

## CAN MAIL LIQUOR - THROUGH OTTAWA

But it Must be a Non-Stop  
Trip from Montreal to  
Hull, Says Postmaster.

(Ottawa Journal.)  
Major A. Payette, postmaster of  
Hull, delivered a timely and in-  
structive address before the Rotary Club  
of Hull at yesterday's luncheon of the  
club during which he offered the sug-  
gestion that every person should do his  
Christmas mailing early to relieve the  
terrible congestion which prevails in the  
postal department at the Christmas sea-  
son.

"The Post Office Department is the  
most important branch of the Govern-  
ment today and it is the goal for much  
criticism," he declared. The staff at  
the Hull Post Office, he pointed out,  
started work at 6 a. m. each day and  
sometimes did not finish until 8 or 9  
p. m. Last Christmas, he had worked  
until 4 a. m. in order to have all pos-  
sible mail delivered on Christmas Day.  
Major Payette explained the new C. O.  
D. postal service and also described the  
insurance plan for parcel post, pointing  
out that parcels had to be packed ac-  
cording to official regulations.

### Mailing Liquor.

"The ordinary person cannot mail  
liquor in the Province of Quebec, but  
it can be mailed by the Quebec Liquor  
Commission when it is officially stamp-  
ed by the commission," was another in-  
teresting point which he brought out.  
"Liquor can be shipped through Ot-  
tawa, providing it is going from Mon-  
treal to Hull or from Montreal or Hull  
to Ville Marie and Amos, where the  
postal channel runs through the Ottawa  
post office," Major Payette explained  
that this matter had been taken up  
with the Ottawa office and that he had  
been requested to have such liquor en-  
closed in separate bags so that it would  
not be handled in the Ottawa post of-  
fice. Special delivery letters were de-  
livered from 7 a. m. to 11 p. m. in cit-  
ies where there is a local delivery, ex-  
cept on Sundays. No cartridges could  
be mailed and letters could not be en-  
closed in parcels. He advised all per-  
sons to place their names on all letters  
and parcels. It did not cost anything  
to do so and it insured the return of a  
letter in case of difficulties.

"The letter rate will never go back  
to two cents," declared Major Payette.  
A prominent visitor at yesterday's  
luncheon was H. Dupuis, former Major  
of Hull. Jack E. Evans was introduced

So genuinely good is its reputation  
in our Home Provinces here in the East, folks  
who like good Tea are wont to say: "We use  
RED ROSE TEA."

The fine quality of RED ROSE COFFEE  
will please particular people.

as a new member of the club. Ottawa  
members present included Messrs. W.  
H. Connor, Sid Smith, M. M. Pyke, W.  
H. McIntyre, F. P. Timmer, G. W.  
Green, H. F. Hardy and J. Clark Reilly.  
Messrs. Theo Lactot and Staff  
Green alternated at the piano for club  
songs. President Louis Bertrand occu-  
pied the chair.

The next weekly luncheon of the

club will probably be a ladies' luncheon,  
and the speaker is to be R. S. Peck, of  
the Ottawa Rotary Club.

### FIGHTS LOSING BATTLE WITH DESPERATE BANDIT

Windsor Woman Choked and Robbed  
by Unknown Negro.

Windsor, Nov. 21.—Battling desper-  
ately with a thick-set negro, whom  
she surprised at work on the silver  
cabinet in the dining room of her home  
at 2 o'clock this afternoon, Mrs. Annie  
Griesinger, wife of Captain William  
Griesinger of Indian Road, Sandwich,  
was choked and beaten by the negro,  
and forced to hand over the wedding  
ring and a \$1,000 diamond ring which  
she wore.

Her assailant fled, but tossed the  
wedding ring aside at the front door,  
where it was recovered by the police.  
Mrs. Griesinger was upstairs in her  
bedroom, dressing, when she heard a  
noise downstairs, and, going to investi-  
gate, discovered the negro in front of  
the silver cabinet.

### APOLOGIZES FOR ESCAPING FROM BRIDGEBURG PRISON

Bridgeburg, Nov. 21.—Provincial Of-  
ficer Frank Creacy of Bridgeburg today  
received an interesting but apologetic  
postal. It was from Earl Lonsberry,

former M. C. R. detective, who broke  
jail recently with a \$700 fine hanging  
over his head.

The postal card was written from  
Buffalo, and bade adieu to Officer  
Creacy. The escaped prisoner wrote  
that he regretted parting in such a  
hurry, but said that the circumstances  
must condone his offence.  
He is still at large.

## NARROW ESCAPE OF LAUNCH CREW

Belleville, Ont., Nov. 21.—Wrecked  
on a rock at McEllan's point on Lake  
Ontario, four miles from Colborne, the  
crew of the "Sonora" a motor cruiser  
owned by Jearle McQueen of this city,  
had to swim for their lives, hours be-  
fore dawn, and had a narrow escape  
from death by drowning by reason of  
the rough sea and dense fog. Capt. A.  
L. Wilson, George Keegan of Belleville,  
and James McGuinnis were the mem-  
bers of the crew. This is Keegan's  
second wreck in 18 months. He is one  
of the two survivors of the Oliver  
Hovatt, which was rammed and sunk  
in Lake Ontario early in the spring of  
1921.

