It was shortly after eight o'clock when J. D. Hazen, M. P. P., called the convention to order. The leader of the opposition expressed his pleasure at viewing such a large and represen tative meeting. There were many old friends, he said, before him, and also a large number who previously had been in the hostile camp. To these iberal friends he extended a most cordial welcome. The manner in which the affairs of the province had been administered was sufficient to disgust all fair minded persons, and the time to entrust the seals of office to worthy men. On Saturday the electors of the parishes of Simonds and St. Martins, representing the eastern end of St. John county, had assembled in exceptionally large numbers and had chosen as their representative a man whom all trusted and believed in. The present meeting had been called to select four additional candidates, who he thoroughly believed would be returned with a large majority in the com-

Mr. Hazen then asked the meeting to select a chairman. C. B. Lockhart moved, seconded by Dr. Gilchrist, that W. H. Thorne be chosen. Mr. Lockhart, in making the nomination referred to the excellent work done by Mr. Thorne in a similar capacity in times past. The choice was unanimous.

Mr. Thorne in ascending the platform was enthusiastically cheered. He thanked the meeting for the honor it had done him and after referring to the object of the gathering as outlined by Mr. Hazen, asked if there were any resolutions as to organiza-

Shortly after the retirement of the nominating committee Mr. Thorne called upon Fred M. Sproule of Hampton to address those who remained in the hall. Mr. Sproul was given cordial reception and his address was attentively listened to, the gathering applauding his remarks over and over on the eve of a contest which would stand out by itself as compared with those of the past. There had been a welding together of elements which had heretofore been contending. The government was practically representtive of no party and of no principle. They appealed to the selfish interests of men on both sides. As a result th berals throughout the province seemed willing to join with the opposition in ousting them. Mr. McInerney was the first speaker. He was given a most cordial reception. He said he felt deeply the honor the convention had conferred on him by almost unanimously tendering him this nomination. His first thought therefore was to thank them from the bottom of his heart. The nomination came to him differently from what it did to the other gentlemen with whom they had associated him. That the electorate of St. John in convention chosen for their nen who were born in St. John or had lived here the larger portion of their lives, born and brought up here, was

The grace of the compliment they had tendered him reverted in some degree on themselves, for it was an indication of the hospitality of the people of St. John. But it was not without precedent, for on the platforn was a gentleman, Mr. Hazen, who after an equally short residence here was elected to parliament. And he Hazen reflected credit on St. John. He could if time permitted, cite other evidence of the hospitality extended men who came here. St. John's history was full of instances of generosity.
