stevenson said that the granting of an exemption to a firm only made the employees responsible for their employers' taxes. The system is bad, and should be wiped out.

On the motion to adopt the clause of the report, and grant the request of Mr. Smith, only Ald. Greenlee voted yes, and it was lost. Thus the proposed exemption was knocked out.

the time consumed in ascertaining the exact cause of the trouble was sufficient to cause the flood.

A CASE IN WEST ARCHAT

Mrs. A. P. Ferguson, a well-known Cape Bretoner, has cured asthma by Catarrhoxone. Her statement is convincing: "Although I was troubled for years it was only recently I tried Catarrhoxone. When an attack started I got out my inhaler and invariably got quick relief. I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhoxone is sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c and \$1, at all dealers.

New York Excursion Nov. 20. See New York Herald.

On Nov. 20 the West Shore Railroad will run a popular excursion to New York at the low rate of \$9 for the round trip from Suspension Bridge or Buffalo, tickets good returning on or before Nov. 29 (United States Thanksgiving Day). Splendid opportunity to take in New York Home Show. Consult L. Drago, Canadian passenger agent, 79 West 12th St.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, bleeding or protruding Piles in 6 to 14 days, or money refunded. 7c.

POURS INTO ORCHESTRA

Flow of Water Over the Footlights Puts the Audience to Flight.

Berlin, Nov. 20.—The performance of Strauss' opera "Die Fledermaus," at the Central Theater yesterday, was prevented by what was probably an unprecedented mishap. The theater was crowded with an audience patiently waiting the beginning of the performance, when suddenly torrents of water began to pour over the stage. The flow of water increased rapidly until the torrent poured over the footlights into the orchestra.

The musicians fled hastily and the occupants of the front stalls followed their example. The remainder of the audience stood up in amazement. Meanwhile, pieces of scenery began floating about and alarmed shouts and suppressed screams were heard in the wings. The audience was becoming dangerously excited when the manager, who was drenched from head to foot, came to the front and announced that the flood was abating, but that the scenery had been so damaged that it would be impossible to give the performance and that the money paid for seats would be returned.

The cause of the deluge was simple enough. An inexperienced fireman had turned on the emergency hosepipe and

CHEESE MAKING AND CARE OF MILK

Important Proposal Made by the W. O. Dairymen's Association.

The Western Ontario Dairymen's Association has sent out the following circular:

Again we invite the cheese makers, factory men and patrons to meet together in the various districts and discuss questions relating to cheese making and milk production. The details of making cheese and taking care of milk can be discussed more fully at a small meeting of this kind than at our annual convention. We would like you to make a special effort to attend the meeting most convenient to you, and get as many of your officers and patrons to come as you possibly can. Everybody interested in dairying will be made welcome. No set programme will be arranged, but the following questions are probably the live ones in our cheese industry today, and we would be glad to have you come prepared to say something on any or all of them:

What are the chief hindrances to securing a better quality of milk from patrons of cheese factories?

The advantages of curing cheese in an up-to-date cool curing room.

We hear many complaints about prices for manufacturing being too low. Can this meeting not take some definite steps to prevent our goods from going out of the trade because they are not getting sufficient money?

Would our present system of instruction be improved upon by making the instructors sanitary inspectors and assessing the factories as follows: Make of cheese under 50 tons, \$7.50; 50 to 100 tons, \$10; 100 to 150 tons, \$12.50; over 150 tons, \$15?

Would a cheese scoring contest be of interest to the cheese makers in 1907? Some definite action may be taken on these subjects, and every maker and factory man should be present.

Following is the list of meetings, which all begin at 2 p.m.:

Dunville, Queen's Hotel, Nov. 20.

Listowel, MacDonald's Hall, Nov. 22.

Simcoe, Free Library Hall, Nov. 27.

St. Marys, Council Chamber, Nov. 29.

London, committee room, city hall, Nov. 30.

Woodstock, council chamber, Dec. 4.

Tilsonburg, council chamber, Dec. 5.

Avon, Avon Hall, Dec. 6.

Thousands of tourists who have visited the famous castle of Heidelberg, remember with interest the great vat which stands in its cellars and which was once filled with the delicious wines of the Rhine country. It is within the heavy walls as a permanent testimonial to the drinking powers of the nobles who inhabited the castle in years gone by. A ladder leads to the top of it, round which runs a railing, and which is so large that a quadrille could easily be danced on it. It encloses this great vat of Heidelberg was famous as the largest in the world.

It can no longer, however, claim that distinction, for in England there is one which is three times as large. This is the great vat at the works of Holbrooks, Limited, in Birmingham. It contains three times more space than the Heidelberg vat, and is capable of holding the contents of two and a half millions of bottles of Holbrook's Worcester Sauce, equal to 100,000 gallons. In the picture here given a man standing on a long ladder may be seen clinging like a spider against its side. This famous vat is now, and doubtless will remain for many years the largest in the world.

CAN BRING IN MOTORS

Canadians Can Enter United States with Machines Free of Duty.

Buffalo, Nov. 19.—Collector Fred O. Murray has received from Washington an order that Canadian motorists, who are known residents of that country, may bring their automobiles into the United States for a period not to exceed three days without paying duty or filing bonds.

Deputy Collector Bradish said today the Canadian authorities have been informed officially of this ruling in the hope that they can effect one of the same sort. Now Americans taking their automobile into Canada have to make a deposit of \$25, and bond their machine against sale. This entitles them to cross the border at will for six months in the territory covered by a permit, which is issued to them.

