Dangerous Antiseptics  
And Germicides Are  
Unnecessary

A dependable antiseptic has come to  
be considered a necessity in most homes.  
Especially is this true since Absorbine,  
Jr., has had such a wide introduction,  
because this liniment is not only a power-  
ful antiseptic and germicide but it is  
absolutely safe to use and to have around  
the house. It is not poisonous and it  
cannot do harm even if the children do  
get hold of it. That is a big point to  
consider.

Absorbine, Jr., is concentrated and is  
therefore economical. It retains its  
germicidal properties even diluted one  
part Absorbine, Jr., to 100 parts water—  
and its antiseptic properties, one part  
Absorbine, Jr., to 500 parts of water.  
The antiseptic and germicidal prop-  
erties have been repeatedly tested and  
proven in many prominent chemical  
laboratories. Detailed laboratory reports  
mailed upon request.

Absorbine, Jr., combines safety with  
efficiency. \$1.25 a bottle at most drug-
