

IMPRISONED IN A SINKING SHIP

Mate of Steam Trawler in a Terrible Position, With Death Looming Nigh.

London, Sept. 8.—Harry Willey, the mate of the ill-fated Hull steam trawler Quail, sunk in the Humber after being run into by the Wilson liner Dynamo, was sufficiently recovered from the effects of his exciting fight for life in the cabin of the sunken ship to be discharged from Hull Royal Infirmary yesterday.

Under careful nursing he speedily recovered and, although still weak from severe shock, he bears himself quite modestly, and as is characteristic of most of his class, he looks upon his thrilling experience in the most matter-of-fact fashion.

"I had turned in about three-quarters of an hour," he said yesterday, "when I was awakened by a violent concussion, which made the vessel tremble from end to end. Before I had scarcely time to realize what was happening I saw water rushing into the cabin from all sides.

Found Cabin Door Closed.

"My comrades had fled, and I tumbled out of my berth and made for the cabin door as quickly as my legs would carry me. The weight of the water, however, kept it closed. I pulled at it desperately, but I could not move it, and in a very few moments the water had reached my waist and I got on the cabin table to see if there was any possibility of escaping from my prison by way of the skylight.

"The water still continued to come in from the sides of the ship, and to save myself from drowning I had to keep standing on the cabin table, but even then I was compelled to stand as erect as possible on my toes. So as to my mouth my head was in the skylight top, where I had only a chance of a mouthful of air.

"Several of my mates, thinking, perhaps, some of us remained inside, tried to break through the iron bars of the skylight, and though I could not signal to them through the thick glass, I could feel the vibration of every blow they struck. Then their hammering ceased. They had given up, and either left the ship to save themselves or came to the conclusion that, with the cabin full of water, those that remained were already drowned.

A Horrible Moment.

"It was a horrible moment when their hammering ceased and I was left there alone.

"I had nearly given up altogether, and once I slipped from my foothold, but was fortunately borne again to the surface, where I caught hold of the projecting ledge of the framework, I held on to it for some time like grim death, wondering and watching for what was to happen next. I thought I should never see land again. My heart sank within me, and I was beginning to despair, when I noticed the water began to ebb. We had apparently sunk in shallow water. Down and down it went, and with every inch my hopes grew stronger. I was chilled to the bone, but I held on, and presently was able to again reach the cabin door.

"By degrees I pulled it inward—one inch—then two—and then three—until it came open wide, and the water rushing out carried me with it in safety to the upper deck.

"The force of the water was so great that my feet never once touched the steps of the companionway.

"The vessel was deserted, but I could see the Wilson liner nearby, and presently they saw me and sent a boat to fetch me, and with my comrades who had given me up for lost I was taken back to Hull.

More than an hour elapsed during Willey's exciting adventure.

The cabin is, as usual with all steam trawlers, in the middle of the ship, with the bunks placed on either side, and it is lighted from above with an iron skylight, which proved Willey's salvation. The Dynamo crashed into the Quail's cabin on the starboard side, and caused a great inrush of water, which eventually closed the door and held Willey a prisoner.

TOO MUCH REMANDING

Magistrate Comes Close to Releasing a Material Witness in Murder Case

Hamilton, Sept. 8.—Magistrate Jelfs came nearly releasing from jail this morning Mrs. Rodzyk, who is wanted as a material witness in the Rodzyk murder case.

Ever since her husband was murdered Mrs. Rodzyk has been held as a material witness against Jake Sunfield, the man under arrest accused of the crime. Every Saturday morning her name has been called in the police court, and she has been remanded for another week. When her name was called this morning the magistrate announced that he had about decided to release the woman. If the crown required her as a witness there was a proper way of having her held, but it was not by bringing her up on a remand every week when no charge had been preferred against her.

Crown Attorney Washington had to use all of his persuasive eloquence to get the magistrate to keep the woman in jail until he could get some one to swear out an information against her. As soon as that is done she will be committed to the jail until the fall assizes.

WHEN YOU CAMP.

Take "Clark's Pork and Beans" and Clark's other specialties with you—they are an absolute necessity for your camp; guaranteed pure, wholesome and tasty. In air-tight tins, ready to serve.

