

BRITAIN WINS SIX GOLD MEDALS

STRIKING SUCCESSES AT OLYMPIC STADIUM

Five Mile Flat Race Goes to Voight—Sheridan Beats World's Record.

London, July 18.—Water soaked tracks and turf, the result of a tremendous downpour of rain during the night and a dull and sunless day threatening another wet day, are what officials and competitors found on their arrival at the stadium this morning for the continuation of the Olympic games. A varied programme had been arranged to bring out the people for the first Saturday of the meet. The morning is again given over to archery and fencing. For the afternoon the most attractive events are scheduled in the hope of drawing a crowd.

These include the final in the 3,200-metre steeplechase, the final in the 200-metre breast-stroke swimming race, the throwing of the discus (as at Athens), and the final in the fancy driving, the 5,000-metre cycle race, the tug-of-war, the 100-kilo cycle race, and the five-mile flat race.

British Successes.
London, July 18.—The Saturday afternoon crowds filling the lower priced sections of the grandstand of the stadium, had an opportunity of venting their enthusiasm over the outcome in the three final events with which the day's sport in the Olympic games was opened. All these three races were won by the United Kingdom. Russell (United Kingdom) took the 3,200 metres steeplechase with his team mate, Robertson (United Kingdom), second.

Somewhat to the surprise of the experts the United Kingdom also took first and second place in the final of the 200-metre breast stroke swimming race. In this event Holman was the winner, with Robinson second. It has been expected that Tolday (Hungary) would walk away with this event, but he did not even get a place. Hanson (Sweden) beat him for third place.

The United Kingdom got another start in its lead with a total number of wins, making the score up to 25, to the United States 9. Germany put one win to its credit. The United Kingdom also overtook the American score for field events, the day's results bringing this up to 54 with the United States increased her score to 49.

The weather brightened up somewhat in the afternoon and the lowered priced stands were filled up with the usual Saturday afternoon sporting enthusiasts.

Canada's objection to the decision by which Young was declared not to have qualified for the final in the 100 metre cycling race, has been rejected and late this afternoon after the most persistent representations from the Canadian committee, his name was added to the list of starters for the final. This is the first protest since the opening of the games that has been allowed, but the Canadians pressed their objections so strongly that the officials were forced to take cognizance of them. The protest was entered on the ground that Young, who crossed the tape first in his heat in the semifinals, was declared by the judge to have lost a lap. This the Canadians proved to be true.

3,200-Metre Steeplechase.
Final Result.

London, July 18.—The final in the 3,200-metre steeplechase was won this afternoon by Russell (United Kingdom) in 10 minutes 47.4 seconds; Robertson (United Kingdom) was second, and J. L. Eisele (America) third.

Eisele fell at the first jump and lost the yards, which took some time to make up. He succeeded, however, in getting third place at the end of the second lap. At this time Russell was leading and Meadows (Canada) was second. Robertson then came up, and for a time there was a fight for second place. Eisele led Robertson for a time, but he lost his place in the final lap.

Discus Throw (Greek Style).
Final Result.

In the final of the Discus throw, Martin J. Sheridan (American) was first with a throw of 128 feet 8 inches. Sheridan beat all previous records in throwing the discus (Greek style or "as at Athens"), 128 feet 8 inches. M. F. Horr (American) was a good second and Jarvinen (Finland), who held the Olympic record, was third.

5,000-Metre Cycling.
Final Result.

The 5,000-metre cycling event was won by Jones (United Kingdom) in 8 minutes 15.5 seconds; Schilles (France) was second, and Aeffray (France) was third. Schilles protested against the victory of Jones, alleging a foul. The protest was not allowed.

100 Kilometre—Cycling.
Final Result.

The final of the 100 kilometre cycle race was won by Bartlett (United Kingdom). Cadogan (United Kingdom) was second and Laspiiz (France) was third. Time, 2 hours 45 minutes and 48.3 seconds.

200 Metre—Swimming Breast Stroke.
Final Result.

The final in the 200 metre breast-stroke swimming match was won by Holman (United Kingdom), second, and Robinson (United Kingdom), third. Time, 3 minutes and 9.1 seconds.

Tug of War.
Final Result.

In the final tug of war the City of London police were first, while the team made up from Liverpool and Gillingham were second. The Metropolitan police team were third.

Five-Mile Flat Race.
Final Result.