The "Sonora" was returning empty  
from a United States port in a heavy  
fog. The crew had lost their bearings,  
and no danger was anticipated until the  
boat struck against a huge boulder, the  
craft being wedged between this rock  
and others about it.

Wilson, Keegan and McGuinnis  
jumped overboard and, although they  
could not see the shore, they took the  
chance, as the waves were dashing over  
the cabin of the cruiser. At great risk  
from being dashed against rocks they  
found footing on shore. One of the  
men, in jumping overboard, had picked  
up a waterproof tin box containing  
matches, and with these the shipwreck-  
ed trio started a fire of wood and leaves  
and wended their way to the shore.  
When dawn broke the three saw a farm  
house, where they were warmed and  
fed.

The "Sonora" is well known here,  
having carried light cargoes out of this  
port. Last word from the scene was  
that she would be a total wreck, being  
dashed to pieces on the rocks.

## New Beauty Came

A story that millions know

Millions of people have gained new beauty  
through a new teeth cleaning method. You see  
them everywhere. Their teeth now glisten, and  
they show them when they smile.  
If you don't know that method, make this test.

### Combats the film

It is film that makes teeth dingy—that viscous  
film you feel. It clings to teeth, enters crevices and  
stays. Food stains, etc., discolor it, then it forms  
cloudy coats. Tartar is based on film.

Film also holds food substance, which ferments  
and forms acids. It holds the acids in contact with  
the teeth to cause decay. Germs breed by millions  
in it. They, with tartar, are the chief cause of  
pyorrhea.

Thus most tooth troubles are now traced to film.  
Under old methods, very few escaped them. Beau-  
tiful teeth were less often seen than today.

### Old ways failed

No ordinary tooth paste effectively combats film.  
So much film remained to night and day threaten  
serious damage.

Made in Canada  
**Pepsodent**  
REG. IN CANADA  
The New-Day Dentifrice

A scientific film combatter which whitens, cleans and  
protects the teeth without the use of harmful grit.

But dental science has now found two ways to  
fight that film. One acts to curdle film, one to  
remove it, and without any harmful scouring.

Able authorities proved these methods effective.  
Then dentists everywhere began to advise their use.

A new-type tooth paste was created, based on  
modern research. The name is Pepsodent. These  
two great film combatters were embodied in it.

### Fights acid, too

Pepsodent brings other much-desired effects. It  
multiplies the alkalinity of the saliva. That is there  
to neutralize mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva.  
That is there to digest starch deposits on teeth  
before they ferment and form acids.

Those are Nature's great tooth-protecting agents.  
Each use of Pepsodent gives them manifold power.  
These combined effects mean a new era in dental  
hygiene. Careful people of some fifty nations now  
share it, largely by dental advice.

### You'll be amazed

The effects of Pepsodent are quick and apparent.  
They will amaze and delight you. A short test will  
convince you that this method is essential, both  
to you and yours.

Send the coupon for a 10-Day Tube. Note how  
clean the teeth feel after using. Mark the absence  
of the viscous film. See how teeth whiten as the  
film-coats disappear.  
Then judge by what you see and feel. Cut out  
the coupon now.

### 10-Day Tube Free

THE PEPSODENT COMPANY,  
Dept. D-427, 151 George St., Tor., Ont.  
Mail 10-day tube of Pepsodent to

Only one tube to a family.

## Buy Eggs by Grade

CANADIAN standard grades for eggs intended for the export  
market have been in force for four years. The system has  
proved to be a great success in establishing confidence in the  
quality of Canadian eggs abroad. It will have a similar effect in estab-  
lishing confidence in Canadian eggs at home.

The Government advocates standard grades for domestic con-  
sumption. Ask your grocer for graded eggs. To determine the quality  
of eggs, the dealer "candles" them, and puts them in the grade to which  
they belong. The Government has laid down specific definitions by  
which Canadian eggs are graded. In grading eggs, the following are  
the principal factors taken into consideration: Weight, size of air cell,  
firmness of white, and density of yolk.

### Four Grades of Eggs

1. **Specials** Eggs grading as "Spec-  
ials" are attractive in  
appearance when cooked alone or in  
combination with other foods, and give  
a delicious flavor to the prepared dish.  
These eggs are not found on the market  
at all seasons.

2. **Extras** Eggs grading as "Extras"  
are very satisfactory, giv-  
ing good results when cooked alone, or  
in combination with other foods. These  
eggs can always be obtained and should  
prove very popular as the housewife

can be sure of the results from this  
grade.

3. **Firsts** Good eggs, which may be  
scrambled, fried or used  
for any other cooking purpose, but not  
of the uniform quality of "specials"  
and "extras."

4. **Seconds** This grade consists of  
eggs which may be  
used for baking and dishes in which  
eggs are used in combination. This  
grade includes stale eggs and eggs with  
watery whites and heavy yolks.

When You Buy  
Eggs by Grade,  
You Know  
Exactly What  
You Are  
Paying for.
