### Taken For Trip About The Harbor

Western Members of Parliament Were Shown About the Harbor Yesterday—Good Reason for Break-water Extension Was Shown.

Accompanied by the city and harbor officials and members of the Board of Trade, the Commercial Club, the Rotary Club, the delegation of Western Members of Parliament were taken for a trip about the harbor yesterday afternoon. They left Read's point at four o'clock in two tugs, and first went up to see the Reversing Falls. Striking the Western Shore on the harbor they went down to the Negro Point breakwater, where a heavy sea was flinging the white water right over it. It was too rough to keep them long in that vicinity. But the day was an ideal one to prove the need of the extension of the breakwater to Partridge Island, and when that question comes up in Parliament there is no doubt that all the members of the delegation will be prepared out of their experience as sailor men in the outer harbor, to vote for the extension.

This morning at ten o'clock the pilgrims will be taken in cars to view the excavation of the dry dock. At one o'clock they will be entertained at luncheon at Bond's by the Rotary Club, and at 4.30 they will board their cars for the return trip to Ottawa.

### UNIVERSITY OF ST. JOSEPH'S NOTES

The aggregation of hockey artists of the St. Joseph's College team and who have won both games played at the beginning of the season have been obliged to discontinue this sport for the remainder of the hockey season. Although a few games were scheduled to be played with other teams along the line, the St. Joseph's boys were forced to postpone them on account of inclement weather. Last year the team was well up in this line of sport and had an all-star team under the management of Orwald McDonald a St. John boy. Out of twenty-two games played, they won nineteen, making an established record in the history of the college.

At the present time St. Patrick's Society are arranging for a banner entertainment which will be given in the college auditorium on St. Patrick's night. This is one of the big events of the season and is looked forward to with interest by all. A large number of St. John boys are members of this Society.

The latter part of the season's work has commenced with all the students working hard and progressing most favorably with their studies.

### MARKET HESITANT AND IRREGULAR AS TO PRICE CHANGES

Downfall of German Republic Had But Little Effect on Trade — Rails Comprised Most Noteworthy Feature.

New York, March 12.—The stock market was hesitant and irregular as to price changes at the opening of today's brief trading period, but soon moved forward, traders ignoring reports of the downfall of the German republic. Rails comprised the most noteworthy feature, as a group, many of those issues adding two to four points to recent gains, and showing extreme advances of five to ten points for the week. Individually crucible steel, several issues adding two to four points to 241, after an early decline of 2-1/2 points, being accomplished at the further expense of short interest.

General utilities, which usually moves in common with crucible, was most erratic, losing four points at the outset, rallying six and closing at a fraction less.

Other matters, also steels and equipments were one to five points higher. Chandler and American Car makings noteworthy gains with several of the shipbuilders. Oils were apathetic. Sales amounted to 475,000 shares.

Aside from sterling, which declined slightly, the foreign exchange market made no material response to the disquieting German situation. Even marks, in which dealings were reported as nominal, yielded only moderate gains. The bank statement indicated that precautions had been taken to fortify the money market against next week's heavy tax disbursements. Actual loans increased \$7,000,000, reserves including foreign issues, was steady to firm. United Kingdom 5 1/2 of 1927, displaying exceptional strength. Sales, par value \$5,375,000.

Old United States bonds were unchanged on call for the week.

Ottawa, March 12.—(By Canadian Press)—Purchases in Canada as the surest palliative for the adverse exchange situation was the chief point in an informal talk on the exchange question given by Sir Henry Drayton, Minister of Finance, to the Canadian Purchasing Agents in convention here today. Canadian purchasing agents hold the remedy in their own hands, said Sir Henry, and they could apply it by purchasing goods and materials in Canada wherever possible.

### BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE  
Frederick S. Kelle, M. D., Editor of New York Physicians' "Who's Who," says that weak, nervous people who want increased weight, strength and nerve-force, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal.

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two weeks' supply—it costs only fifty cents a week.

Get less; chew your food thoroughly and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing.
