ERMAN EXPERT ADMITS RETREAT BEFORE RUSSIANS

Special Cable to Daily Telegraph and Montreal Gazette.

Kottenside, Oct. 30.—Major Morhart, military expert of the Berliner Tageblatt, made some important admissions in an interview with the eastern front.

"The strategic retreat of the German army now stationed before the Weichsel is highly probable," he says. "We can see from a message from the Austro-Hungarian general staff published yesterday, the new Russian force seems to have been unexpectedly strong, but I am not strong enough to put difficulties in the way of the German retreat. The arrangements of our army include evident intention of taking up the offensive. We are certain our order there will make himself lord and master of the difficulties in his path."

Major Morhart continues: "To ally city we again deny that France and Poland can surprise us during the time last with new artillery. The German messages to the contrary are nothing but an attempt to frighten us. Guns

IMPORTANT

There are two important facts to keep in mind about the coals delivered by this company. (1) Each is the very best of its kind that money can buy. (2) Before delivery every load is rescreened to remove all slack and dust.

You will appreciate this once you have tried Our Coal.

like our 42 centimetres cannot be made at the turning of the hand. It takes years before the machines to make them can be got ready, and then only begin the critical tests, which are just as important as the question of transporting these shooting horrors. We can therefore with practical certainty assume that guns to compete with ours cannot be produced from a hostile country during the present war."

WASHINGTON WILL NOT HAMPER LOANS TO BELLIGERENTS

Belief That Credit Funds Will Lead to Purchases of Big Supplies.

Washington, Oct. 30.—Viewing credit loans to belligerent countries as private transactions, the Washington administration will not attempt to interpose its influence against such transactions on the part of American bankers.

This was learned from the highest authority today after it became known that German financiers were contemplating the establishment of a credit loan in this country similar to the \$10,000,000 credit fund negotiated by the National City Bank of New York and other bankers for the French government.

The decision of the Washington administration may lead to the purchase in the United States of about \$50,000,000 worth of supplies by Russia, and an equal if not a greater amount by Germany. Details of the expected transactions are lacking here.

WHAT TO DO ON HALLOWE'EEN

(By Adele Mendel)

The Mystery of the Ball

For this game you must make a large ball of black and yellow strips of paper, or of muslin. As you wind the ball insert all kinds of small favors, which have been wrapped in red paper—a penny for fortune—a ring for marriage—a key signifying a journey, etc. One person commencing to unwind the ball starts to tell a ghost story and continues until a gift is revealed, and then the next one takes the ball and goes on with the story until his fortune is discovered. This continues until all have found a fortune.

Sit on a Bottle and Thread a Needle

A rather amusing test for Halloween is to see who can sit on a round bottle placed lengthwise on the floor and thread a needle. This is not easy to do and the first one to succeed will be the first to wed.

TRENTON GENEROUS TO ITS VOLUNTEERS

Trenton, Oct. 31.—Trenton's sixteen volunteers for the second contingent were given a grand send-off in Walden's Opera House here when a monster patriotic meeting was held, presided over by Mayor Kidd. The boys received wrist watches and kits from the Governor of the Empire Chapter, Daughters of the Empire, presents of gold from Robert Weddell, and the Trenton Patriotic League, and insurance policies of \$1,000 each from the latter organization, which means the citizens of the town. The municipal council will equip the four or five officers who go with Trenton with field glasses, compasses and pistols. Presentations were also made to two companies by the pupils and staff of the High School.

University Regiment.

Kingston, Oct. 31.—Prof. James Capron, Dean of Queen's Arts Faculty, will go to Toronto today to discuss with the Toronto University authorities the question of forming a Canadian university regiment for overseas service.

DUKE IS OFF TO WAR

Manchester's \$10,000,000 Picture Scheme Collapsed.

New York, Oct. 31.—The Duke of Manchester is off to the war. Thwarted in his attempt to become an educator by the recent collapse of his \$10,000,000 international moving picture scheme, and harassed by many creditors, he sailed for England on the White Star liner Adriatic with the expressed intention of enlisting.

The Duke seemed uneasy and eager to escape questioning. He declared that all his financial troubles were ended, and that as soon as he reached London he would go to the War Office and volunteer for service.

Eczema Only Skin Deep

A few skin troubles originate in the blood. But very few. Dr. Evans, ex-Commissioner of Health, and a famous writer on medical subjects, says:

"We shall begin to make headway with skin diseases when we learn two things; first, that skin disease does not come from impure blood; second, that so-called blood impurities have no such action."

The skin can be cleaned up, the almost intolerable itching and burning stopped, by local treatment, applied directly to the parts affected.

Make up your mind to start now and give yourself a smooth, velvet complexion.

You can do it with the aid of the wonderful D. D. D. Prescription, a cooling, refreshing lotion—not a salve or grease. It soothes your tender skin, opens the pores, drives out the old impurities and gives you a skin like a baby's—smooth and clear.

We sell D. D. D. on a positive no-pay guarantee. You don't risk a cent. Don't suffer another day. Call at our store today. Ask also about D. D. D. Soap—best for tender skin.

Did You Ever See an Animal with Cotton or Flax Growing Out of It?

This looks like a foolish question, but is it any more foolish than a human being wearing cotton or linen next to the skin as a protection against cold?

You can't beat old Mother Nature—Nature has given every animal a covering of wool—fur or hair (all practically the same material) in varying degrees of fineness—wool being the finest and hair the coarsest.

Nature supplies this covering because it is the best protection against all atmospheric conditions. All medical men recommend pure wool as the best and safest material to wear next the skin—it is a non-conductor, and absorbs perspiration rapidly and evenly.

"CEETEE" is all-wool unshrinkable underwear. It is manufactured from only the very finest Australian Merino Wool, scoured and combed over and over again until every particle of foreign matter is taken out and every strand is as clean as it is possible to be made.

It is then carefully manufactured on expensive and exclusive machinery, very different from the ordinary style of underwear machinery, fashioning each garment to fit the human form. It has all salvage edges, therefore cannot come unravelled; every join is knitted together, not sewn as with ordinary underwear.

Choose Your Widow

The man who thinks only of himself—who doesn't care what happens after he's gone—forces his wife to assume too great a risk. His death is likely to mean a slavish, wage-earning career for his widow.

Of course, if abject poverty befall her, some charitable institution may appeal to a kindly public for money with which to keep her and her children alive.

But how different is the prospect for a woman whose husband, by means of life insurance, has made provision for her support in the event of his death.

What prospect has your wife if you should die tomorrow? The choice rests with you. Let an Imperial Life policy be the answer. It will provide her with a regular monthly income to begin at your death and continue so long as she lives.

Our booklet "Safeguard your Legacy" tells about this feature of Imperial policies. Ask for a copy today. It's most interesting, and—it's free.