The final in the five-mile flat race was won by Voight (United Kingdom). Owen (United Kingdom) was second

and Svanberg (Sweden) was third. Time 25 minutes 11.5 seconds.

Fancy Diving.
Result.

The final in the fancy diving was won by Zurner (Germany) with 85.5 point, Behrens (Germany) was second with 83.3, Gaidzik (America) tied with Wals (Germany) for third place with 80.8.

Ladies' Archery Contest.
Final Result.

The final of the ladies' archery contest was won by Miss Newell (United Kingdom), with Miss Dod (United Kingdom), second and Miss Hillows (United Kingdom), third.

Men's Archery Competition.
Final Result.

The final of the men's archery competition was won by Dodd (United Kingdom), King (United Kingdom), second, and Richardson (America) third. Dodd made 185.

SOUVENIR FOR PRINCE.

Ottawa, July 18.—A set of new Quebec treasured mementoes will be presented to the Prince of Wales at Quebec in small gold boxes, enclosed in a case of Morocco leather and inscribed. Less ornate sets will go to Earl Grey, Sir Wilfrid Laurier and Hon. R. Lemieux.

WINNIPEG REALTY AGENT UNDER ARREST

Quarrel With Jew Over Money Matters Leads to Latter's Death.

Winnipeg, July 18.—W. A. Morden, a well known Main Street real estate agent, is under arrest. A Hebrew business man, B. Y. Morden, delivered a load of furniture for Morden last evening. An argument arose over the payment and one or two blows were struck during which the Hebrew fell. He was taken to the hospital where he died a few hours later. Witnesses state that the Hebrew got so excited that heart trouble was brought on and he fainted.

EDMONTON PLANS BIG INDUSTRIES

Graphite Deposits May Be Utilized—Establishment of Pulp Mill.

Edmonton, July 18.—A number of manufacturing schemes have been under discussion in this city. There is a probability of making use of the immense graphite deposits which are the subject of an investigation of the mineral beds is now being made.

Still another proposition is the establishment of a pulp mill on the Saskatchewan river at or near Edmonton. The beginning of such an undertaking is believed to depend chiefly upon the results of investigations now under way as to the feasibility of developing water power from the Saskatchewan river.

Some months ago the city's public works department looked into the matter of using Saskatchewan water power for civil purposes and there expert was engaged to make an examination. His report was that a very serviceable power could be developed from the river, but that it would involve greater expense than was practicable for civil purposes.

A further investigation is now being made into the feasibility of developing power for a pulp industry. If these investigations prove satisfactory it is possible that an industry of this kind may be established here within the next year.

Provided that the power question can be satisfactorily solved there is no doubt as to the practicability of a pulp industry on the Saskatchewan. The country through which the river passes is well wooded with poplar and spruce growth, which would be especially adapted to pulp making. The poplar, particularly, is an Alberta wood, and is known to give excellent results as a raw material for pulp. The supply of poplar is not limited, but large quantities of it are still to be found further up the river. It is quite possible that a pulp-making industry would be a success here, and the only undesirable feature about it would be that it would materially hasten the depletion of the native woods. The proposition now on foot is for a plant costing about a million dollars and employing seven hundred hands.

BANDITS SHOT DEAD WHILE THEY SLEPT

Dramatic Vengeance Meted Out to Men Who Terrorized Durango.

Mexico City, July 18.—Details of the killing of the famous bandit Ceneb Rodriguez, "El Jorabado," and his two companions, Antonio and Policar Reyes have just reached here. The bandits, who were charged with killing H. S. Jones, an American, and with many other crimes, were shot while they slept.

Three rurales sent out to capture the trio made a nocturnal attack on a hacienda near where the robbers were encamped. The latter took the supposed recruits in, and the latter travelled with the bandits for five days, awaiting their chance to catch the real robbers off guard and execute the orders of the governor of the state of Durango to take the men dead or alive. Finally the bandits relaxed their vigilance and went to sleep together. The rurales promptly shot them to death.

OSMAN PASHA ASSASSINATED

CRIME OUTCOME OF YOUNG TURKEY MOVEMENT

Mutiny Spreads Among Ottoman Troops—Outbreaks in Different Battalions.