An example of the efficiency of agricultural colleges is afforded at Fort Collins, Col., where \$4,000 was paid out last year to the students for working at the school.

AUGUST WEATHER OFFICIAL REPORT

Temperature Below the Average—A Large Area Suffered From Drought.

The Government chart showing the weather conditions in the Dominion during August has just been issued. It appears that the temperature was just the average in a few isolated localities, chiefly in Manitoba and Eastern Quebec, otherwise throughout the Dominion it was below the average. It was highest at Agassiz, B. C., where it reached 95, while at Chatham, Swift Current, Assa, West, and Stoney Creek, Ont., it touched 94. The lowest temperature of the month in the Dominion was registered at Barker, Minn., B. C., where 28 degrees was indicated.

In the southern portions of Vancouver Island, and on the lower mainland the rainfall was very light, less than half the average amount in many localities. In other parts of British Columbia it was nearly everywhere in excess of the average. Cariboo recording nearly three times the usual quantity. In the western provinces and east as far as Lake Superior with the exception of a few localities in Southern Alberta, the rainfall was also remarkably heavy.

The Peninsula of Ontario and the Ottawa and Upper St. Lawrence Valleys, on the other hand, suffered from the lack of rain, the drought being severely felt in nearly all districts, the deficiency of rainfall varying from 50 to 75 per cent. In the western portion of the Province of Quebec the rainfall was also exceedingly light, but eastward it increased steadily.

In Ontario.

The weather in this province was exceedingly fine, there being little dull weather excepting during the first four or five days and on or about the 12th, 16th, 20th, and 28th, when showers occurred at many places. The weather was recorded at many places on or about the 2nd, 7th and 17th. Pastures and root crops were much affected by drought but the dry weather allowed the harvesting of grain crops in excellent condition. The following notes have been received from observers:

Port Arthur—Lakes high; all crops, excepting hay, fair.

Beatrice, Muskoka—Grain harvest well advanced but results poor.

Strathroy—This was the most trying August on vegetation for many years, growing crops and fruit being much affected.

Port Burwell—Corn not filling, it being too cool at night; tomatoes only half a crop.

Clinton—Grain crops all housed by 31st; barley cutting on 7th, oats on 13th; pastures dry and bare in most places.

London—Vegetation drying up owing to lack of rain.

Georgetown—Weather very dry; wheat, oats, barley and peas have turned out better than was expected, but corn and roots are suffering from drought.

West—Excellent hay crop and well sowed; wheat, oats, etc., a fair crop and harvested in good condition; roots and pastures suffering from long drought.

Gravenhurst—Crops fifty per cent deficient.

Elizabethtown—Harvesting complete, crops very light; little plowing done for fall wheat; land dry and pastures poor.

WELLMAN WANTS A WIND

May Pospione Attempt to Reach the Pole Until Next August.

New York, Sept. 8.—A special to the New York World from Paris says: In the Echo de Paris this morning, Mr. Robert Wellman, reporter for the London Standard, reports that he has interviewed Mr. Walter Wellman. He said the question whether or not the aeronaut will start for the pole will depend on the wind blowing strong from the north. The American explorer stated that unless there was a north wind by Sept. 16, his attempt would be abandoned for the year, for then the polar night commences.

"We cannot leave," added Mr. Wellman, "for a north wind would drive us south of the archipelago, and an east wind up to Greenland. I want to reach the pole, and not a cold suit."

If, therefore, Mr. Wellman does not find a wind favorable before Sept. 16, he will defer his attempt until next year to make his start.

UNFORTUNATE LOVE AFFAIR

Unable to Wed Woman of Royal Birth Tries to End Life.

Montreal, Sept. 8.—The condition of young De Bildt, the Swedish nobleman, whose sensational attempt at suicide in the Windsor Hotel a few weeks ago, aroused international interest, is said by his friends to show little prospect of permanent improvement.

