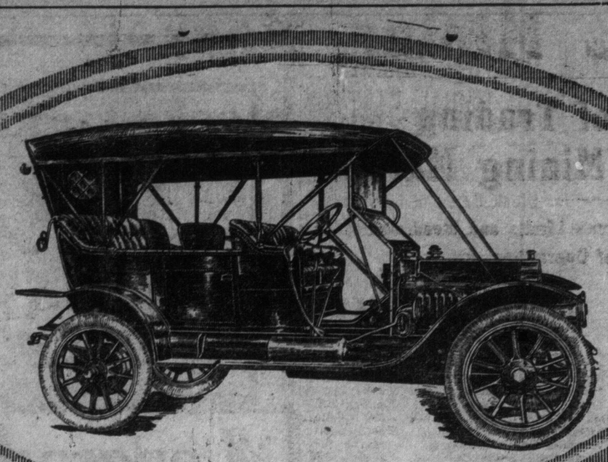
7-Passenger
TOURING CAR

PRICE
$3,600
F.O.B. FACTORY



# You Don't Have To Be An Expert On Automobiles To Understand That This Is The Biggest Value Offered at the Price

THE evidence of this car's superiority is so plain that even the inexperienced can readily see it.

And expert judgment will only confirm the opinion passed by the tyro at first glance.

When you are about to purchase, then, bring an expert with you—

And let him explain, point by point, **why** this should be your choice.

We'll explain its fine points gladly—any agent of ours will do the same, if you'll only visit the nearest McLaughlin-Buick garage.

But, then, you may think our enthusiasm on behalf of this car springs from our desire to make a sale.

Not a bit of it—we can sell more of this model this year than our factory can produce.

But, if you don't believe us, bring along your experts.

They will tell you—if they're honest about it—that its equal, at the price, has yet to be made.

**We respectfully invite you to visit our splendid display at the Toronto Motor Show.**

**You cannot know the McLaughlin-Buick product from one model—you must take into consideration the full line, which comprises every type of car known to motordom—from the shaft-driven Runabout to the big six-cylinder Touring cars and Limousines; all with magneto ignition. If interested, write for catalogue.**
**We are sole Canadian Agents for Welch Cars and Reliance Motor Trucks.**

**McLAUGHLIN MOTOR CAR COMPANY, LTD.**

**Toronto Salesroom—Cor. Church and Richmond Streets**

## BUYERS THRONG SHOW MANY SALES CLOSED

### Prospective Purchasers Gather About Stripped Chassis—Attractive Exhibits.

Business was the watchword of the show yesterday. There was a large crowd in attendance all day long, and many sales were closed. A lot of out-of-town buyers purchased their cars. Everybody seems to want early delivery, and it will keep some of the automobile firms on the jump to supply the demand. As each day passes the salesmen at the show are more and more impressed by the fact that the people who are out to buy cars know a good deal about them. Wherever there is a stripped chassis, there is always a crowd. A prospective purchaser is not content to look only at the outside of the machine. He wants to know all about the motor, transmission and running gear, and when he buys he usually knows what he is getting.

The Pennsylvania 75 h.p. six-cylinder, with the toy tonneau body, which arrived yesterday, is attracting a great deal of favorable comment. The toy tonneau body has become very popular in the States among sportsmen and business men, who wish to get about quickly. It affords the maximum amount of comfort with a minimum amount of weight and wind resistance. The Pennsylvania six is a fine example of this type of car. The lines are beautiful, the engine very powerful and the whole machine is thoroly reliable. There are also several handsome models of the Pennsylvania four-cylinder cars. The Toronto agency for this machine will be held by the Motors, Limited, of which Mr. W. Midgley Campbell is manager.

Twelve McLaughlins were sold before 3 o'clock yesterday. The demand for this popular car is immense. An interesting sale was that of five model seventeens to five gentlemen who are all friends.

The Canadian-made cars are doing very well. One of the most popular of these is the Regal. Several handsome models of this car are shown, and its general attractiveness to those who appreciate a good automobile, coupled with the reasonable price at which it is sold, should make it one of the best representative cars in Canada this year.

The litttle Brush runabout is proving a great drawing card. This kind of car is equally useful to the man who has already several high power machines or to anyone who only wishes to operate one small car.

## TRUCKS FOR THE WEST

### Suggestion for Makers of Motor Vehicles.

An interesting visitor at the show was A. M. Mullett, a farmer, all the way from Narrow Lake, Sask. Mr. Mullett made an important suggestion for manufacturers of motor trucks. He is anxious that these manufacturers should build a motor truck specially for the purpose of carrying wheat from the farm to the railroads after harvest. It should be a special type of vehicle, with capacity of about 200 bushels of wheat, constructed so as to tilt up when unloading. Mr. Mullett says that horses cost $200 each in the west and all the horses available are very much needed at harvest time for other work. He made the statement that many thousands of farmers in the west could afford to buy motor trucks, and it would tend largely to solve the problem of transportation of the wheat at the critical time in the west.

AUTO SHOW N..N....N.....

