Belfast Merchants Fighting Shv of Any Large Purchases - Prices Low But Stocks Well Cleared Out.

"The majority of the Canadian shippers who make an annual visit to this country have now returned home," says the Timber Trades Journal, London, England, "and though they have not had reason to congratulate themselves on the net result of their endeavors, they have the satisfaction of knowing that things might have been much worse. Owing to various causes, prices have not been so satisfactory, but manufacturers have made a good clearance of their stocks. The stocks in the Ottawa district being disposed of very well (at reduced prices, however, on last year's figures), and buyers in the Ottawa district being light, buyers on this side should be able to do well with their purchases.

Militants Cheer the Performance of Daring Ones Who Invaded Buckingham Palace - Dire Threats Now Against Archbishop of Canterbury - French Amazon Helps the English Fanatics.

London, May 28.—Buckingham Palace is to be no longer exempt from the window smashing raids of the suffragettes. It leaked out tonight that between 11 and 12 o'clock last night two militants succeeded in evading the sentries outside the palace. Entering the quadrangle, they began throwing stones at the windows, and had smashed two of them when the sentries seized them and took them to the police station, where they gave their names to the police.

At a meeting of the Women's Social and Political Union tonight, when Mrs. Mansell told of what the two women had succeeded in doing, the audience burst into cheers, lasting several minutes. The suggestion that the queen must be notified of the treatment meted out to imprisoned suffragettes was received with loud cries of dissent.

The supplementary brought down today are largely into \$200,000,000, chargeable to revenue, and \$7,772,715, chargeable to capital account. Taken in conjunction with the main estimates submitted last February, the total appropriations or revenue account amount to \$106,462,828, and the total appropriation upon capital account to \$81,731,765. This is an increase in the amount asked for the ordinary expenses of government of \$18,289,509, while capital expenditure appropriations are decreased by \$7,772,896.

SIR WILFRID LAURIER

(Special to The Telegraph.) Ottawa, May 28.—We cannot always expect to win that is not human nature. Our great purpose should be, not mere winning, but seeing to it that we have the best cause. I am not indifferent to success, but still success is not the main object. Our obligation is to fight for truth and justice, as God gives us to see truth and justice.

THE END OF A GREAT WRONG

(Toronto Globe.) The passage of the Home Rule bill at Westminster yesterday is an event which will bulk largely in history. Not since Stonewall Jackson took Dublin Castle from the Danes has a castle over seven centuries ago, and prepared the way for the Irish people to be ruled themselves from the capital of Ireland. The Norman knights had scarcely doffed their armor after the subjugation of the Irish chiefs before they began to divide up the land of Ireland. They held most of it till our own day, when, under the provisions of the Land Purchase Act, the Irish people were enabled to buy it back from their despoilers.

With the land went most of the liberties and privileges of the nation. A curious fight is cast on the assertion that the Irish question is a religious issue, and that the struggle is between Catholic and Protestant for political supremacy, by one of the earliest letters of instruction from Henry VIII. to the Chief Justice of Ireland. In 1577, the year after his accession, the king directed that no Irishman should be elected or preferred in any cathedral in Ireland, since by that means our land might be disturbed, which is to be deprecated.
