LAST DAY OF WILLIAMS' GREAT ANNUAL SALE OF PIANOS AND PLAYERS

Twenty-eight Nearly New Pianos and Player-Pianos Offered for Last Day at Even Greater Reduction

LOW PRICES AND EASY TERMS THE BIG FACTOR

With the close of business today, Wednesday, Toronto's greatest annual plane event, the Williams Annual Fall Sale of Pianos, will come to an end, and with it will pass one of the finest opportunities Toronto families have had for securing nearly-new instruments at but a fraction of their actual value and on terms that make the purchase very simple and convenient. It is a stirrir gtribute to the growing love of music ir. Toronto themes, that this sale, with the probable amount of business done today, will exceed, both in number of sales and volume, any previous similar event in the company's history.

The manager of the Williams piano department stated that Tuesday night they were only four sales behind the record-year of 1913, and with today's results it was a foregone conclusion that that record would be shattered.

As d the reason for it is not difficult to find. The Williams Company, made this event memorable with exceptionally low prices and easy terms. This made it possible for almost every family so desiring, to add music to their home life-to increase the joy and pleasure to themselves and their friends, thru the great influence of a plano or a player plano.

To absolutely insure this sale being a big success on the last day, the Williams Sompromy, last opportunity to secure one of these greater of all forms of planoforte.

Linden against Frank Leusnner, in the non-jury assizes, for an order setting aside an assignment made to him of their interest in some lots on Danforth avenue, was dismissed without costs. The defendant arranged the exchange of property on Broadview avenue, owned by Elizabeth H. Linden, for lands near Montreal behind the mountain, and it was alleged that the assignment was made to obtain his commission. The plaintiffs stated that \$5000 commission was paid by the owner of the land in Montreal, and that this payment was concealed from them. The defendant stated that he was acting for both parties, and the Lindens knew that he was getting commission from the Montreal owner. He further stated that the assignment to obtain his commission and money he advanced to satisfy a judgment that had been obtained against them. The case was tried by Justice Latchford. The counterclaim of the defendant for \$2,000 damages for the plaintiffs failure to carry out his contract was also dismissed. The appellate division dismissed the appeal of the executrix of the estate of the late Agnes Huffman, of Colchester South, from the decision of Justice Kelly, who held that her son, Wm. J. Huffman, had acquired his farm as a gift from his father, Albert Huffman, who died in 1912.

The mother died two years after the father, and her executrix entered action against William to recover arrears of dower and an annuity bequeathed under the father's will which were said to be a charge upon the farm. Some Citizens Say Dealers Holding for Larger Profits-No Early Advance.

Shortage in the supply of soft coal, lack of transportation and labor trouble were assigned as the causes by coal dealers yesterday for the delay in delivery of orders to Toronto apartment houses, the managers and owners of whom have raised complaints because of non-delivery of orders and inconvenience to which they are sub-

That the coal dealers are hoodwinking the people and holding up orders to obtain a bigger profit in view of expected advances in prices were the charges made by one wrathful and that other concerns with kurge apartment house manager yesterday.

He declared that the government should adopt a strict course of action, confiscate all coal bound to Toronto consumers, and sell to them direct at as reasonable prices as possible. He said that not only in coal but in other necessities of life, including food, government action is required to pre-

apartments because of the fluctuating price in order to demand a bigger price for the commodity.

A representative of the P. Burns Coal Co., stated that shortage of labor is the cause of the delay, and that that firm are ready notwithstanding the situation in the coal fields to fill all orders placed with them. Like statements were made by other coal dealers who declare that they too were prepared to handle with all reasonable dispatch any orders given by Toronto consumers.

reasonable dispatch any orders given by Toronto consumers.

No Early Advance.

Most of the soft coal used in Toronto (and most of the apartment houses use soft coal) comes from the coal mines of Pennsylvania.

Contracts with apartment house managers was considered inadvisable in view of the situation that exists down there and the likelihood that coal prices will not remain long at one standard.

Were governed wholly by the supply and demand of labor.

Similar statements were made at the T. Eaton Co.; Gunns, Limited, and other firms. A representative of the T. Eaton Co. said that it was costing more to do business during this sentence of the situation.

Further Explanation.

Mr. Ross gave a further explanation of his st ggestion vesterday, 22y-

ROAD CONSTRUCTION **BELOW ESTIMATES**

Price of Labor Has Discouraged County Councils.

MAINTENANCE COSTLY

tenance this year has been above the estimates. This was due to the peculiarly bard nature of the year upon the roads; ir the spring and early summer the excessive moisture was very hard on the foundations, and thruout July, August and September, the extreme dryness was equally hard on the surface of the roads, particularly those which carried heavy motor treffe.

Under the Highway Improvement Act the government pays 40 per cent, of the cost of construction and 2) per cent, of the cost of maintenance. This, cent, of the cost of maintenance. This, on the probable cost of expenditure for the year, would make the government's share about \$330,000. As the revenue from motor car licenses is about \$630,000, the surplus will about equal the expenditure on the Ham'lton-Toronto highway, for which the government is responsible, and which is not yet paid, and which was not included in the above estimates of expenditure.

It is therefore probable that the de-partment will show in its financial statement for the year, which ends with this month, that it has about pulled ever for this year.