Salonica, European Turkey, July 18.—General Osman Pasha, commander of the Turkish forces at the Monastir, was assassinated in the barracks at Monastir to-day by an officer connected with the "Young Turkey" movement. The general sent out a notice only yesterday that an amnesty would be granted to all Turkish officers who were compromised in the recent murderous disorders in Macedonia.

Mutiny Spreading.

Constantinople, July 18.—That "Young Turkey" propaganda in the Turkish army, in favor of autonomy for Macedonia, appears to be more widespread than heretofore, has been admitted, and some forebodings are being expressed in official circles of a general revolt of the officers of the second and third army corps, at present stationed in the Monastir district.

The mutiny has been some months in individual battalions, and the rebellious officers are endeavoring to enlist the support of the Greek population in South Monastir, as well as that of the Greek battalions, more numerous than usual, which are at present raiding in this district.

The Young Turks are also seeking the support of Bulgarian bands, but these latter are distrustful.

In some circles there is considerable apprehension that Bulgaria will take advantage of the present rebellious spirit of the Turkish troops in Macedonia to dispute the control of the Porte, or that Turkey will seize the opportunity to create a diversion against Bulgaria in order to escape from her international difficulties.

Large numbers of Anatolian troops have arrived at Salonica. These will be specially drafted to the various garrisons in Macedonia to replace the experienced men, whose fruitless demands to be returned home are one of the primary causes of the recent mutinous outbreaks.

NEW YORK—CHICAGO BY RAIL.

Progress of Y. M. C. A. Boy Runners Carrying Message Between Mayors.

Erie, July 18.—A member of the Y. M. C. A. relay runners reached here at 2:47 o'clock this morning with the message from Mayor McCall of New York, to Mayor Busse of Chicago, 5 hours 48 minutes ahead of schedule time. The Erie train immediately took up the running to Ashtabula, Ohio, 42 miles east.

J. J. HILL SAYS FREIGHT RATES MUST BE RAISED

Increase is Essential as Spoke in Wheel of Prosperity.

New York, July 18.—James J. Hill, chairman of the Great Northern railway, is of the opinion that the only solution of the financial problem that confronts the railroads is an increase in freight rates. Mr. Hill is strongly opposed to a cut in wages as a means to increase the earnings of railroads. He has just returned from a fishing trip in Canada, and made this statement yesterday. "What is the alternative to raising rates? The credit of the railroads has been impaired. The way to enhance credit is to increase rates. The manufacturers who decay advance in rates fall to appreciate what is an improved credit. The railroads will be unable to expend the hundreds of millions which hitherto have made prosperity possible to themselves and employees. Wages should not be cut. Efficient labor is essential to successful operation. Railroad employees have responsibilities. They have to meet a hard task. They should get fair compensation."

ALBERTA WHEAT HELD TO BE LARGE

General Good Crop Story Comes From All Parts of Province.

Calgary, July 18.—Thunder showers throughout Alberta in the last few days have helped the crops along, particularly in the south. Haying has already started in some parts and will be a good yield.

Winter wheat will be ready to cut in the south within a week in some portions. Spring wheat is well advanced, and both varieties promise a big yield. There is a much larger area under cultivation, and a correspondingly large increase is assured unless some unforeseen calamity should occur.

In Northern Alberta the prospect has been much improved. During the latter part of June and the first part of the present month there was a superabundance of rain, but the recent fine warm growing weather has banished any pessimistic feeling, and now the general good crop story comes from all parts. The statistics are not compiled up to the present, and an accurate estimate of the yield has not been made by any competent authorities. Still an estimate of the grain fields fully justifies the statement that Alberta farmers never had such cause for rejoicing.

TO VISIT FOREIGN COUNTRIES.

President Fallieres Leaves Paris—Friendly Calls on Powers.

Paris, July 18.—President Fallieres, accompanied by Foreign Minister Pichon, left here this morning for Denmark, Sweden, Russia and Germany. President Fallieres and his entourage, a number of the municipal officials and a large crowd gathered at the railway station to bid him farewell.

The French press is unanimous in the belief that this round of visits inaugurated by the president will serve to strengthen France's policy of conciliation and peace.

LIGHTNING DEATHS.

Columbus, O., July 18.—Mrs. C. F. Gudge, aged 35, and Earl Vigor, aged 15, were killed by a stroke of lightning late last night while in a camp along Big Walnut creek, seven miles south of Columbus. John Gudge, aged four, the only child of the dead woman, sustained severe injuries from the lightning, but will recover.