It is known that the De Bildt family have been communicated with, but every possible effort is being made to prevent any further publicity in the matter. Baron De Bildt was at one time minister to the court of St. James, but is now said to be in Rome. No statement from De Bildt himself has yet been made public. His friends say that his melancholia and its subsequent suicidal developments was consequent upon an unfortunate love affair. Young De Bildt, the story runs, had set his affections on the daughter of a royal house and believed them to be returned.

Such a marriage, however, could not be arranged, and after much traveling, De Bildt collapsed in Montreal, and attempted to take his own life.

BILIOUSNESS BURDENS LIFE.

The bilious man is never a companionable man because his ailment renders him morose and gloomy. The complaint is not as dangerous as it is disreputable. Yet no one need suffer from it who can procure Parke's Vegetable Pills. By regulating the liver and obviating the effects of bile in the stomach, they remove men to cheerfulness.

JUST LIKE REAL PITTSBURGERS

Runyan a Smoky City Millionaire, Mrs. Carter's Impression.

New York, Sept. 8.—Indicative of the effect that the pranks or Pittsburgh millionaires have had upon the public mind was the assertion of Laura M. Carter, on the witness stand today, that when Runyan, the \$96,000 Windsor Trust Company defaulter, her a neat package of fifty \$100 bills she thought he was one of them.

She had never met a Pittsburgh millionaire, but she had heard of the way they shed money when at large in New York.

"I really thought he was a millionaire from Pittsburgh," she declared. "He passed out his money like a good thing."

The morning session of the trial of the woman on a charge of securing at least \$5,000 of Runyan's loot was devoted to her cross-examination at the hands of Assistant District Attorney Marshall. The assistant district attorney was very aggressive and very painstaking, but he failed to make much of an impression on the story the woman told in her direct testimony.

It is quite likely that when Commissioner Bingham returns to New York, his attention will be called to the missing \$10,000 bundle that has been so often mentioned in the course of the Carter woman's trial. Runyan says he gave the woman only \$15,000, and that there was \$4,500 in the stolen bank roll when he counted it, just before the police broke into his flat and arrested him.

When the money was counted at the station house it totaled up \$54,410. Laura Carter asserts that she did not get a cent of Runyan's stealings outside of about \$700 he gave her to fit up the flat and pay running expenses.

Runyan says he gave her \$15,000. He cannot account for the missing \$10,000. The policemen who made the arrest are certain that none of the money was lost while they were carrying it from the flat to the station house. Runyan admits that Laura Carter could not have taken that \$10,000, and swears he did not hide it.

Minute Details of Acts.

Mr. Marshall made Laura Carter go into the most minute details of the way she spent every minute of the time when she was with Runyan in the West One Hundred and Forty-fourth street flat.

He asked her what she did on Sunday, the day after Runyan walked out of the bank with \$80,000.

"I played solitaire all day and George read the papers," she replied. "I can't read very well."

"Did you consult with a lawyer before you betrayed Runyan to the police?" asked Mr. Marshall.

"I didn't consult with anybody but Harry Kirkstein," answered the witness, and he told me to suit myself."

During the afternoon session, which was so tedious that the witness finally begged that she be excused because she was so tired that she could scarcely sit in the chair, Mr. Marshall brought out one important fact. The woman admitted that on July 5, after she drew the \$5,000 out of the Garfield deposit vaults, she showed the money to Harry Kirkstein.

Contradicts Himself.

She had previously denied that she saw Kirkstein after she got the money from the safe deposit vault. The admission is important in that it establishes a medium through which the \$5,000 might have escaped prior to Runyan's arrest.

"Did you get a \$1,000 bill changed at the Garfield National Bank on July 5?" asked Mr. Marshall.

"Who, me?" echoed the witness. "Where would I get a \$1,000 bill?"

"The heat and close air of the court room was too much for the Carter woman, and at her own request the cross-examination was abridged. But she may be recalled later.

PIN HOPES ON LUSITANIA

New Cunard Liner Expected to Smash Atlantic Record.

