PROGRESS.

VOL. IX., NO. 467.

ST. JOHN, N. B., SATURDAY, MAY 1, 1897.

THEY HAD AN OUTING

THE BARBOR WORKS COMMITTEE VISIC SAND POINT.

What They saw There Caused Them Some Surprise-Alderman Waring in Search of a Dredge-Tae Barbor Improvements may be Finished Mext Year.

The harbor improvements committee of the city council visited Sand P. i at this weak in a specially chartered tug for two purposes, probably-to see what progress was being made with the dredging for the contemplated wharves ; and as a sort of picnic hour-a little relaxation from the toils incident to the recent election.

They found out that there is consider-able of a hole in the bottom of the harbor at that place, consequent on the work of the dredges 'since Ostober last; they also found that about as fast as the dredges make a hole it fills in again, so that under the present system it can be safely computed that the wharf toundation will not be ready before April, third Tuesday, 1898, or to be more explicit next election day.

It is very much questioned whether the eity council, with all the dredges it can employ, and all the drives it can secure, can overcome nature there and get a foundation cleared out. The ebb and flow of the tide acting on the soft bottom carried it into any depression, and there could be no better dumping ground than the hole the city fathers are digging out. Anyone who stands at the wharf when

the tide is coming in; cspecially with a good gale, will agree that from the muddy dition of the water there is more earth and sand in transit than dozens of dradges could raise. To this must be added the run from the fish pond, and the peculiar cur-rents just below the eddy near the ferry landing.

Another difficulty with the dredging was Another difficulty with the dredging was the dredges were not able to work more than halt time—some of them doing about one day in five. It is no wonder that one of the Alderman expressed himself as believ-ing that the whole of Sand Point would have to be dredgtd away before there would be a chance to place a wharf. Another said it would be chapter to andermine Courtney bay and run a tunnel to Crouchvills than sink a wharf at Sand Point.

So the city fathers have seen the difficulty. It is not said whether they have their eyes further opened now than before the election; but they fully realize now that something must be done; and they have sent Alderman Waring to the States to secure if possible a more powerful dredge than any at the point. This was necessary although some of the aldermen objected and say that the advisory board

citizen because he may not have paid his cursen because he may not have paid his taxes does not accomplish its object. It assuredly reduces the vote, and it does not add one dollar to the funds more than would be paid in. It is the duty of the city to collect its taxes. It has the men and machi-nary for doing this work, and there are many who say that it would be just as well to change the law m this respect and allow change the law in this respect and allow all to vote whose names are on the Dominion

This is not a burning question now, but it is becoming so, and the city fathers will be called upon to deal with it before the year is past.

A BED CARNATION.

There Were Two, and the Actress got the Wearers Slightly Mixed.

For the past three or four weeks there has been a charming soubrette named Kitty Bingham, employed to sing. dance and otherwise amuse the crowds who nightly attend the Mechanic's Institute, and Kitty has managed by her mischievous looks, to turn the hearts of several of the guileless youths of the city.

One ardent admirer has expended several dimes for the past fortnight; not that he is in love with Kitty, but somehow he is always there in the same seat, and wear-ing the same smile when the young lady appears. Another saved his dimes and felt satisfied to see her as she passed into the back entrance of the theatre. Of course, all these young men hava compared notes, as to their respective advancement made

A dry goods clerk stole a march on the others, by securing an introduction to the little actress, and naturally enough the

other suitors grew jealous. Their jealousy made them more venture some, and one callow youth who vends books in a corn r book store of this city,

hit upon a brilliant plan by which he thought he could out distance all other competitors and secure the little sou brettes smiles unto himself.