ANOTHER LONG STRETCH OF G. T. P.

(Special to the Times).

Ottawa, July 18.—The National Transcontinental Railway Commissioners have called for tenders for the construction of 975 miles of the railway in Ontario and Quebec. This will bring the balance of the whole line from Winnipeg to Montreal, not now being constructed, to the end of the line. Tenders will be received up to August 20th, and the date of the completion of the road is set for December 31st, 1910.

VICTORIANS WIN HONORS IN MUSIC

Striking Success of Miss Alma Clark at Toronto College.

Toronto, July 18.—At the Toronto College of Music examinations, the Torrington scholarship, the Mason and Risch scholarship and the third piano forte examination for first class honors were won by Miss Victoria Clark, of Victoria. In the second examination for first class honors, Alice Muriel, of Victoria, was successful. The primary examinations for piano forte honors were passed by Dorothy Gardiner, Margaret McFarlane, Alma A. Duck and Pearl Warren, of Victoria. A pass was awarded Louis C. Pichon, Norman, and a piano forte pass to Alma Clark. In history, a second examination pass was awarded to Ethel Freeland, Vancouver. In the senior rudiments, first class honors went to Alma Clark.

PARLIAMENT TO PROROGUE.

Ottawa, July 18.—The prorogation of parliament takes place on Monday afternoon, after which Sir Wilfrid Laurier and the cabinet leave for Quebec.

ESCAPE FROM JAIL BY BED CLOTHES LINE

Seven Prisoners Break Away From Toronto Institution— Drop of 15 Feet.

Toronto, July 18.—Seven persons escaped from Toronto jail this morning. They belonged to a group of fourteen who were being kept in the jail corridor either under the published reports that he had cabled Mr. Hurst, leader of the Independence League, urging the editor to use his influence to prevent the league from nominating its own candidate for president and urge the league to give its support to W. J. Bryan, the Democratic nominee.

Mr. Gompers said: "I read in the newspapers that I am being asked Mr. Hearst to support Mr. Bryan and that Mr. Hearst has made reply to me through the press. Now I did nothing of the kind. I don't know where the news came from. I did not send it nor any other message to Mr. Hearst."

MANILA LAUNCH DISASTER.

Sixty Lives Saved, But Nearly Thirty May Be Lost.

Manila, July 18.—The number of lives lost through the foundering of the pleasure launch San Gabriel while on her way from Manila to Corrigidor, is still uncertain. Sixty-one passengers and members of the crew were rescued, and it is generally estimated that the number of passengers and crew was ninety. As far as known, no Americans were among the victims.

SHAH'S FORCES ARE DRIVEN OUT

TABRIZ RISES AGAINST RACHIN KHAN'S HORSEMEN

Troops Shot Down in Streets— Startling Phase in Persian Turmoil.

London, July 18.—A special dispatch to the Times from Tabriz says: "A sudden and unexpected change took place in the barometer last night (Thursday). The elderly in all quarters of the town, except one which is devoted to the Shah's cause, agreed on concerted action against the government forces and on this (Friday) morning amid the greatest excitement a great crowd surged toward Rachin Khan's headquarters. Without waiting for the construction of 975 miles of the railway in Ontario and Quebec. This will bring the balance of the whole line from Winnipeg to Montreal, not now being constructed, to the end of the line. Tenders will be received up to August 20th, and the date of the completion of the road is set for December 31st, 1910.

Many of Rachin Khan's horsemen were isolated in the town and killed, and the majority of the Shah's infantry melted into civilians.

Unless Rachin Khan's move has some ulterior motive, it would appear that the Shah's authority is completely at a discount and the future is a riddle.

Another Report.

St. Petersburg, July 18.—The Novoye Vremya this forenoon publishes a dispatch from Tabriz, Persia, declaring that the revolutionists there have been overcome by the government troops and that the horsemen of Rachin Khan are pillaging the town with murder and violence.

"TOO SILLY FOR WORDS."

Australian Settlers Towards America and Towards the Empire.

Sydney, N. E. W., July 18.—Alfred Deakin, the Prime Minister, in commenting on Australian sentiment toward the American fleet as expressed in some quarters, said: "Our looking for support to the United States instead of to the Empire is too silly for words."

CANADA'S POPULATION.

