**ENGINEERS HAVE YOU EVER USED SPOONER'S COPPERINE?**

If not, you don't know what solid comfort is. No Hot Boxes to worry your life out. No stops to annoy the owners. Saves oil, wears longer, is much cheaper, easier handled in the ladle. This one metal does it all. You can swear by it every trip. "No other metal is in it."

**COPPERINE**

Superintendent's Office, Water Works Dep't. TORONTO, January 6th, 1891.

ALONZO W. SPOONER, ESQ., Port Hope, Ont.

DEAR SIR: I am pleased to say that after nearly three years' constant use day and night, on our largest engine, your Copperine has stood its work well. I have not had to renew any of the heavy bearings yet, so I consider that speaks for itself. I am pleased to recommend it to any one in need of metal to stand heavy work.

I am, yours truly,

J. C. FERGUSON, Chief Engineer Toronto Water Works.

Manufacturers of

WATERPROOF HORSE AND WAGON COVERS, OILED CLOTHING, ETC.  
S. R. EARLE, Esq., Belleville, Ont. Port Hope, June 23rd, 1892.

DEAR SIR, - We have had in use for some time, your Combined "Air Injector and Exhauster" and with pleasure we state that it is giving us the most complete satisfaction. Regarding the saving in fuel, we were burning, before using the "Injector," two tons soft coal per week, at a cost of \$9.00; after we put the Injector in, we burn two ton hard coal screenings per week at a cost of \$2.00 making a saving of \$7.00 per week, which speaks for itself. We have a much cleaner and better fire and far less trouble in keeping steam. We consider your invention a boon to all parties using steam boilers. Wishing you every success, we are,  
Yours truly, (Signed) THE CANADIAN OILED CLOTHING CO.
