

Our Diamond Box

Is only 3 inches wide and 6 inches long, but its contents could purchase several rows of very desirable houses upon some very desirable streets in this city. Another illustration of the old hackneyed "Good things in small parcels."

If you are interested in DIAMONDS,

We would like to show you through our stock,—the largest and best of both mounted and loose stones in Canada.

Our Stock is all "Hand-Picked" by us personally from the Cutters in Amsterdam,—hence value.