Liverpool, Sept. 7.—The people of this city are anxiously today concentrated their attention on what was considered to be an epoch-making event, the departure of the Cunard Line steamer Lusitania, the latest of the Atlantic liners, on her maiden voyage to New York. Additional interest was given to the event in that the Lusitania leaves port at 4.30 this afternoon, about two and a half hours earlier than the Lusitania, making possible a trial of speed across the Atlantic between the former, the swiftest ocean steamer with reciprocating engines flying the British flag, and the latter, the largest turbine steamer. Both vessels will call at Queenstown tomorrow morning, but the Lusitania will not enter until the latest of the Atlantic liners, on her maiden voyage to New York. Additional interest was given to the event in that the Lusitania leaves port at 4.30 this afternoon, about two and a half hours earlier than the Lusitania, making possible a trial of speed across the Atlantic between the former, the swiftest ocean steamer with reciprocating engines flying the British flag, and the latter, the largest turbine steamer. Both vessels will call at Queenstown tomorrow morning, but the Lusitania will not enter until the latest of the Atlantic liners, on her maiden voyage to New York.

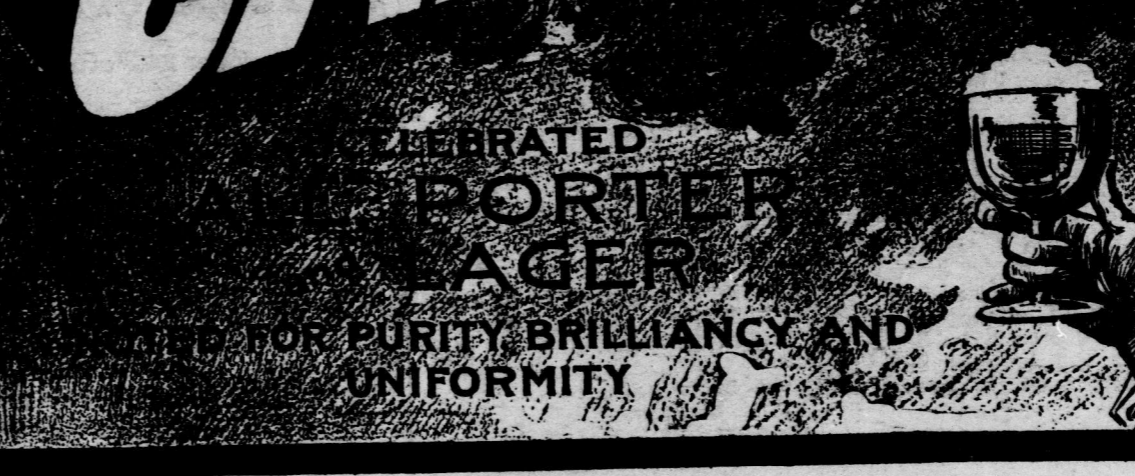

FOUND \$5,000 AT DEPOT.

Hamilton, Sept. 8.—When James McPhail was at the T. E. and B. depot last night he picked up a wallet which he was surprised to discover contained \$5,000. When the New York train arrived he went through it, calling out the name of the owner of the wallet, which was inscribed on the inside. The owner was Joseph Warner, a young New Yorker, who had been here on his wedding tour. He was not aware that he had lost the money until he heard Mr. McPhail inquiring about him. He cannot understand how he came to leave the wallet on the seat. The only reward the finder got was a "thanks, so much" from the charming bride.

CARLINGS

PORTER LAGER

FOR PURITY BRILLIANCY AND UNIFORMITY

AFRICAN NATIVES BEG PROFESSOR KOCH'S AID

German Physician's Great Success in Treating "Sleeping Sickness."

Berlin, Sept. 8.—An account of some of the recent experiences of Professor Koch in Central Africa, where his prolonged inquiry into the causes of and cure for "sleeping sickness" is nearing an end, has reached a medical friend of the professor in this city. About eighteen months have elapsed since Koch left Germany on his present mission. The letter received here is dated from Sese, near Entebbe, Uganda, July 6, and relates how native messengers from the Sultanate of Kibira, situated some two hundred miles southward, in German territory, had been imploring the "Great White Wizard" to come and cure their dying relatives.

The professor, accompanied by Drs. Kudleke and Feldman, traveled in native boats to Bukoba and thence went by caravan, inland, to the great village of Kigaranza, consisting of about 1,000 huts.

