### Why Keep Up the Furnace

on Days that are  
not so Cold?

The Perfection Oil Heater provides plenty of cheery warmth for days on which the furnace—or feeder—is not really needed, but yet are cool enough to require heat of some sort for just such spring days the Perfection is really invaluable.

Upstairs or down, it warms any room, any time, without trouble or inconvenience. There are no ashes or coal to bother with and the house does not become uncomfortably hot and stuffy.

The Perfection is well made, good-looking, lasts for years, and turns every drop of Royaltite Coal Oil into clean, odorless heat.

Nickel trimmings with drum black japanned or blue enameled.

## BUSY SESSION OF POLICE COURT

In the police court this morning George Axtell and William J. Mulcahy were up on suspicion of breaking and entering the barn of Alexander Clark, Murray street, and stealing harness valued at \$40. Police Gillies told of seeing the accused walking along Portland street and Axtell was carrying a bag. The policeman and Sergeant Rankine became suspicious and they went in different directions to see if they could catch the men. He said he saw the two men again at corner of Acadia and Main streets, but the bag was not in their possession. Soon after he met Sergeant Rankine carrying the bag and the sergeant told him to catch the men. He gave chase and arrested the accused on Long wharf. Sergeant Rankine gave evidence of finding the bag of harness in a shed. Axtell said he got the harness from Mulcahy, according to the sergeant.

Alexander Clark who keeps a stable in Murray street, said his harness was kept in a lock and the lock was broken and the contents stolen. He identified the harness as his. The case was postponed until Monday morning.

Robert McLaren was charged with stealing a suit of clothes from Robert S.S. Metagana. George Allen and Harry Kaves gave evidence of seeing the property in the possession of the accused. Kaves said he bought the suit from the accused for 77 cents. McKay identified the suit as his and said he found the property and had no intention of stealing it. An officer on the ship spoke in his favor and the magistrate allowed him to go.

Joseph Wallace was charged with being drunk and refusing to leave the Union station when told to do so. C. N. R. policeman Ross gave evidence and the accused was remanded.

James Totten, charged with having liquor in his possession other than his private dwelling pleaded guilty and was fined \$200 or six months in jail.

Mrs. Annie Collins, charged with committing a statutory offence, was sent for two years to the Home of the Good Shepherd. Eaton Crossman, also charged with Mrs. Collins, is confined to the isolation hospital with diphtheria.

Robert Lovey, charged with sending threatening letters was remanded until he could get sureties.

Joannes Plamen charged with stealing a bicycle from the store of Hoffman Bros. was allowed to go on suspended sentence on condition that he would ship on board the S.S. Lord Dufferin, which is to sail tonight. An officer from that ship escorted him from court.

A lad who escaped from the Boys Industrial Home, was sent back to the home.

The case against the three lads charged with stealing a quantity of cloth from the store of Hoffman Bros. will be determined on Monday morning.

Five men charged with drunkenness were each fined \$8 or two months in jail. Four of the men said they became intoxicated with lemon extract.

## All the Way From Depot to Mission Church

Included Also Is Property in Alley Off Paradise Row — Notification to Owners in Connection With Project for Fine Railway Depot.

While there has been much talk of the erection of a new railway station in St. John, nothing really definite beyond the preliminary work of survey done some time ago has transpired until today, when notices were sent out by L. R. Ross, C. N. R. terminal agent, stating that the government is now the owner of the various properties extending from the present depot along Mill street to the Mission church in Paradise row. They have been acquired under the Expropriation act. This means that the preliminary steps have been taken towards the building of the new station of which plans are now complete but subject to revision.

Under the act of expropriation plans were filed in the office of the registrar of deeds on March 5 so that the various properties went into possession of the government from that date. Adjustment of values will now be in order. Valuers will be appointed and the owners will be ordered the amount fixed. Should this be found not satisfactory, the matter will go to the exchequer court to be adjudicated. The surveys in connection with the work are being done by Gilbert G. Murdoch, C.E.

### The New Station.

When the matter was first discussed it was said that the plans for the new station called for a building valued at about \$1,000,000 but whether these still hold or whether they have been enlarged upon, cannot be said at present. A. P. Barnhill, E. Co. one of the C. N. R. commission, said today that the plans were not yet available. Before the plans were conclusively agreed upon, a conference must be held with the C. N. R., mostly pertaining to the matter of track levels, and there would probably be a conference with the city.

The desire was to get away from the level crossing as at present existing. Whether this would be done by way of a viaduct for city travel or an overhead structure for the railways was still a matter undecided.

A suggestion has been made that a viaduct be built from High street to Mill street, joining Mill street to the station, thus carrying traffic to and from the northern section of the city and providing for vehicular and street railway traffic as well as for pedestrians. The alternative is for an elevated track, age over Mill street, causing no interference with the ordinary traffic beneath. The construction of the C. N. R. and the city will be sought with some plan to do away with the level crossing.

It is believed that the new station will be located on the side of the present one towards Paradise row leaving the existing site for through tracks in a train shed. The land expropriated will permit of the erection of a building suitable for all requirements, up-to-date in every particular with plenty of space for express offices, mail, baggage and various other needs. There will also be given greater yard room.

### The Lots Taken.

Beginning at the corner of Paradise row and Mill street the building whereon with others adjoining was destroyed by fire a few months ago, expropriation will be made along Mill street to the station and along Paradise row to the Mission church. The corner lot is owned by the Bank of Nova Scotia while next in order along Mill street come the freehold of Mrs. Johanna R. Sweet under lease to Mary E. Walsh and Annie F. O'Neill, the estate of John Chamberlain, Wm. A. Steiper, two lots to Mary A. Quinn, next the freehold of E. J. Heatt under lease to Thos. P. Kelly, that of David Corkery in two lots, one held by himself, the other by Michael Marcus, the freehold of Mrs. Johanna R. Sweet leased to the estate of Owen Sullivan, then the freehold of Sarah E. Hazen's estate leased to N. S. Springer. Next to the bank lot at the corner of Paradise row is another lot owned by Mrs. Sweet on which is a four-story house owned by Mrs. Steiper, an alley intervening between it and a freehold owned by the E. E. Hazen estate. There are buildings owned by E. J. Heatt, M. A. Harding and W. A. Steiper.
