WHERE ALL MUST WORK

(Bangor Commercial)

The compulsory work law went into effect in Maryland on Monday, and hereafter every male between the ages of 18 and 30, who are not engaged in some form of work, or students preparing for the same, must go to work, unless they are in the very few exempted classes or unless their physical condition does not permit. A system of registration has been conducted and qualified men who do not obey the law will be subjected to imprisonment for six months, a fine of \$500 or both.

The fact that a man has sufficient income to support him does not exempt him from the workings of the law which is for the purpose of increasing production and of helping the labor supply which is very short in Maryland.

The experiment in Maryland will be watched with great interest and if it proves successful will undoubtedly be duplicated in other states. The Illinois

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time.

We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as Hay Fever or chronic Asthma, you should send for a free trial of our method. No matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, ointment preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write today and begin the method at once. Send no money. Simply mail coupon below. Do It Today.

FREE ASTHMA COUPON.
FRONTIER ASTHMA CO., Room 8758, Niagara and Hudson Sts., Buffalo, N. Y.

THE GROCERY MARKET

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week:

New prices on canned peas have been announced by the canners which will mean price on new pack to the retail trade will be \$1.70 a dozen for standard peas. The pack has been very disappointing as hot weather cut short the pack much sooner than was anticipated as late as two weeks ago. The consequence is that canners say they will be able to fill only forty per cent. of their orders. New prices on canned salmon have not yet been named, but it is anticipated they will be high. Authentic advices from the coast state that the run has not been over 75 per cent. of what it was in 1916, the year of the previous big run. Canners had stocked up with cans in preparation for the run and their stocks of containers will be larger than their needs. Labor difficulties have furthermore added to the

expense of packing. Only about 70 per cent. delivery of orders will be made on canned strawberries. Canned cherries on the other hand have been in good supply and 100 per cent. delivery will be made on these. Outlook for canned tomatoes is yet in doubt. Weather conditions have been favorable within recent weeks, but wet weather of spring gave the plants a big growth and this may militate against heavy production.

Sugar has been a commodity of more than usual interest during the week. Two refiners have been unable to make deliveries of granulated for some days past and the demand is keen on the part of wholesalers, indicating a good consumption. Prices have held firm at last week's advances in the face of a continued strong situation in Cuban raw sugars.

Advances have been recorded in meats of various kinds, butter, eggs, cornmeal, pickles, soap chips, cattle soap, soups, condensed milk, lobsters, peanut butter. There is a disposition to look for lower prices in corn products, due to a big slump in the price of corn in the United States. Flour held in steady market and the prices on millfeeds settled down somewhat during the week. Business in grocery lines shows some improvement.

AN AGE OF WEAK NERVES

"No heart for anything," is the cry of thousands of men and women who might be made well by the new, red blood Dr. Williams' Pink Pills actually made.

Misery day and night is the lot of hosts of men and women who are today the victims of weak nerves. Their pale, drawn faces and dejected attitude tell a sad tale for nervous weakness means being tortured by morbid thoughts and unaccountable fits of despondency. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken, their limbs tremble, appetite is poor and memory often fails. The nervous exhaustion is one of the most serious evils affecting men and women of today. The only way to bring back sound, vigorous health is to feed the starved nerves which are clamoring for new, rich, red blood. This new, good blood can be had through the use of Dr. Williams' Pink Pills, which fact accounts for the thousands of cures of nervous diseases brought about by this powerful blood builder and nerve restorer. Through the fair use of this medicine thousands of dependent people have been made bright, active and strong.

Dr. Williams' Pink Pills are sold by all dealers in medicine or may be had by mail at 60 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FOLLOWING THE FLAG.

Slang: Cocktails, Ice Cream, and Gum in the Procession.

The talk about the song, "Canning the Kaiser," which puzzled our British cousin, has brought out a number of other things besides our slang that "follow the flag." George Ade once had the cocktail "following the flag," but those were the old days. All that is changed now. Instead of the cocktail, it is the ice cream cone.

This American invention appeals strongly to the French taste. It would, perhaps, have made a path for itself in France without the flag, for the French Commissioners, when here, were loud in their praises of the invention, which was then unknown in any section of Gaul. Ice cream they knew well enough, but the idea that it could be tamed and eaten out of the hand in an edible receptacle was to them a new idea. They fell for it with enthusiasm.

The Frenchman likes to take his gustatory pleasures at a sidewalk table, where he can watch the world go by. But France has been speeded up since the Prussian attempted to overrun it. The Frenchman will find that he can go about his work and still enjoy the pleasures of the palate by use of the ice cream cone. It is an American idea and a good one. The cone will "follow the flag," too. —Minneapolis Journal.

DOMINION BOOSTERS

On the light "runabout" and on the massive Limousine, DOMINION TIRES are giving a service that is a pleasurable economy.

Whether you choose Dominion "NOBBY TREADS", or the less expensive Dominion "CHAIN TREADS", you get tires that have proved their worth by the road test—the smoother-riding test—the puncture-proof test—the more mileage test.

And after all, it's the road test, that proves the economy of any tire.

The chewing gum will "follow the flag," too. To be sure, the gum was there before the war, but merely as a curiosity. Had this war been fought in 1880, chewing tobacco would have "followed the flag" abroad. Today it is the gum that relieves the nervous strain of the American under somewhat unfamiliar conditions.

These are some of the things that will "follow the flag." And we are hoping that a better state of world affairs will follow it, too. —Minneapolis Journal.

what all of us want to know—how and when it will end. Thrones have toppled and kings have fled. A little Welsh lawyer has become the hope of Britain. The fate of millions hangs upon a thin, dark man in Russia whom nobody had heard of until day before yesterday. The only prophecy one can venture is this: The unexpected will happen.