The German physicians were joyfully received by the natives and huts were erected for the party, an extraordinary large one, as big as the Sultan's house, being built for the microscope work of Professor Koch and his assistants, who had impressed on the natives that it was necessary that suitable quarters be assigned to them for their work.

Within a few days 200 sufferers were brought to the hospital inclosure and injected with atoxyl, according to Koch's method, and the usual excellent results followed. In all, the professor and his assistants treated about 400 natives.

AUTO 24-HOUR RACE.

New York, Sept. 7.—Seven racing automobiles whirled around the circular track at Morris Park today in a 24-hour auto speed contest. Nine autos were started in the contest last night, but during the night two of the machines broke down. One of the machines exploded while being filled with gasoline, and two men were slightly injured.

The lowest birth rate is possessed by France, the births only averaging 21 per 1,000 of the population, and when the fact that its death rate is as high as 19.6 per 1,000 is considered the small increase in the total population shown above is explained.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so slow that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. F. Fox, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Sixteen months ago my periods stopped. My body was so full of pain that I was unable to do anything but lie in bed. I was so weak that I could not get up. I had been advised by many doctors to have an operation, but I was so afraid of that I did not. I had heard of your medicine and I bought a bottle. I took it and in a few days I felt better. I took another bottle and in a few days I was able to get up. I took a third bottle and in a few days I was able to do my work. I took a fourth bottle and in a few days I was able to go out. I took a fifth bottle and in a few days I was able to go to church. I took a sixth bottle and in a few days I was able to go to school. I took a seventh bottle and in a few days I was able to go to work. I took an eighth bottle and in a few days I was able to go to the city. I took a ninth bottle and in a few days I was able to go to the country. I took a tenth bottle and in a few days I was able to go to the world. I took an eleventh bottle and in a few days I was able to go to the sky. I took a twelfth bottle and in a few days I was able to go to the stars. I took a thirteenth bottle and in a few days I was able to go to the moon. I took a fourteenth bottle and in a few days I was able to go to the sun. I took a fifteenth bottle and in a few days I was able to go to the earth. I took a sixteenth bottle and in a few days I was able to go to the water. I took a seventeenth bottle and in a few days I was able to go to the air. I took an eighteenth bottle and in a few days I was able to go to the fire. I took a nineteenth bottle and in a few days I was able to go to the earth. I took a twentieth bottle and in a few days I was able to go to the sky. I took a twenty-first bottle and in a few days I was able to go to the stars. I took a twenty-second bottle and in a few days I was able to go to the moon. I took a twenty-third bottle and in a few days I was able to go to the sun. I took a twenty-fourth bottle and in a few days I was able to go to the earth. I took a twenty-fifth bottle and in a few days I was able to go to the water. I took a twenty-sixth bottle and in a few days I was able to go to the air. I took a twenty-seventh bottle and in a few days I was able to go to the fire. I took a twenty-eighth bottle and in a few days I was able to go to the earth. I took a twenty-ninth bottle and in a few days I was able to go to the sky. I took a thirtieth bottle and in a few days I was able to go to the stars. I took a thirty-first bottle and in a few days I was able to go to the moon. I took a thirty-second bottle and in a few days I was able to go to the sun. I took a thirty-third bottle and in a few days I was able to go to the earth. I took a thirty-fourth bottle and in a few days I was able to go to the water. I took a thirty-fifth bottle and in a few days I was able to go to the air. I took a thirty-sixth bottle and in a few days I was able to go to the fire. I took a thirty-seventh bottle and in a few days I was able to go to the earth. I took a thirty-eighth bottle and in a few days I was able to go to the sky. I took a thirty-ninth bottle and in a few days I was able to go to the stars. I took a fortieth bottle and in a few days I was able to go to the moon. I took a forty-first bottle and in a few days I was able to go to the sun. I took a forty-second bottle and in a few days I was able to go to the earth. I took a forty-third bottle and in a few days I was able to go to the water. I took a