CITY ENGINEER'S REPORT ON BRIDGE

RECOMMENDS STEEL ARCHES AS THE BEST

Opinion of That Official on Strength of Present Structure-Quick Dispatch Given to Business.

In the transaction of routine the new council certainly display business capacity. It took the board less than an the Victoria Board of Trade, on the hour to dispose of all before it at the same conditions as formerly existed.

A further report from the same conditions are formerly existed. regular meeting last night, and this inthe board not discussing matters which in any event had to be referred to the plies for the Old Men's Home was then committee for report back to the coun- introduced and carried. cil. In this way much dispatch was given to business generally.

First in the line of communications came a request from Lawrence Goodacre for an extension of the sewer up Cormorant street to connect with a residence. This was referred to the city was followed respecting a complaint coming from Wm. McArthur for a certain improvement on Market street. Mr. way crossing at the corner of First and Ald. Graname suggested that the rail-

way company be made to live up to the letter of their agreement with the city, and the communication was referred to the city engineer and city solicitor for

Another letter from Mr. McArthur requested that a sidewalk be laid on the east side of First street as soon as possible. Referred to the city engineer for report.

The city clerk reported as follows:

Since the last meeting of the city council ceived and have been referred to the city til the collection of taxes. engineer for report, viz.: B. W. Pearse re endineer for report, viz.: B. W. Pearse re whole took up the ty-law seriatum. The from Devonshire road northwards.

BOAT FOUND WITH THE BROAD ARROW ON IT

Description of Other Wreckage That Has Drifted Ashore Along the West Coast of Island.

Now that a boat has been found on the West Coast indentified beyond all question as belonging to a warship, there can be little doubt of the Condor having been wrecked in the storm of December 3rd. The boat referred to, found five or six miles off Ahousett, has the broad arrow on its stem, an emblem which positively establishes the fact that the craft be longs to the British navy or is "a goveinment boat." The broad arrow is a royal mark of British government supplies of every description, and to wilfully obliterate or deface it is considered a felony punishable by a fine not exceeding

But in addition to the mark there are other signs by which the vessel can be

Owing to the lateness of the hour in vesterday afternoon it was impossible to give all these in detail in last evening's Times. These included the letter "C." brass and mounted on a dark piece of wood on the boat's side, the Roman numerals "XIV." with the letters 'S I I B" or "SHB"-which the officers of the steamer were unable to definitely evening, after an indecisive engagem letermine, owing to the cross bar of the with the revolutionary ships at Yeguala "H," if such letter it was, being obliterated—beneath. Below this again were the letters "Sh 98." There were two gripes in the boat made of galvanized

iron and a galvanized ring about six inches in diameter and four short pieces of chain. On the ring were the letters "M T" and "S R." The boat was white, as previously described, and copper fastened. It will doubtless fall into the possession of the Egeria, she having sailed yesterday afternoon for the pu pose of examining any wreckage which might have been found or reported by the Indians. Whether or not this was the government wreckage reported by H. Dallas Helmcken, M. P. P., drew the United States cutter Grant of whether other wreckage has been found,

of which the Queen City brings no news, has yet to be learned. The Grant was in at Eucluelet when the Queen City passed south on her return trip to Victeria; but Capt. Townsend was not in communication with the ship. All the officers had at once formed the opinion that the boat belonged to the Condor, and in fact there is little doubt entertained by any of the arrivals on that vessel but that it was. Up till the present the officers of the navy have held out the most sanguine hope for the safety of the Condor, and notwithstanding the information which came to hand resterday a number of the officers of the Egeria, which sailed in the afternoon, said that they still had a very strong conviction that nothing very seri-

ous has happened to the ship. The wreckage picked up off Long Beach, Clayoquot, suggesting that something in the way of a disaster overtook the British ship Red Rock was fully described in yesterday's Times. It consisted of the life-buoy, with the name of dore asserts that they were in no position for the ship to proceed to sea, and he attaches little significance to the disvery of a number of cases of salmon. On the other hand the house doors and hard wood stanchions are ominous, and until something is heard of the salmon carrier much uneasiness will be felt for

The wreckage which came ashore off Cape Beale consisting of a gold watch and chain, a ship's chronometer and a portion of the name board of a vessel, rould seem to indicate that some vessel ad foundered, and that the chronometer and watch and chain hanging in the pilot house, as one interested in shipping theorizes, floated away from the ship together. The name board, too, would probably come from about the same part of the ship. This bore the letter () the off. The color in which this letter was painted, those on the Queen City cannot remember. The articles are now in

Mr. Lockwood, a passenger on the steamer, was one of those who had seen the wreckage. He says the watch is an open-faced, gold time-piece, with Bart-

Is the worst kind of poverty. However rich a woman may be, if her health is "poor" she is poor indeed. She has no appetite for food and the choicest dishes cannot tempt her. She turns and tosses through a restless night on a couch which might woo an empress to slumber. She has no strength for household cares, no delight in social pleasure. She sits "perked up in a glistering grief wearing a golden sorrow." She is a wife and mother. But she has no happiness in either relation. She knows her husband's life is set in tune and time to the min music of her own misery. If her child laughs or cries her nerves quiver with

Ask such a woman if she would like to be well; to be her husband's comrade, her child's playmate. Could there be but one answer?

Such a woman can get well if she will. All her symptoms indicate a diseased condition of the delicate womanly organism. Cure that condition and the woman will be lifted up to the full en-

woman's ills. It dries enfeebling drains. It heals inflammation and ulceration. It cures female weakness and bearing down pains. It tranquilizes the nerves, restores the appetite and gives refreshing "Favorite Prescription" differs from

almost all other medicines put up for woman's use in that it contains no alco-hol and is entirely free from opium, cocaine and all other narcotics. It is in the truest sense of the term a temperance medicine.

A Constant Sufferer.

"I had been a constant sufferer from uterine disease for five years," writes J. A. Steorts, of Yankee Dam, Clay Co., West Virginia, "and for six months previous to taking your medicine I was not out of my room. Could not walk or stand, as there was such pain and drawing in left side and bearing down weight in region of uterus, accompanied with soreness. I suffered constantly with headache, pain in back, shoulders, arms and chest; had palpitation, nervous prostration, constipation, dizziness, ringing in ears; could not sleep, and breathing was so difficult at times I could not lie down. Words fail to describe my sufferings when I wrote to you for advice. In a short time I received a kind letter from you telling me I would be greatly benefited, if not entirely cured, by the use of Dr. Pierce's Favorite Prescription, When I nad taken one bottle of the 'Prescription,' together with Dr. Pierce's Pleasant Pellets and the local treatment which you advised, I could walk (with the support of a cane), the drawing and pain in side and bearing down weight were not so bad, and when I had taken three bottles of the medicine the periods were regulated, I was not so nervous, could sleep well and the rain in side and bear. I had taken three bottles of the medicine the periods were regulated, I was not so nervous, could sleep well, and the pain in side and bearing down had vanished. I have taken six bottles of 'Favorite Prescription,' two of 'Golden Medical Discovery' and four vials of 'Pellets,' and my health is better at this time than it has ing no money as it was now, and as roll, as the fishermen were protected, the leavy square bar and a charm in the and my health is been in five years.