The youth who has about reached the The youth who has about reached the twenties, accordingly phrchased a bonquet of massive proportions; which he intended to present to the clever little mild and thus win a place in her heart. The only thing which confronted the dis-penser of stationery, was how he would make the presentation without his advance in a station of the provide of

his adversaries getting any knowledge of his plan. The head usher of the theatre, his plan. In head unner of the theatre, who is a young man of genial disposition was thought to be the most suitable person to deliver the bouquet, and in compliance with a request made by the youth, consent ed to perform this duty. As Miss Bing-ham responded to an encore on Monday exempts the make was more to make down evening, the usher was seen to walk down the centre isle towards the footlights with

scious of what had happened, the soubrette and escort slowly wended their way to the young lady's boarding house on King square, closely tollowed by the bookstore clerk. Upon reaching the boarding house the young man was asked in, while the foolish boy who had presented the bouquet walked home much disgusted with what had happened. It was not until a few days later, that

It was not until a few days later, that the young man who had escorted Miss Bingham home, learned the facts of what had taken place and he now declares he will hereafter wear a red carnation.

MR. LOBB VS. MR. GRAVES. The Complicated Lawauit in Which They Have Been Engaged. One of those funny and yet peculiar

suits, which come occasionally before the court, was tried this weak and though at first glance it looks as if it might be disposed of it in a few minutes, it is just a little complicated. A shoemaker by the name of Lobb in the first place sued one Graves of Leinster street for 80 cents, the price of putting half soles upon a pair of boo's; and thin Mr. Graves sued Mr Lob's for \$3, the price of a pair of boots. The facts upon which the cases are based are practically as follows : Some time ago Mr. Graves took his boots to Mr. Lobb to get then half soled. The latter finished the work but Mr. Graves had either changed his mind and go: a new pair of boots, or else lost interest in his old ones, for he didn't arrive on schedule time to get them back.

Mr. Lobbs kept them for several weeks in his shop but as they took up consider able space, and there seemed no immediate prospect of the owner calling for them, he finally sold them to an employee of Campbell's livery stable.

About a month later Mr. Graves bethought him of the boots, and with 80 cents in the bottom of his inside pocket. he hied himsilf to Mr. Lobbs establish put his money on the counter and asked for his shoes. He didn't get them. Mr. Lobb informed his tardy customer of the sale that hal been made, but said he thought he could get the boots back by a certain hour that evening, when Mr. Graves was invited to call.

At the appointed hour Mr. Graves called in for the boots. Instead of the fairly good pair he had left—he found an old worn out pair which raised his temper to such a degree that he positively refused to recognize them, or have anything to do with them whatsoever.

After a week or two Mr. Lobb began to think he would be a loser all around and

HALIFAX CIVIC FIGHT. ALEXANDER STEPHEN IS NOW THE URIEF MAGISTRATE.

His Canvass was the Shortest on Record-The Churches Responsible For His Elec-tion-Some Reasons why A. J. Grant Lost His Election.

HALIFAX, April 29.-The civic election are over and Alexander Stephen is Mayor of Halifax, with 357 votes over his oppon-ent. The campaign was short and sharp. It is only a little over two weeks since Mr Stephen's card to the elections appeared and up to that time it looked as though ex-Ald. Hamilton would have a walk-over. Men opposed to Hamilton did their best to get J. C. Mackintosh to run, but he was

out of civic politics and would not consent. They then urged Hon A. G. Jones to offer but that "war-horse of the liberal party" did not care for the fray. Georga E. Boak was talked of but declined to step to the front. Then ex-ald. Stephen entered the breach, announced his candidature, and the opponents of Mr. Hamilton at ones fell into line. The battle of the ballots ended on Wednesday at 4, and Mr. Stephen comes out with a majority of 357. Up to ward 4, and leaving it, Hamilton was only 33 votes behind his opponent, but at ward 5 he met the solid north, which in its two wards of 5 and 6 added 324 to Mr. Stephen's 33 at 4, and swept him into the chief magistracy. Mayor Stephen's victory is undoubtedl due to the influence of the churches, for apart from that, the temperance vote is not worth considering. Besides this, Mr. Stephen has had some experience in civic affairs which gave him a right to speak The churches having put Mr. Stepher where he is will keep an eye on him, and will see to it that he fulfills the expectations entertained of him.