forty-fourth bottle and in a few days I was able to go to the air. I took a forty-fifth bottle and in a few days I was able to go to the fire. I took a forty-sixth bottle and in a few days I was able to go to the earth. I took a forty-seventh bottle and in a few days I was able to go to the sky. I took a forty-eighth bottle and in a few days I was able to go to the stars. I took a forty-ninth bottle and in a few days I was able to go to the moon. I took a fiftieth bottle and in a few days I was able to go to the sun. I took a fifty-first bottle and in a few days I was able to go to the earth. I took a fifty-second bottle and in a few days I was able to go to the water. I took a fifty-third bottle and in a few days I was able to go to the air. I took a fifty-fourth bottle and in a few days I was able to go to the fire. I took a fifty-fifth bottle and in a few days I was able to go to the earth. I took a fifty-sixth bottle and in a few days I was able to go to the sky. I took a fifty-seventh bottle and in a few days I was able to go to the stars. I took a fifty-eighth bottle and in a few days I was able to go to the moon. I took a fifty-ninth bottle and in a few days I was able to go to the sun. I took a sixtieth bottle and in a few days I was able to go to the earth. I took a sixty-first bottle and in a few days I was able to go to the water. I took a sixty-second bottle and in a few days I was able to go to the air. I took a sixty-third bottle and in a few days I was able to go to the fire. I took a sixty-fourth bottle and in a few days I was able to go to the earth. I took a sixty-fifth bottle and in a few days I was able to go to the sky. I took a sixty-sixth bottle and in a few days I was able to go to the stars. I took a sixty-seventh bottle and in a few days I was able to go to the moon. I took a sixty-eighth bottle and in a few days I was able to go to the sun. I took a sixty-ninth bottle and in a few days I was able to go to the earth. I took a seventieth bottle and in a few days I was able to go to the water. I took a seventy-first bottle and in a few days I was able to go to the air. I took a seventy-second bottle and in a few days I was able to go to the fire. I took a seventy-third bottle and in a few days I was able to go to the earth. I took a seventy-fourth bottle and in a few days I was able to go to the sky. I took a seventy-fifth bottle and in a few days I was able to go to the stars. I took a seventy-sixth bottle and in a few days I was able to go to the moon. I took a seventy-seventh bottle and in a few days I was able to go to the sun. I took a seventy-eighth bottle and in a few days I was able to go to the earth. I took a seventy-ninth bottle and in a few days I was able to go to the water. I took an eightieth bottle and in a few days I was able to go to the air. I took an eighty-first bottle and in a few days I was able to go to the fire. I took an eighty-second bottle and in a few days I was able to go to the earth. I took an eighty-third bottle and in a few days I was able to go to the sky. I took an eighty-fourth bottle and in a few days I was able to go to the stars. I took an eighty-fifth bottle and in a few days I was able to go to the moon. I took an eighty-sixth bottle and in a few days I was able to go to the sun. I took an eighty-seventh bottle and in a few days I was able to go to the earth. I took an eighty-eighth bottle and in a few days I was able to go to the water. I took an eighty-ninth bottle and in a few days I was able to go to the air. I took a ninetieth bottle and in a few days I was able to go to the fire. I took a ninety-first bottle and in a few days I was able to go to the earth. I took a ninety-second bottle and in a few days I was able to go to the sky. I took a ninety-third bottle and in a few days I was able to go to the stars. I took a ninety-fourth bottle and in a few days I was able to go to the moon. I took a ninety-fifth bottle and in a few days I was able to go to the sun. I took a ninety-sixth bottle and in a few days I was able to go to the earth. I took a ninety-seventh bottle and in a few days I was able to go to the water. I took a ninety-eighth bottle and in a few days I was able to go to the air. I took a ninety-ninth bottle and in a few days I was able to go to the fire. I took a hundredth bottle and in a few days I was able to go to the earth. I took a hundred and first bottle and in a few days I was able to go to the sky. I took a hundred and second bottle and in a few days I was able to go to the stars. I took a hundred and third bottle and in a few days I was able to go to the moon. I took a hundred and fourth bottle and in a few days I was able to go to the sun. I took a hundred and fifth bottle and in a few days I was able to go to the earth. I took a hundred and sixth bottle and in a few days I