(Special to the Times).
Ottawa, July 18.—The census bureau estimates the population of Canada on March 31st last at 6,863,600.

TOWN MIGHT HAVE BEEN BLOWN TO ATOMS

Only Low Powder Stock Saves Cle-Elum From Total Destruction.

Cle Elum, July 18.—That the town of Cle Elum was not literally effaced from the earth by Thursday's explosion in the powder house of the Northwest Improvement Company is due to the unusually small amount of powder in the magazine. The community, stunned by the magnitude of the disaster, has awakened to a realization of the fact that it was almost a miracle that the town was not destroyed. Had the usual amount of powder been in the magazine—between three and four tons, instead of barely 1,500 pounds—every house within half a mile of the magazine would have been splintered into kindling and hundreds of lives would have been lost.

RAIL MILL CLOSES DOWN.

Sault Ste. Marie, Ont., July 18.—The rail mill of the Lake Superior corporation has closed down indefinitely, owing, it is said, to lack of orders and scarcity of ore to run the blast furnaces.

ADMITS FIVE MURDERS WHEN ON SCAFFOLD

Startling Confession of West Virginia Negro Hanged Yesterday.

Clarksburg, W. Va., July 18.—Frank Johnson, a negro, who was hanged in the Moundsville penitentiary about 6 o'clock last evening for the murder of Mrs. Beulah Martin, colored, it is said made the startling confession to his ministers, in which he admitted murdering five persons.

Following is the list of his alleged victims: Unknown man in 1896 at Blossburg; Edith Hannah, at 81 South Pearl street, Chicago, in 1904; Blue, of Shippensburg, Pa., in 1906; unknown woman at 120 South Seventh street, Steubenville, O., November 6th, 1907; Mrs. Beulah Martin, colored, of Gypsy, W. Va., in March, 1908.

In his confession Johnson says his real name is Edward Walton, and that he was born in Georgia. The crime for which Johnson was hanged yesterday was committed at Gypsy, near here, last March. After shooting Mrs. Martin, Johnson was taken to the penitentiary, where he was held for some time. Johnson escaped to the hills, followed by a posse number 400. Barricaded himself in a barn, Johnson defied arrest for two days, and in that time shot and seriously injured three of the posse. The negro was only captured when he learned that the posse intended to blow up the barn with dynamite.

ISAAC CAMPBELL, K. C., WED.

Winnipeg, July 18.—Isaac Campbell, K. C., the best known bachelor lawyer in western Canada, who has been offered almost any position in the gift of the Laurier government, becomes a benedict on August 1st.

YORK COUNTY CLAIMS.

Year Will Pass Before First Dividend Is Declared.

Toronto, July 18.—A staff is busily engaged at the National Trust Company's office on a mass of clerical work necessary before the rights of the various York County Loan claims can be ascertained. It is likely to be a year before the first dividend will be declared, and it will take four years to dispose of all the real estate.

REVOLUTIONISTS QUELLED.

President of Honduras Claims to Have Put an End to Movement.

New York, July 18.—The Associated Press has received the following dispatch from General Davila, president of Honduras: "Tegucigalpa, Honduras, July 17.—The government has put an end to the revolutionary movement in ten days. The decisive battle was fought at Nacaome. The enemy was defeated and escaped into Salvador. (Signed) Davila."

U. S. TO SEND GENERAL OFFICER TO QUEBEC

Presence of Lord Roberts Leads to Determination of Government.

Washington, July 18.—Because Lord Roberts, the highest military officer in the British army, is to be present with the Prince of Wales in connection with the Quebec celebration, the United States government will probably send a general officer of the army to accompany Vice-President Fairbanks when he goes to meet the Prince. This officer, whose election may be announced to-day, will be in addition to Major Bentley, already designated as Mr. Fairbanks's aide.

FINES STEAMER BECAUSE PASSENGER LAUGHS

Ridiculing of President Cabrera Costs Pacific Mail Liner \$50.

San Francisco, July 18.—The Pacific Mail liner Para, from Panama, which arrived here on July 15th, was fined three times at Southern ports on her trip up.

At Champerico someone on the vessel laughed when a customs officer designated President Cabrera of Guatemala as the "supreme being" and the ship was fined \$50 for the discourtesy. The Para failed to stop at Ocosingo, Mexico, sending freight for that port ashore at Acapulco, and was fined by the Mexican government. At San Benito another harbor regulation was violated and a third fine imposed.

