The bubonic plague, which showed itself in Cape Town, Mr. Soloman says, is now in Cape Town, Mr. Soloman says, is now disappearing. The origin of the trouble was found to be among the rodents which infested portions of the docks. Great precautions were taken in regard to the native population, whose method of living was such as to encourage the scourge.

Asked as to whether the war could have been avoided, Mr. Soloman said that his opinion was that it was a fortunate thing for the empire that the Boers delievered the ultimatum and brought on the war when they did, as they had been arming for many years; that the Africander Bund in the colony encouraged the idea of an Africander republic, where no English language would be permitted and where the Dutch would have supremacy; that this political association was in full sym-

The most of us have no need to cultivate high temper, and how often we say things and do things under affronted impulse which we are sorry for when perhaps it is too late to make effective apology! Why, then, should the apostle Paul dip his pen in the ink horn and trace upon parch-ment, afterward to be printed upon paper for all ages, the injunction, "Be ye angry and sin not?"

My text commends a wholesome indignation. It discriminates between the offense and the offender, the sin and the sinner, the crime and the