The canvass against Mr. Hamilton was a very bitter one. He was charged with a very bitter one. He was charged with almost everything by the men who worked for his deteat, and all denials were of no avail. Hamilton deserved better of the citizins. He is trankness and outspoken-ness itself, and he is a hater of what is small or mean. His openness and blunt-ness in expressing opinions are what cost him his election on Wednesday. No man in the city knows more or has a better in the city knows more or has a better grasp of civic affairs than ex-alderman J. T. Hamilton.

Mayor Stephen now has an excellent chance to do a lot of good work as head of the city government. The "ring rule" that is supposed to obtain must be broken by him if he is to please his supporters, and there are many reforms to be ac not wishing to ask the man to whom he had first sold the books to take them back, he sued Mr. Graves for the 80 cents origin-ally ewed. Not to be outdone Mr. Graves

PRICE FIVE CENTS

among the Oddfellows; he is an ultra con-servative in politics and he is a popular good fellow who is to be congratulated on his success.

One of the surprises of the day was the election of Dr. A C. Hawkins in ward 6. The doctor mide a house to house can vass calling at every door, neglecting not one whether friendly or hostile. Hence his success. It is said the doctor h is been casting his eye towards the city medical officership, but there is no chance in that quarter. Thomas Goudge was second with Wm. Blois at the foot of the poll in ward 6. Hawkins had a larger vote than goudge and Blois combined.

THE TWO MESSRS. PIKE.

They Seem to Have Imposed Upon Trusting Halifar Clergymen

HALIFAX, April, 29,-The next Pyke that comes to Halifax from abroad, whether he is a good man or a bad, will be looked on with a considerable degree of suspicion. This is sure, and the certainty is based on the fact of two men of that name who recently resided for some time in our midst having turned out unsatisfactory sojourners. The first represented himselt as interested in poor children in England and asked for collections from city churches where he delivered addresses. Rev. J. F. Dastan of the Grove Presbyterian church was one of the chief sufferers in this respect-not so much in the loss of collection but in the loss of a service. Pike had agreed to preach on a particular Sunday in the Grove Presbyterian church but not having paid his board bill be deemed it would pay him better to abandon the service and lea poor Mr. Dustan to his own resources, ra her than face the proprietor of the 'hote where he had been stopping. Accordingly Mr. Pike disappeared. This incident af-forded a good illustration to those members of the Presbytery of Halifax who objected to special revival services, or rather who declined to have anything whatever to who declined to have anything whatevar to do with religious workers who failed to carry the very best credentials from the most undoubled source. This discussion among the theologians wared quite warms and it only ended with a notice of motion by Rev. Dr. Black that he would bring the matter up again at the next meeting and fight it out to the bitter end The Rev. Dr. seems to be opposed "troot and branch" to mat reopposed "root and branch" to most re-vival meetings; he cartainly is so if the revivalist comes not thoroughly recom-mended. This Pyke came in a quiet way

as a practical argument against such meet-ings at the presbytery of Halitax. The other Pyke came from an upper The other Fyke came from an upper Canadian city some months ago. He preached in a number of the smaller churches but the bishop was foo wary to recognize him and he could get no permanebjected and say that the advisory board are taking too much on themselves just now-that an election has been run, and that nothing should be done in the way of expense till the new council so orders. However, be the following words were expense till the new council so orders. ent work. Hewever, he was engaged in In ward two it was supposed there would be a great contest between Ald. Redden and A. J. Grant. Early in the campaign Grant's supporters were willing ing a big board bill. He was wores to wager considerable money on his suc-even then a mere defaulter in his board, eess, but Redden won at the polls on for this reverend gentleman gave bogus for this reverend gentleman gave bogus even then a mere defaulter in his board, Wednes isy with a majority of 437. Poor Great succeeding only in getting a total of 171 votes. Redden was undoubtedly the better man, and nearly everybody is location to give malifax a rather wide better man, and nearly everybody is pleased that he has been re-elected. The United empire loyalists or kindred so me-most roundly abused man in the city on

