babies throughout the world is shown in the latest figures issued by the registrar general.

During the third quarter of the year just ended, Christiania, the capital of Norway, was the healthiest city reported, the infantile death rate per 1,000 being only 38, while Amsterdam, Holland, had a rate of 42, Stockholm, Sweden, 47, and Copenhagen, Denmark, 48.

Compared with these, London's rate of 83 appears high, but Wigan, an important industrial town in Lancashire, has a rate of 125, and Berlin 146.

No town in Europe has such a record as Bombay, India, where, according to official figures 630 babies out of every 1,000 die before they reach the age of twelve months.

Like Champagne

Champagne loses its properties if allowed to stand after being poured. In the same way tea tastes best if taken immediately upon being poured from the pot.

Let Blue Bird infuse for around five minutes in a warmed earthen pot, using water that has just come to its first boil, drink it as soon as poured, and you have the best tea made the best way.

Be Suspicious of Tender Gums

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenamelled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system.

Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhoea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

FIFTY-THREE YEARS' SERVICE

Notable Record of John Coffey, Who Has Retired as C. N. R. Conductor.

Of Conductor John Coffey of the C. N. R., who retired on January 1, the Montreal Times says—
"Ex-Conductor Coffey was engaged in railroading some fifty-three years, forty-seven of that time as conductor, in all the years that he was in charge of trains, passenger and freight, he never had a passenger injured in getting on or off his train and never had a mishap to his train that would cost the Railway Department a thousand dollars. Not only were his trains free of accidents, so far as passengers were concerned, but he never had a driver, fireman, brakeman or baggage master killed; and only two brakemen met with slight injuries on trains of which he had charge. This is a record probably unequalled by any other trainman in the service of the government road. Ex-Conductor Coffey entered the service in May, 1869, as trackman, and in June, 1871, he went on the

road as brakeman and baggage master and still a comparatively young looking man and his many friends will wish his many years of continued health to enjoy Amherst: This was at the time the road until December 31, 1921. For the last fifteen years he ran the local between American Railway. In November, 1874, Moncton and Springhill Junction. Ex-Conductor Coffey, who was born in Shediac, where he will continue to live ran all kinds of trains between Moncton and Memramook on February 15, 1882, is an doccupy his time with gardening."
