THE COST OF THE G. T. P.

So much loose talk about the cost of the Grand Trunk Pacific has been in-3.355 miles, made up as follows:

Moncton to Quebec-400 miles. Quebec to Winnipeg-1,475 miles. Winnipeg to Mountains-1,000 miles. Mountains to Coast-480 miles.

Of this mileage the first two items amounting to 1,875 miles will be built by the government. The estimated cost of this is \$50,000,000, and the road when completed is to be leased to the Grand Trunk Pacific at a rental equal to 3 per cent. of its actual cost, but no rental is to be paid during the first seven years. As the money can be borrowed to build the line at 3 per cent, it follows that after the expiration of seven years the indebtedness on account of construction will not be a charge upon the public revenue, and hence the only responsibility is to pay 3 per cent. on the cost for seven years, or \$10,500,000.

but not to exceed \$13,000 a mile. It is antee will involve the expenditure of a courts must be established; they will guarantee by the Manitoba government

> The government guarantees 75 per cent. of the cost of the mountain section, and agrees to pay the interest for seven years. This, it is estimated, will amount to \$3,000,000. Then the interest that will have to be paid during conbe taken into account, and thus we get province, and thus save the cost of carrypublic treasury as follows:

Seven years' interest on the Moncton - Winnipeg section \$10,500,000 Seven years' interest on the Mountain-Coast sec-

AND REMINISCENCE

HOLD UP THE TRAIN?

Cariboo Stage-Similarity of Description.

After all, the daring hold-up of the C. P the unusual occurrence just referred to is desperadoes who did the deed, and to this the C. P. R. detective service and the Pinkerton spotters are bending their ener down in its annual report, while on several occasions in which the assistance of Plakerton men was invoked by the Victoria Members of Fish and Game Club Favor spring. The walls and ceilings have police they stated that they did not work

The circumstances of the pobbery, the the men recently discharged or escaped were obtained. The Victoria detectives did concluded that the hold-up at Mission was just such a job as would tickle the heart

Supt. Hussey, of the provincial police, had in his mind's eye the picture of a man whose modus operandi and description were not unlike those of the leader of the desperate gang that robbed the railway train. Years have elapsed since the superintendent last saw this man, but he would not be astonished should it develop that he is the same artistic "agent" whose recent operations were attended with so much success One day about thirteen years ago as the Cariboo stage was passing up a slight grade at Bridge creek, the driver was startled by the sudden command: "Halt, and throw up your hands!" an order accompanied by a volley of expletives that would make a Chicago Bowery tough shrink with envy. another instance where the Colonist "for-The driver, who was a big, husky, fearless fellow, looked in the direction of the voice and saw a rifle pointed at him from some brush ingeniously arranged on a stump alongside the road. He thought somebody was trying to frighten him so he yelled back: "Oh, go on and take a tumble to vonrself." or words to that effect.

"Hold those horses, I tell you," replied the highwayman with another torrent of oaths and curses, "or I'll blow your head the mandate with alacrity. "Get me that box of gold." was the next peremptory order, and the driver complied, presenting the bandit, on the latter's request, with a package of registered mail. The latter then ordered the driver to proceed on his way and not to get too curious or thing would happen to him. The robber. who was masked, got off with five or six thousand dollars of dust, representing the product of several Cariboo creeks. hue and cry. The whole country was scoured: every suspicious looking man was investigated; the avenues of escape were guarded: but the robber remained at large. was presumed that in some manner he had eluded his pursuers and escaped from

Not long after this, after the excitement had died down, rumors of new strikes of placer gold at Scotty creek, ten or twelve miles from Clinton, began to fly through the air. A man named Rowlands, it was said, had made quite a clean-up, and he made no secret of his belief that the creek would repeat the history of the glittering experiences of several decades before. But the miners did not take kindly to the tales circulated by Rowlands. They knew that Chinese miners had been working on the creek and had left it. They knew that when Chinese packed up their impleme and migrated from a place they had extracted every vestige of "yellow treasure" the locality held.

At that time Mr. Hussey was chief con-

stable and government agent at Kamloops,

and under him was Constable Burr, who was stationed at Ashcroft. Burr informed Mr. Hussey of the attempts of Rowlands to organize a stampede to Scotty creek, and the latter at once divined that there must be some excuse for it. Having had some mining experience he knew that there was very little, if anything, at this creek, so he told Burr to keep his eye on Mr. Rowlands.
One evening Mr. Hussey received word from Constable Burr that Rowlands had reached town and stored a sack of gold in Foster's general store. His intention, according to Burr, was to leave at midnight with his clean-up from Scotty creek, to return later and resume the exploitation of his property. The chief constable pondered over the case for a short time. Here was a man with a sack of gold from a creek that miners said was depleted of the yello stuff. He was leaving the country, and if he turned out to be the man who held up the stage he would never return. Hussey Odessa have both sent addresses the stage he would never return. Hussey decided to take a long chance, and he ordered the arrest of Rowlands. This Burr acminer was in bed. He had a six-shooter his recent utterances, and tendering him under his pillow, which Burr claimed he attempted to use when arrested. Rowlands appeared anxious to explain where he got the gold, and he made a state-

was tried at the Clinton assizes. S. P. Mills was the prosecuting counsel, and the judge and a number of the jury were men who had had considerab'e expérience in mining. Rowlands was convicted and sentenced to our or five years' imprisonment in the New Westminster penitentiary. A couple of years after that he made a break for liberty and escaped over the fence, although the guards fired at him. He has not been heard of since. While awaiting trial in the ATHLETIC CLASSES TO Kamloops jail he was a model prisoner. He was mild mannered, mild spoken, and his taste ran to religious literature. His de-meanor was more like that of a missionary than a highwayman. He passed the time principally in reading the Bible.

short time ago, both Supt. Hussey and Mr. Mills thought of Rowlands. The former advised the provincial authorities on the Mainland to secure a photograph of Row lands at the penitentiary and show it to the train men who "made the acquaintance" of the robbers at Mission. Unfortunately the same and in conversation they were efficient and compr the capture, trial and punishment of the uniquely similar, there being a liberal ac taken by that body in Victoria. companiment of profanity in both cases, steps were taken by the board to provide This of course is but a theory, and may all the facilities possible to insure the recalls a daring robbery, an interesting ex- mitted.
