cite Demand at New York.

NEW YORK, Aug. 7.—The dulness of today's market exceeded any full seation of the year to date and approached the low records of the last half dozen years. Transactions for the five hours aggregated only 123,000 shares and of this amount 33 per cent, represented the first hour's business.

Numerous prominent stocks failed of quatation and representative issues registered few if any material changes. Such hitherto unimportant and dormant issues as International Paper common and preferred were smong the most active features at gains of 1 to 2 points. The only other feature of note was Consolidated Gas at an extreme gain of 14. Special favorities of recent months, including munitions and equipments, were spathetic, with speculative interests at lowest ebb.

lowest ebb.

News pertaining to market conditions was mostly encouraging, but failed to rouse the list from its torpor. Expectations of a speedy settlement of the local car strike were preceded by general firmness in tractions and the large sale of copper reported at or near 26 %c per pound had a hardening effect on the matel group. metal group.

Rails were completely unresponsive to the further gains shown in western tonnage and shortage of cars for crop mov-

nage and shortage of cars for crop moving purposes.

The only foreign feature was contained in the British trade report for July, imports to the United Kingdom increasing by a little more than \$5,000,000, while exports increased by almost \$60,000,000. The statement was without bearing upon the local market for foreign exchange, which ruled at last week's final quotations, except fraces, which were a trifle easier.

WHEAT DECLINES ON FREE SELLING

For Low Records, Yesterday's Fear of Government Crop Report Causes Two Point Drop.

EUROPE HOLDS BACK

International Paper Issues In- Markets Abroad Fail to Come Up to Chicago Levels.

CHICAGO, Aug. 7.—Selling by holders who feared that the government crop report toniorrow would not make as bullish a showing as the trade had been led to believe, had much to do today with causing wtakness in the wheat market. Prices, altho unsettled at the close, were 1%c to 2c net lower, with September at \$1.35 and December at \$1.36%. Corn finished %c to 1c down, and oats off %c to 14c. In provisions, the outcome varied from 2½c down to a rise of 20c. Thruout the day, a disposition to be unusually conservative was apparent among the wheat bulls. The failure of European markets to respond to Saturday's closing strength on this side of the Atlantic brought about declines here at the outset and rotwithstanding that a rally ensued, weakness again developed and was not offset later, except to a limited degree. The transient recovery in the early dealings was the result of an early announcement that black rust had been found in every field near Moose Jaw, Sask., where a few days ago it was authoritaitvely denied that there was any evidence of the presence of the pest. On the other hand Liverpool despatches asserted that great damage by black rust in Canada was yet unconfirmed.

Liberal enlargement of the U. S. visible supply total emphasized the fact that exporters were inclined to slaw down on purchases temporarily and to await the issuance of the government crop figures at Washington. It seemed that a majority of dealers here felt very uncertain also as to whether bullish forecasts of the government report would be borne out, and that the safest course was to even up trade so as to prepare for a possible surprise.

Cloudy weather over Kansas with rains in parts of Illinois tended to weaken the corn market. At first, however, the Missouri monthly state crop had a bullish influence. In oats, the bears had an adventage owing to big receipts. The arrivals here today totaled 1146 carloads.

Provisions averaged higher with hogs. Demand, tho was light, and lard and ribs finished weak.

RAND COPPER SHIPMENTS.

The Rand Syndicate shipped 66 tons of copper ore last week from their mine at Timagami and a 40-ton was loaded on Friday for shipment on Saturday. Some additional stripping will be done near the lake and another pit opened. Mr. A. W. Jackson, manager, is back and a shaft will be started at once.—Cobalt Nugget.

WINNIPEG GRAIN MARKET.

WINNIPEG Aug. 7.—Wheat closed 1c lower for October, 1½c down for December, and 1½c lower for May. Oats were ½c up for October, and ½c up for December. Barley was ½c up. Flax dropped 3½c for October, 4½c for November, and 3½c for December.

The closing trade was very quiet, with prices rallying ½c from the lowest. Today's was the most nervous market of the season, in the early part. The feeling in the local pit was fairly strong, but heavy selling orders from the outside markets were against higher prices. The volume of trade was fair, and mainly professional.