was able to go to the water. I took a hundred and seventh bottle and in a few days I was able to go to the air. I took a hundred and eighth bottle and in a few days I was able to go to the fire. I took a hundred and ninth bottle and in a few days I was able to go to the earth. I took a hundred and tenth bottle and in a few days I was able to go to the sky. I took a hundred and eleventh bottle and in a few days I was able to go to the stars. I took a hundred and twelfth bottle and in a few days I was able to go to the moon. I took a hundred and thirteenth bottle and in a few days I was able to go to the sun. I took a hundred and fourteenth bottle and in a few days I was able to go to the earth. I took a hundred and fifteenth bottle and in a few days I was able to go to the water. I took a hundred and sixteenth bottle and in a few days I was able to go to the air. I took a hundred and seventeenth bottle and in a few days I was able to go to the fire. I took a hundred and eighteenth bottle and in a few days I was able to go to the earth. I took a hundred and nineteenth bottle and in a few days I was able to go to the sky. I took a hundred and twentieth bottle and in a few days I was able to go to the stars. I took a hundred and twenty-first bottle and in a few days I was able to go to the moon. I took a hundred and twenty-second bottle and in a few days I was able to go to the sun. I took a hundred and twenty-third bottle and in a few days I was able to go to the earth. I took a hundred and twenty-fourth bottle and in a few days I was able to go to the water. I took a hundred and twenty-fifth bottle and in a few days I was able to go to the air. I took a hundred and twenty-sixth bottle and in a few days I was able to go to the fire. I took a hundred and twenty-seventh bottle and in a few days I was able to go to the earth. I took a hundred and twenty-eighth bottle and in a few days I was able to go to the sky. I took a hundred and twenty-ninth bottle and in a few days I was able to go to the stars. I took a hundred and thirtieth bottle and in a few days I was able to go to the moon. I took a hundred and thirty-first bottle and in a few days I was able to go to the sun. I took a hundred and thirty-second bottle and in a few days I was able to go to the earth. I took a hundred and thirty-third bottle and in a few days I was able to go to the water. I took a hundred and thirty-fourth bottle and in a few days I was able to go to the air. I took a hundred and thirty-fifth bottle and in a few days I was able to go to the fire. I took a hundred and thirty-sixth bottle and in a few days I was able to go to the earth. I took a hundred and thirty-seventh bottle and in a few days I was able to go to the sky. I took a hundred and thirty-eighth bottle and in a few days I was able to go to the stars. I took a hundred and thirty-ninth bottle and in a few days I was able to go to the moon. I took a hundred and fortieth bottle and in a few days I was able to go to the sun. I took a hundred and forty-first bottle and in a few days I was able to go to the earth. I took a hundred and forty-second bottle and in a few days I was able to go to the water. I took a hundred and forty-third bottle and in a few days I was able to go to the air. I took a hundred and forty-fourth bottle and in a few days I was able to go to the fire. I took a hundred and forty-fifth bottle and in a few days I was able to go to the earth. I took a hundred and forty-sixth bottle and in a few days I was able to go to the sky. I took a hundred and forty-seventh bottle and in a few days I was able to go to the stars. I took a hundred and forty-eighth bottle and in a few days I was able to go to the moon. I took a hundred and forty-ninth bottle and in a few days I was able to go to the sun. I took a hundred and fiftieth bottle and in a few days I was able to go to the earth. I took a hundred and fifty-first bottle and in a few days I was able to go to the water. I took a hundred and fifty-second bottle and in a few days I was able to go to the air. I took a hundred and fifty-third bottle and in a few days I was able to go to the fire. I took a hundred and fifty-fourth bottle and in a few days I was able to go to the earth. I took a hundred and fifty-fifth bottle and in a few days I was able to go to the sky. I took a hundred and fifty-sixth bottle and in a few days I was able to go to the stars. I took a hundred and fifty-seventh bottle and in a few days I was able to go to the moon. I took a hundred and fifty-eighth bottle and in a few days I was able to go to the sun. I took a hundred and fifty-ninth bottle and in a few days I was able to go to the earth. I took a hundred and sixtieth bottle and in a few days I was able to go to the water. I took a hundred and sixty-first bottle and in a few days I was able to go to