KNOWS NOTHING OF COMBINE.

New York, July 18.—W. E. Corey, president of the United States Steel corporation, arrived here yesterday from Europe. Mr. Corey said that by next spring he expects to see a return of practically normal conditions in the business world. Asked about the formation of an international steel combination, Mr. Corey said he knew nothing about it.

STEAM BARGE WRECKED.

Watertown, N. Y., July 18.—The steam barge R. MacDonald, of Kingston, Ont., was burned to the water's edge at Sackett's harbor while the crew was attempting to save the cargo of coal from the schooner Acadia, which was recently wrecked near that port.

COASTED IN AUTO TO HIS DEATH

Machine Striking Culvert Turns Turtle Twice, Killing Man.

Baker City, Ore., July 18.—J. Muller, a wholesale liquor dealer of Baker City, was killed and his wife seriously injured yesterday at Ulida, a few miles from Baker City, by the overturning of an auto in which they were making the trip from Baker City to Boise.

Muller had let the machine coast down a hill and at the bottom struck a culvert that had been washed out. The machine turned over twice.

ASTOR FOR PARLIAMENT.

Plymouth, July 18.—Waldorf Astor, the eldest son of William Waldorf Astor, was chosen last night as the Conservative candidate for member of parliament for Plymouth at the next general election.

WILL OCCUPY NAVAL YARD

FOR ANNUAL TRAINING IN QUICK FIRING

No. 1 Company, Fifth Regiment, to Occupy Barracks.

(From Saturday's Daily.)
The local regiment of the Fifth Regiment, C. G. A., is being recruited up to strength preparatory to going into camp early in August. The corps is not yet up to full strength, but it is anticipated that the next week will result in large additions to the rank and file.

The arrangements for camp this year are being made with the object in view of getting the fullest amount of work possible on the fort guns. The installing of the twelve-pound guns in the drill hall has given splendid opportunity for preliminary training on them, and already members of the regiment have put in good practice with them. This will all be of assistance when the regiment begins its annual practice on the fort guns.

A large part of the preliminary work will have been completed before the training begins, and actual firing commences.

In order to facilitate matters this year No. 1 company, under the command of Major Currie, will not go into camp with the remainder of the regiment. Instead of that No. 1 will go into the naval yard and indulge in all the comforts of barracks life. The change will introduce a new phase into militia life, and the experience should be helpful as well as enjoyable.

At the naval yard the barracks contains all the accommodation necessary. Kitchens are equipped there as well as mess quarters served by the cooks. The company will therefore have nothing to do but march in and take up its quarters. The quick firing guns mounted in the yard will be used so that the members of the company will be right at their work.

In order to lose no time that can possibly be spared from drill it is the intention to postpone the dinner hour until the closing of the drill. Instead of breaking off drill for dinner as in the past coffee and light refreshments will be served at that hour with as short delay as possible so that all the day light may be taken up with drill.

On the conclusion of the day's work men will be able to enter their quarters and have dinner served in the mess room. The members of No. 1 company look forward to accomplishing great things this summer and having at the same time a most enjoyable time.

The remainder of the regiment will camp as usual at Macaulay Point and take their training on the big guns at Fort Macaulay.

BUILDER OF RAILROADS. Daniel Stanton Was Identified With Many Lines in the East.

New York, July 18.—Daniel N. Stanton, a contractor, who was identified with the construction work on several railroads in the east, died yesterday at his home here. Mr. Stanton was born in Barlett 31 years ago. He entered the railroad construction business at the age of 18 when the Boston Concord, Montreal railway was being built. He was successfully engaged in the construction of the Grand Trunk, the Boston, Hartford, and Erie Portland and Ogdensburg, the Illinois Southern, the Delaware, Lackawanna and Western, and the Erie.

He was at one time president of the Alabama and Chattanooga railway and he had projected and organized the Canada Atlantic railway.

REFUSED LANDING.

San Francisco, July 18.—Strict immigration regulations yesterday prevented the landing of Humbert Rivas, the 18-year-old son of General Rivas of the Republic of El Salvador, because of disease of the eyes. With the Central American republic on the verge of another revolution, General Rivas decided to send his son to the United States and place him in some school in California. The boy arrived on the steamer Peru. Federal inspectors found that he was afflicted with trachoma and the boy was refused landing.