HARRY THAW'S DEFENSE

Report of Alienists Intimates That It Will Be Emotional Insanity.

New York, Nov. 19.—That Harry K. Thaw, who shot and killed Stanford White, was insane, is the expressed opinion of three alienists who examined the prisoner at the instance of his counsel. Their report to this effect was made to Clifford W. Hart, chief counsel for Thaw, today. The report does not say that Thaw is insane at the present time. The unanimous opinion of the experts is that Thaw always has been of a neurotic temperament, and they have found in the history of his life, that from time to time he suffered spells of emotional insanity.

The experts are Dr. Britton W. Evans, Dr. Charles S. Wagner, and Dr.

ANNA TO WED ACTOR

Gossip Has It She Will Become Bride of Harry Woodruff.

Pittsburg, Pa., Nov. 19.—Harry Woodruff, star of "Bravo O'Harvard," a former sweetheart of Anna Gould, is going to marry the Countess Castellane, according to gossip going the rounds of Pittsburg theatrical circles. It is intimated that the story was started by Woodruff himself when he played here three weeks ago.

Some years ago Woodruff was engaged to marry Anna Gould, it is said. An arrangement was made to send him to Harvard University for a more complete education than he possessed.

The Gould fortune was placed at his disposal and an agreement executed that he would not make any attempt to marry the daughter of Jay Gould until after he was graduated.

When Anna Gould met Count Castellane Woodruff was jilted.

THE NEW YORK HORSE SHOW

Seventeen Hundred Animals Entered for the Various Competitions.

New York, Nov. 19.—Madison Square Garden resounded in decorations of orange and black, was thrown open today to the 22nd annual exhibition of the Great National Horse Show Association. About 1,700 horses, including the thoroughbreds of the hunt and saddle, and the high-steppers of the coach and cart, are numbered among the competitors for the blue ribbon.

The show of the horses began at 9 o'clock with the customary formalities. Twenty of the finest horses in the show are entered for the most-coveted prize of the show, the Waldorf-Astoria cup. The contest was believed to be between the entries of W. H. Moore, Miss Giulia Morosini, Reginald Vanderbilt and Alfred Vanderbilt.

Twice with Forest King, which horse will be in the contest this year. In this contest Miss Morosini will show Glorious and Togo, and Alfred Vanderbilt will display Youngster and Primrose. Charles Watson is also expected to show the pick of his stable in this event.

TWO MONSTER VATS.

Thousands of tourists who have visited the famous castle of Heidelberg, remember with interest the great vat which stands in its cellars and which was once filled with the delicious wines of the Rhine country. It is within the heavy walls as a permanent testimonial to the drinking powers of the nobles who inhabited the castle in years gone by. Christopher C. Boling, all of whom stand high in the profession. Dr. Wagner is superintendent of the state hospital at Binghamton; Dr. Boling is superintendent of the state hospital of New Jersey, and Dr. Evans is the chief physician of that institution. The report of these experts appears to show that Thaw's defense will be emotional insanity.

There is a little town named Markneukirchen in Saxony, where nearly every inhabitant is engaged in the manufacture of violins. The industry gives employment to nearly 15,000 people, who live in Markneukirchen and the surrounding villages. The old men make the ebony fingerboards, screws and stringholders, and the younger ones, with strong, steady hands and clear eyes, put the pieces together, which is the most difficult performance of all. The women attain marvelous skill in polishing the violin after it is fitted up and almost every family has its own peculiar method of polishing, which is handed down from mother to daughter—some excelling in a deep wine color, others in citron or orange color. The more expensive violins are polished from 20 to 30 times before they are considered perfect and ready for use.

During the fiscal year 1,560 foreign automobiles were received in New York, valued at \$4,726,139.

IT'S ALL IN THE BLENDING

SORE BACK

"The doctor told me my back was the worst he had ever seen," said Mr. Alf. Lillierapp, of Waltham, when telling of what Zam-Buk had cured him.

"It was covered with eruptions which came in the form of headless pimples, and spread until my back was one mass. The itching at night was so bad that at last I had to have my hands tied to prevent me scratching myself and making the eruptions bleed. I took internal medicines and tried various salves; but in vain. One night I read about Zam-Buk and bought a box. Well I hardly know how to express my gratitude for the benefit I derived! That first box gave me relief and a few more cleared the pimples and eruptions from my body."

Similar eloquent testimony comes from Manitoba. Mr. R. J. Burgoine, of Harding, says:—"I had some very bad sores on my heel but Zam-Buk cured them in a few days. It also cleared my chest of an unsightly eruption."

ZAM-BUK NEEDED IN EVERY HOME.

Zam-Buk should be in every home. It cures cuts, burns, bruises, scalds, chilblains, cold sores, chapped hands, hemorrhoids, eczema, running sores, abscesses, may be safely applied to the delicate skin of babies and cures teething rashes. It also cures the pain of piles. It is good as an embrocation, and excellent for rheumatism and sciatica. All druggists sell it at 50 cents a box, or from the Zam-Buk Co., Toronto, upon receipt of price. 6 boxes for \$2.50.

FREE BOX.

Send this coupon and 1c. stamp to Zam-Buk Co., Toronto, and sample box will be sent you. Advertiser, Nov. 20, 1906.