the air. I took a hundred and sixty-second bottle and in a few days I was able to go to the fire. I took a hundred and sixty-third bottle and in a few days I was able to go to the earth. I took a hundred and sixty-fourth bottle and in a few days I was able to go to the sky. I took a hundred and sixty-fifth bottle and in a few days I was able to go to the stars. I took a hundred and sixty-sixth bottle and in a few days I was able to go to the moon. I took a hundred and sixty-seventh bottle and in a few days I was able to go to the sun. I took a hundred and sixty-eighth bottle and in a few days I was able to go to the earth. I took a hundred and sixty-ninth bottle and in a few days I was able to go to the water. I took a hundred and seventieth bottle and in a few days I was able to go to the air. I took a hundred and seventy-first bottle and in a few days I was able to go to the fire. I took a hundred and seventy-second bottle and in a few days I was able to go to the earth. I took a hundred and seventy-third bottle and in a few days I was able to go to the sky. I took a hundred and seventy-fourth bottle and in a few days I was able to go to the stars. I took a hundred and seventy-fifth bottle and in a few days I was able to go to the moon. I took a hundred and seventy-sixth bottle and in a few days I was able to go to the sun. I took a hundred and seventy-seventh bottle and in a few days I was able to go to the earth. I took a hundred and seventy-eighth bottle and in a few days I was able to go to the water. I took a hundred and seventy-ninth bottle and in a few days I was able to go to the air. I took a hundred and eightieth bottle and in a few days I was able to go to the fire. I took a hundred and eighty-first bottle and in a few days I was able to go to the earth. I took a hundred and eighty-second bottle and in a few days I was able to go to the sky. I took a hundred and eighty-third bottle and in a few days I was able to go to the stars. I took a hundred and eighty-fourth bottle and in a few days I was able to go to the moon. I took a hundred and eighty-fifth bottle and in a few days I was able to go to the sun. I took a hundred and eighty-sixth bottle and in a few days I was able to go to the earth. I took a hundred and eighty-seventh bottle and in a few days I was able to go to the water. I took a hundred and eighty-eighth bottle and in a few days I was able to go to the air. I took a hundred and eighty-ninth bottle and in a few days I was able to go to the fire. I took a hundred and ninetieth bottle and in a few days I was able to go to the earth. I took a hundred and ninety-first bottle and in a few days I was able to go to the sky. I took a hundred and ninety-second bottle and in a few days I was able to go to the stars. I took a hundred and ninety-third bottle and in a few days I was able to go to the moon. I took a hundred and ninety-fourth bottle and in a few days I was able to go to the sun. I took a hundred and ninety-fifth bottle and in a few days I was able to go to the earth. I took a hundred and ninety-sixth bottle and in a few days I was able to go to the water. I took a hundred and ninety-seventh bottle and in a few days I was able to go to the air. I took a hundred and ninety-eighth bottle and in a few days I was able to go to the fire. I took a hundred and ninety-ninth bottle and in a few days I was able to go to the earth. I took a two hundredth bottle and in a few days I was able to go to the sky. I took a two hundred and first bottle and in a few days I was able to go to the stars. I took a two hundred and second bottle and in a few days I was able to go to the moon. I took a two hundred and third bottle and in a few days I was able to go to the sun. I took a two hundred and fourth bottle and in a few days I was able to go to the earth. I took a two hundred and fifth bottle and in a few days I was able to go to the water. I took a two hundred and sixth bottle and in a few days I was able to go to the air. I took a two hundred and seventh bottle and in a few days I was able to go to the fire. I took a two hundred and eighth bottle and in a few days I was able to go to the earth. I took a two hundred and ninth bottle and in a few days I was able to go to the sky. I took a two hundred and tenth bottle and in a few days I was able to go to the stars. I took a two hundred and eleventh bottle and in a few days I was able to go to the moon. I took a two hundred and twelfth bottle and in a few days I was able to go to the sun. I took a two hundred and thirteenth bottle and in a few days I was able to go to the earth. I took a two hundred and fourteenth bottle and in a few days I was able to go to the water. I took a two hundred and fifteenth bottle and in a few days I was able to go to the air. I took a two hundred and sixteenth bottle and in a few