### Visitors at the Auto Show.

Visiors from out of town started to arrive at the auto show early in the morning and continued to pour in all day. Among those noticed were: John A. McHardy, Guelph; William Gray, Chatham; L. D. Robertson, Montreal; W. L. Doran, Niagara Falls; F. B. Black, Sackville, N. B.; C. W. Fawcett, New Brunswick; H. G. Ketchum, Ottawa; E. B. Greenshields, Montreal; Geo. Lang, Berlin; H. R. Tudhope, Orillia; Andrew Newlands, Galt.

William Metz, head of the Everitt-Metz Co., Detroit, a prominent manufacturer, is at the show.

## "BOIL THE WATER" ONLY WAY TO CHECK TYPHOID

### Mayor Consults Dr. Sheard, But No Other Relief is Suggested.

"Boil the water."

This simple and rather familiar admonition was Mayor Geary's advice to the citizens, following a conference with Medical Health Officer Sheard yesterday afternoon.

The mayor explained that he called Dr. Sheard to his office in the hope of devising some method of immediate relief from the seriousness of the typhoid situation. Dr. Sheard could suggest none beyond his oft-repeated injunction, with the remark that five minutes' boiling would effect complete sterilization.

"Dr. Sheard said that the water so far as coli communi per centimetre is concerned, is not above the average, but that the prevalence of typhoid indicates that it is more charged with intestinal bacilli than usual," added the mayor.

The city engineer will be instructed to make a thoro examination of the nature of the lake bed in the vicinity of the intake pipe with a view to determining whether any good could be accomplished by extending the intake. Nothing can, however, be done until spring.

**Little Pruning Here.**

The board of control dealt with the fire department and lighting estimates yesterday. The former, amounting to $398,079, were passed without reduction, but about $3000 was taken off the $159,019 asked for lighting parks and streets.

The court of revision yesterday heard the objections of several property owners against the plan of assessment for the extension of Abbott-avenue to Willoughby-avenue. The street starts at Dundas-street and continues to a dead end. The estimated cost of extension is $2050, or at the rate of $1.80 per foot on the assessable property. The objectors think the levy should be spread over a wider area, and the court will look over the ground and further consider the matter on March 22.

Several ratepayers who had signed a petition of a bitulithic pavement on Fenwick-avenue, from Danforth-avenue to a point 640 feet south, explained that they had done so under a misunderstanding. They were told that they would have to go to the county judge.

**Roast for City.**

That the dilatoriness of the city in completing any transaction has become a public scandal, was the assertion made by W. H. Lockhart Gordon, K.C., who appeared for William Ward, lessee of island property, to ask that the city stay collection of rent from Mr. Ward under his new lease.

The Ward litigation is an old story, the main facts being that Mr. Ward payed the city for years a rental of $5 per annum, and that a board of arbitrators decided he should pay $396 a year, dating back to 1902. Last year's council was divided on the question whether the new lease should date back to 1902 or 1905, there being some feeling that the city was responsible for three years' delay in drawing up the new agreement.

Controller Church said he had been informed that all the city's arbitration work was being held back for lack of a corporation counsel, and the assessment commissioner will report privately to the board on the subject.

**Off to Pasteur Institute.**

The city will bear the expense of sending Sydney Glenister of 75 Waverley-road, and his two-year-old boy, both in danger of rabies, to the Pasteur Institute, New York.

Mr. Glenister, who lost an arm in the South African war, told the board he had no money, he having been unemployed since last October. He explained that he had tried to muzzle a pet dog, that the animal had been irritated and had bitten himself and child.

Altho Dr. Sheard warned that similar applications would follow, the board agreed that the city should foot the bill.

Manager Fleming of the street railway has written the city engineer, repeating his offer to extend the car line over Glen-road bridge to Rosedale athletic field, if the city will guarantee the safety of the bridge, and will cooperate in the work on the usual terms. Mr. Fleming asserts that the extension would have been made years ago but for difficulties with the city.

Mica instead of glass to be used in the fronts of fire alarm boxes: this is the suggestion of W. E. Ferry, 193 Teraulay-street, in a letter to the mayor. Mr. Ferry points to an instance where cut fingers resulted from turning in an alarm.

**Canada is Well Advertised.**

LONDON, March 1. — (C. A. P.)— Sir G. Reid, Australia's new high commissioner, interviewed here, said there was only one reason why Canada was so far ahead of Australia in immigration, namely, advertisement.

"We hope to change all that," he said, "tho we hope, too, there never will be any unfriendly rivalry."

**Three Perish in Fire.**

SCHENECTADY, N. Y., March 1.— The Railroad Y.M.C.A. building at Rotterdam Junction, belonging to the Boston & Maine Railroad, was totally destroyed by fire at an early hour this morning and three men perished in the flames. The bodies have not yet been recovered.

## *Had Given Up All Hope of Living.*

**Heart Trouble Cured by Milburn's Heart and Nerve Pills.**

Mrs. Andrew Savoy, Grattan's, N.B., writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law.

"One day a friend came to see me, and calling me by name, said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have not been sick since then.

"I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would not have been alive now."

Price, 50 cents per box, 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