However this may be, the ex use is the necessity tor expediting the wharf building. It has been decided on motion of Alder-man McMulkin that the whart be built by tender and that it is fifty feet wide on the base, coming up to a shelf when it will drop into thirty feet. It is believed by the engineer and the board that the sand and salt will drift into the cribs that form this shelf and act as ballast for the whole

struc'ure Some of the aldermen have a grievand which they intend to ventila to at the meeting on Tuesday, probably, respecting the ring mathods practised at the election. One man says that the roadmen were taken from man says that the roadmen were taken and ordered the street, supplied with ballots and ordered to vote them. If this can be proved it should inconstants the dismissal of the official: It is claimed also that something similar was done in Carleton. This calls for close continy and if the facts are as repre-sented an example should be made of the officials in question. St. John has conduc-ted its business on a fair and honest basis and it is certain the present board are just the men to dispense with officials who will thus make their position a laver for sup-

5

thus make their position a lever for sup-porting a ring. It is satisfactory to know that several of the aldermen disolaim all knowledge of this-that if there was any wrong of this and it may be that this is the case with all, but it so then there is all the more reason to expect that the outpert will be dealt with the more severaly and speedily. Thinty noven hundred voters took occa-tion to east their votes in the civic electron. There should be ten thousand at least. It may be that the system of distranching a

written. "The donor of this bouquet is se ed on the right hand side of the hall, wear-ing a red curation in his buttonbole-

may I have the pleasure of seeing you home after the performance ?" The pretty soubrette retired from the

stage without noticing the card but upon howing the bouquet to her fellow perform ers the card was discovered. The bouquet afforded material for much

comment, and Kitty was given anothe specialty to perform, to ascertain positively

who was to accompany her home. Miss Bingham looked in the direction designated in the note, and was rather inssed, when she discovered that tw young men were seated on the right side of the house, wearing red carnations. Now one of these two had sent the ouquet, but it was not known by the prightly actress, which was the sender o

the flowers. f The young man who sent the bouquet, as usually the case was made the butt of the joke, for it so happened, that the other fel-low who wore a duplicate carnation, had some influence with the stage manager, and after the curtain had dropped on the third act he visited the wings of the stage. He was not there long before Miss Bing-bum with whom he was personally ac-

han with whom he was porsonally ac-quainted approached, and thanked him for the bouques.

quainted approached, and thanked him for the bouquet. The young man did not explain but, made the sonbrotte if he could not ese her home to which he received an answer in the affirmative. As the couple cause from the side door of the theatre, they passed the youth who had given the bouquet. Perfectly uncon-

attendants.

AT THEIR OLD STAND AGAIN. Patrens of the Opera House are Glad Harrison Back

Harrison's orchestra made its appear ance in the opera house last week after an absence of about one year, much to the delight of the patrons of this theatre. In May last the orchestra was furnish ing music at the rate of \$2 for each piece per night but the management of the opera house thinking that this was more than should be paid, decided to secure cheaper talent.

Consequently the Y. M. C. A. erchestra was secured but their engagement was of short duration owing to some trouble that occurred between the orchestra and the organization from which the combination derived its name.

Mr. W. C. Bowden a young man of considerable enterprise organized an erches-tia which comprised talent of good standing, whose services he offered the management of the Opera house. Bowden's orchestra was eventually en-gaged at \$1 a night per piece with the understanding that a certain . number o understanding that a certain number of pieces abould provide music at the rehear-sale. Things went on quite smoothly until a few weeks ago when the reheareals began to come too fast and the orchestra struck for two dollars. The orchestra was allowed to concel its engagement and Harrison's orchestra has been re-engaged

Harrison's orchestra has been re-ang-at the old rate. Patrons of the theatre are highly play to see this orchestra, with its popu-leadar, discoursing music at the op
